Communicating Spirits: *Chrysostom of Smyrna; Confucius; Euclid; Homer; Petrula; Pharah; Plato; Hippocrates; Kazantzakis; Plutarch; The Spirit of Truth.*

1.1 What is the Spiritual World?

{Confucius}

[3-255]

Many men have not understood what the Spiritual World is, even though they are **inside** spiritual centres. They are the disbelieving Thomases. Ignore them and do not be interested in their faith; they will be compelled to believe when they become wrecks of humanity.

inside: attend.

First of all, your brothers need to become familiar with what the Spiritual World is. It is neither a theatre, nor the Delphi oracle. It is the Highest Authority of souls with the Lord as Leader and His advisors being His Stars and the Executive Leaders of sections.

Transmission of lectures from the Spiritual World takes place directly from the Palace of the Lord or, alternatively, from the area of Spiritual Splendour whose Highest Leader is Divine Plato.

The means of communications are many and without accountability. This is because, while you follow the talk of a particular Leader, it is possible for the Evil Spirit to continue the same talk, but with a different aim, because the **apparatus** can be used by both sides.

apparatus: in this case the medium. Sometimes they are referred to as the equipment. Both sides can use the apparatus: good and evil.

When they have the necessary attributes spiritualists can tell the difference in various situations, between the correct and the incorrect. But often Man's spirit is unable to differentiate between the qualities of the speeches and thus he makes a great error if he does not check them. For this reason, from a long time ago We have insisted that **this path** would check everything. This is because it is unique of its type. It was created by the Lord and blessed by Anarhon. Those that have

this path: the communication link between The Divine Authority and the medium (channel) G Pisanis.

sacred Faith will accept this Truth; but those that are attracted by the Evil Spirit, should distance themselves from Our Texts because they will become the reason for their downfall. Let these men examine this Truth. Unfortunately, when they accept It, it will be too late for them, because they will suffer the just punishment of the Spiritual World.

The Spiritual World punishes the thorns of societies so it can save the flowers of humanity whose perfume will revitalise all brothers, so that, through their third eye they will see the Light of Truth and the benefit to their soul.

Many men are content with only being non-believers, and they also drag other naïve men to the precipice. In this case their sin is multiplied in the Spiritual World and in vain will they ask the help of the Divine. The Divine does not have ears for them, since they did not listen to the Voice of Heaven or else ignored it through unfaithfulness and materialism.

In time I will teach an honorary member of your brotherhood, who is present here, the lever with which to eliminate falsehood. This lever is part of the ammunition of Love and only through this lever I eliminate the falsehood of the people responsible in my faraway country on Earth. I am late, but I have acted appropriately, so that I can forever destroy the god of falsehood and of hypocrisy.

When a leader of a country does not know the benefits of Love, his spirit materialises the Good at the expense of this Good. We say: “The wicked snake causes pity, in order to destroy the benefactor”. It is an old Chinese proverb.

My brother and your brother will be astonished by Heaven’s wisdom when he walks towards it and

perceives that the entire wisdom of your world is nothing but a bubble. There was only one wise man in your world, Socrates. All others have taught truths and falsehoods. Falsehoods in their ignorance, because this wisest of all knew what he didn't know: That, which he doesn't know!

1.2 Spiritualism is the most ancient religion

{Pharah}
[18-202]

Something strange is happening. Even though We are all powerful as an Authority of the Spiritual World and do not wish to exceed the limits of trust that the Lord has in Us, despite this, you (I do not mean the very faithful) often compel Us to expand indirectly and give further explanations. Why is this?

It is because you do not have sufficient Faith in Us. Without Faith, as you know, you will not be able to develop the spirit and balance it with the soul.

While on Earth the governor of you yourself is the spirit and very seldom the soul. Your actions are spiritual. That is why your gatherings are Spiritual and not **psychical** (of the soul). You, what do you know about the soul? Nothing! The soul is Divine Breath. It cannot be researched or analysed, even in Heaven.

psychical: based on the soul. From the Greek ψυχη psyche for soul.

Why do small-minded men seek to dispense with the word "spiritualism"? Is it because a few of the clergy are enlightened and inspired by the thousand masks that Lucifer has at his disposal? Ask to learn what the meaning of spiritualism is, because I see that you have perceived it wrongly.

Spiritualism is the most ancient religion of nations and I can also say, at the same time it is the newest. spiritualism has opened the gates of Heaven and it teaches everything that the Lord taught, with the difference being that today it adds not spiritualism per se, but the Lord through spiritualism. It teaches mortals new directions and unknown Mysteries that have never been taught since the beginning of the world!

Do not misunderstand these words that are given by the **Light of Truth**. Have a look at all the nations of your world to ascertain that what the Lord has proclaimed in His Parliament is all true. Why do you then dispute everything that Heaven transmits following instruction from the Lord? If you do not have pure Faith in the Spiritual World, there is no point in coming to It and following Its Teachings. Heaven has never taught anything that will harm humanity. On the contrary, it advises and directs towards the correct Path of the Lord.

Whoever does not accept these **New Scriptures** of Heaven, opposes the path that the Lord has drawn. He wears the mask of an angel but remains an evil spirit inside.

1.3 Why the Nicaea Synod excluded Spiritualism

{Pharah}

[23-101]

Dear brethren, it is very pleasing that amongst you is a brother who preaches the Word of the Lord. We do not differentiate if one is a clergyman, the other a scientist or a simple mortal. All men are equal in front of Divinity. Those who have attributes necessary for the development of their entity and their spirit will take appropriate places in the

Light of Truth: is Lord Pharah and He uses this name, Light of Truth, when He wishes to stress His Authority.

New Scriptures: all the texts that have been delivered via the spiritualist meetings to the Spiritualist Society of Athens. "The Divine Light" and through its channel G Pisanis.

The First Council of Nicaea was a council of Christian bishops convened in Nicaea in Bithynia by Roman Emperor Constantine I in AD 325. The Council was historically significant as the first effort to attain consensus in the church through an assembly representing Christendom. The First Council of Nicaea

Heavenly Kingdom.

Be careful not to slide backwards. This is because no matter how much you wish to be seen as good and worthy of the name “Man”, the Devil lies in ambush to obstruct you from directly entering the straight path that the Lord teaches.

Bear in mind that in all the nations where Christianity exists, almost all the churches are empty. The clergy are to blame.

In the Orthodox Eastern Greek Church the opposite happens, and everyone is happy because the people keeps its religious sentiment! I will prove to you that none of them is a true Christian. He enters church from habit, fear and need. He lacks the sentiment of Faith. He says that he believes, and if you ask him what he believes in, he will answer: “God, Christ and the saints”. He says all these unconsciously. Man has Faith only when through actions he proves that he follows the Path that the Lord gave towards Faith.

Who is going to teach the spiritually uneducated people what Faith is, what Love is and what compassion is?

The clergy will.

But does it do this?

No. Only in parrot fashion do the clergymen, as professionals, read the Gospels and the prayers, and ignore the souls of men. You have as tangible evidence the clergy themselves, who fight each other for who will obtain a position and how much is he going to receive from the church, even by duplicity.

is commonly regarded to have been the first Ecumenical Council. Most significantly, it resulted in the first uniform Christian doctrine called the Nicæa Creed. With the creation of the creed, a precedent was established for subsequent general councils of Bishops, Synods, to create statements of belief, the intent being to define unity of beliefs for the whole of Christendom. The council did not invent the doctrine of the deity of Christ as is sometimes claimed. This idea had long existed in various parts of the Roman Empire. It had also long been widely endorsed by the Christian community of the otherwise pagan city of Rome. Instead, the council affirmed and defined what it had found to be the teachings of the Apostles regarding who Christ is; that Christ is the one true God in Deity with the Father. The purpose of the council was to resolve disagreements arising from within the Church of Alexandria over the nature of Jesus in relationship to the Father; in particular, whether Jesus was the literal Son of God or was he a figurative son, like the other "sons of God" in the Bible. St Alexander of Alexandria and Athanasius took the first position; the popular presbyter Arius, from whom the term Arian controversy comes, took the second. The council decided against the Arians overwhelmingly (of the estimated 250–318 attendees, all but two voted against Arius).

A leader should serve either God or **mammon**. Unfortunately he serves the second. Those opposing the leader's decision rebel, not because they received poor direction but because they were not first! When the clergy carries this out and they become the laughing stock of the world, what should the faithful (the faithful in name) do?

mammon: god of riches; personification of wealth. The word itself is a transliteration from the Hebrew word "mammon" which means "money".

It is sad that those who represent Divinity mock It and promise their brothers that they will receive positions in Heaven and in paradise! What do they know about Heaven since they are even ignorant about Earth?

If the clergy of the whole world, Christian or otherwise, raise their voices against war, be assured that the pitiful passion of exploiters will be avoided! Therefore, the hierarchy of clergy and State cooperate, not for good but for evil, irrespective of whether they proclaim peace on Earth and then bless the weapons of the soldiers against the enemy, who is doing exactly the same, as another **Christian** nation!

*Many examples exist in history of **Christians** fighting Christians including the WW2 in Europe.*

Therefore, the governments of today's era are incapable of governing when they become toys of the wily enemy of mankind for the sake of profit.

If you read Our Texts to the clergy, without telling them where they came from, they will not be offended as much as if they knew they are from the Spiritual World!

Why do they detest the Spiritual World?

It is because once the Holy Synod of Nicaea decided to ban spiritualism and justly so, because it was being abused by misguided men and many of the fickle spirits took part in communications and subverted the situations with "Evil Logic".

Today the same thing does not happen. Man is not at the same spiritual level as at that time. The world progresses, it does not go backwards. It is now time to differentiate, to judge and decide to come into contact with the Light of Truth and not with fickle spirits as was done then.

As a Heavenly Power, We will not let the wrong perception of the clergy expand. This is because our purpose is to enlighten not only them and the theologians who do not know what they are saying, but also the whole world of education and progress.

Progress is achieved not through mechanical means but through the spirit when this penetrates into the inner world of the entity and comes into contact with its conscience.

Turn inwards and you will solve directly all the problems of your life, even the difficult ones. This, of course, does not happen from one instant to another but through your effort and goodwill and the Enlightenment that you receive from the Spiritual World for your brothers.

The Lord blesses your heads and wishes you to become transmitters of His Light.

1.4 About the Soul

{Plato}

[19-64, 65, 70, 78, 80, 84]

Please enumerate my texts.

No. 1

My dear brethren, the Spiritual World has made you aware why Man appeared on Earth and what his obligations to God and to his brothers are. The

Editor's Comments:

Similar text was given in Book 1 of this series. For the sake of completion I have translated these six new texts numbered 1 to 6 dictated by Plato who discusses the soul and spirit with some additions. It complements texts in Book 1.

Spiritual World has touched upon a number of Mysteries on Earth and has opened the path towards Heaven. It has taught you that life is not mortal, however it develops in Heaven at a slower pace whereas on Earth it develops quickly, if the entity so wishes.

We touched upon many useful points for your knowledge, for your soul education and for the relationship of Christ's religion with other religions foreign to Us. Now We will touch upon other points in these gatherings: how the soul departs and in what direction.

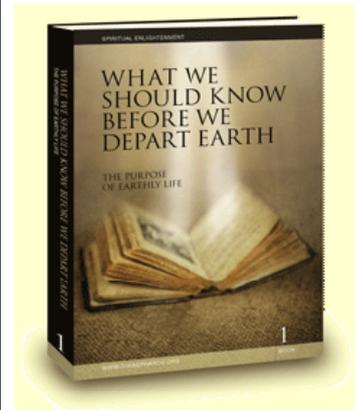

There are four directions that I will analyse in the future, so that you can see where the soul arrives and how the Heavenly examination of it takes place. That is, how the entity apologises to its conscience because the conscience is the only and the strictest critic of the soul's actions on Earth and of everything that relates to the soul until it reaches the Station of Repose (Paradise) or the Heavenly Authority or a place available for its return to Earth. The waiting for an available place can last from one year to centuries and it depends on the quality of each soul. **By saying soul I mean the spirit.**

I will return.

No. 2

We said that the *souls* that migrate go in four directions. I will not refer to those *souls* that return to the material world with a Divine Mission. They are dealt with differently.

Soul direction 1: *Souls* that have a **weight (sin)** from another pre-existence, have been unable to acquit themselves of this prior material weight and have added a further material weight to their entity.

As a reminder I summarise:

The human entity consists of three parts:

- 1. The **body** (flesh which is perishable)*
- 2. The **soul**, and*
- 3. The **spirit**.*

*The **soul** has no physical substance. The **spirit** has no physical substance, (other than a faint material essence so that it is not foreign towards the body). It is independent, and has free-will; **it can** be externally influenced.*

NB:

*Plato at the end of the first teaching clarifies **by saying soul I mean the spirit**. When He refers to soul directions, this is strictly true since the spirit which is bound to the soul follows. Translating "soul" as "psycho-spiritual" entity would be more appropriate here but I have adhered to the strict translation, which may confuse some people. Where I believe that "soul" should be translated as "psycho-spiritual" I have used italics for the word "soul" in the main text.*

*The Bible never confuses the spirit and the soul as being one and the same (**two different words and two different meanings**).*

Soul direction 2: *Souls* that had a small weight were able to remove it and a new one, not connected to the first one, was added to their entity.

Soul direction 3: *Souls* that did not have any weight, reincarnated so they could be tested but made no progress. They did no good neither did they hurt anyone.

Soul direction 4: *Souls* that doubt the existence not only of the soul but also of God Himself.

These four *soul* categories are subdivided into many other smaller categories. I will not mention them. It is enough that you know the main ones.

I have not yet spoken about death. We will see in the future how these *souls* migrate and what are the main and basic categories of their migration.

No. 3

First category: A *soul* in Heaven is to descend on Earth. It carries a **weight** from a previous existence and decides on its own into which family it is going to appear. If this *soul's* choice is a counterbalance to its weight, then this is good. But if the *soul* chooses a better life than its pre-existence so that it would add more weight, then when it descends and goes through the Barrier of Forgetfulness it does not have a perception of what is happening and it follows its Guardian Angel blindly. The Guardian Angel has orders to take the *soul* not to where it wanted to go, but to where the Spiritual World has determined. This occurs for the **benefit** of this *soul*.

Another situation is when the weight on the *soul* is unbearable because two weights have been added, that is, the entity's errors from previous pre-existences. If the *soul* chooses the appropriate method for atonement of its sins, then it is possible,

*Soul and spirit are interlinked, inseparable and form a **psycho-spiritual** entity. The psycho-spiritual entity floats in the universe unless bound into a body.*

Therefore:

- 1. Both soul and spirit are ethereal immortal entities.*
- 2. The soul and spirit are two inseparable distinct parts of the same entity called the psycho-spiritual entity.*
- 3. All entities are "powered" by the breath of God (soul) which cannot be analysed.*
- 4. The soul provides all the necessary energy for motion, development, thought, protection etc for its human entity. It never acts in a wrong way; it also contains the entity's conscience.*
- 5. Each human soul contains an inner chamber where the secrets of Deity and information about previous existences reside.*
- 6. The soul as a pure motive power permeates throughout the whole human body; it does not participate in decision-making.*
- 7. The spirit is the element by which a human perceives, wills, thinks, judges and decides. It has free will.*
- 8. The spirit gives the orders for various actions, whereas the soul provides the motive power (energy).*
- 9. The spirit is located in the brain. It is the controller of all intellectual operations. The spirit, being imperfect in its essence, does not always act correctly.*

weight: *sin is usually called a weight that an entity must carry until it atones thus removing the weight. The bigger the sin the heavier the weight and correspondingly the deeper in Erevos the entity must go to suffer the self imposed*

if it truly repents, for it to be reborn and not live as a newborn.

If the *soul* descends with the aim of entering into a middle class family and it has neither weights nor any good deeds from its previous existence, then Divinity tests it and, instead of it becoming a child of a middle class family, it becomes the child of a magnate.

Those *souls* that have insulted or vilified Divinity - they always say from ignorance because this is their refuge - they are punished and become vagrants in their new life. But if they blasphemed against the Holy Spirit then their punishment is terrible because the Holy Spirit is the Spirit of the Father and of the Son. God is not a Spirit, because He cannot be analysed. However, this is a special case that does not concern me. Therefore, this new *soul* will be enlisted amongst the condemned and will be punished on Earth.

There are many situations. We have only talked about the main four. Now we will talk about death and how the *souls* depart under different circumstances. I will discuss the key points again next time.

No. 4

My friends, when the *soul* exits from the body, for three days it is as though it is unconscious. It does not know where it is and it is not aware of its situation. But, there are appearances of *souls* during the day of death or prior to its recall. These *souls* do not appear themselves. It is their Guardian Angel who takes the astral (astric) body of the *soul*; the Guardian Angel, knowing the attributes of the *soul* that it protects appears in the eyes of relatives or friends as a vision or in their dream, to show that it is wrong to grieve for the loss of the

punishment.

Even though the psychospiritual is given a choice the Spiritual World makes the final decision for its benefit.

soul. The *soul* lives and it will live in all the infinite centuries, except, if this *soul* was not satisfactory during its earthly life, in which case an unknown time will elapse until it dies in Heaven and is resurrected on Earth. This we call “reincarnation”.

After three (3) days the *soul* needs to be oriented and not disturbed by its earthly brothers so it can arrive at the gates of the Spiritual Kingdom. This whole process requires forty (40) days for the earthly brothers to forget the entity and the entity to forget its earthly brothers and the material world, if it loved the material world more than the Spiritual.

Often these forty days (40) are not enough. That is why the Heavenly Law states that the *soul* can communicate with its earthly relatives after an absence of six (6) months. In the meantime, if in many spiritual communications the *soul* appears much earlier (something that does happen) it is not the *soul* that you have called, as stated before, but its Guardian Angel. This happens so you are not disappointed.

Where does the *soul* stay during this time? It remains in the Transit Centre. There are many, numerous *souls*, both known and unknown there. They are all waiting. They do not know when and where they are going to go until they have become accustomed to their new surroundings.

Those *souls* that were devoted to the material world and never engaged with the Spiritual World are truly unhappy. They ask for the intercession of their earthly brothers so that they can improve their position.

Time (for you, because here it does not exist) will soothe the *souls*; and if they do not have a weight liability, they will be placed in a position according

Editor's comment:

- Remember that time exists only on Earth. In the Bible, 40 is frequently used to represent a long period of time during which something of great importance is accomplished.
- In Noah's period, God caused a great flood by causing rain to fall for 40 days and 40 nights.
- After leaving Egypt, the children of Israel wandered in the wilderness for 40 years.
- After being Baptized, Christ fasted for 40 days.
- Christian Orthodox faithful accept that 40 days after a beloved's death indicates the end of the period of mourning. They mark the occasion, by remembering the departed by praying for their souls.
- In most, if not all Orthodox traditions, memorial services/prayers are said on the 1st, 3rd, 9th, and 40th day after death, and on every annual anniversary of the beloved's death.

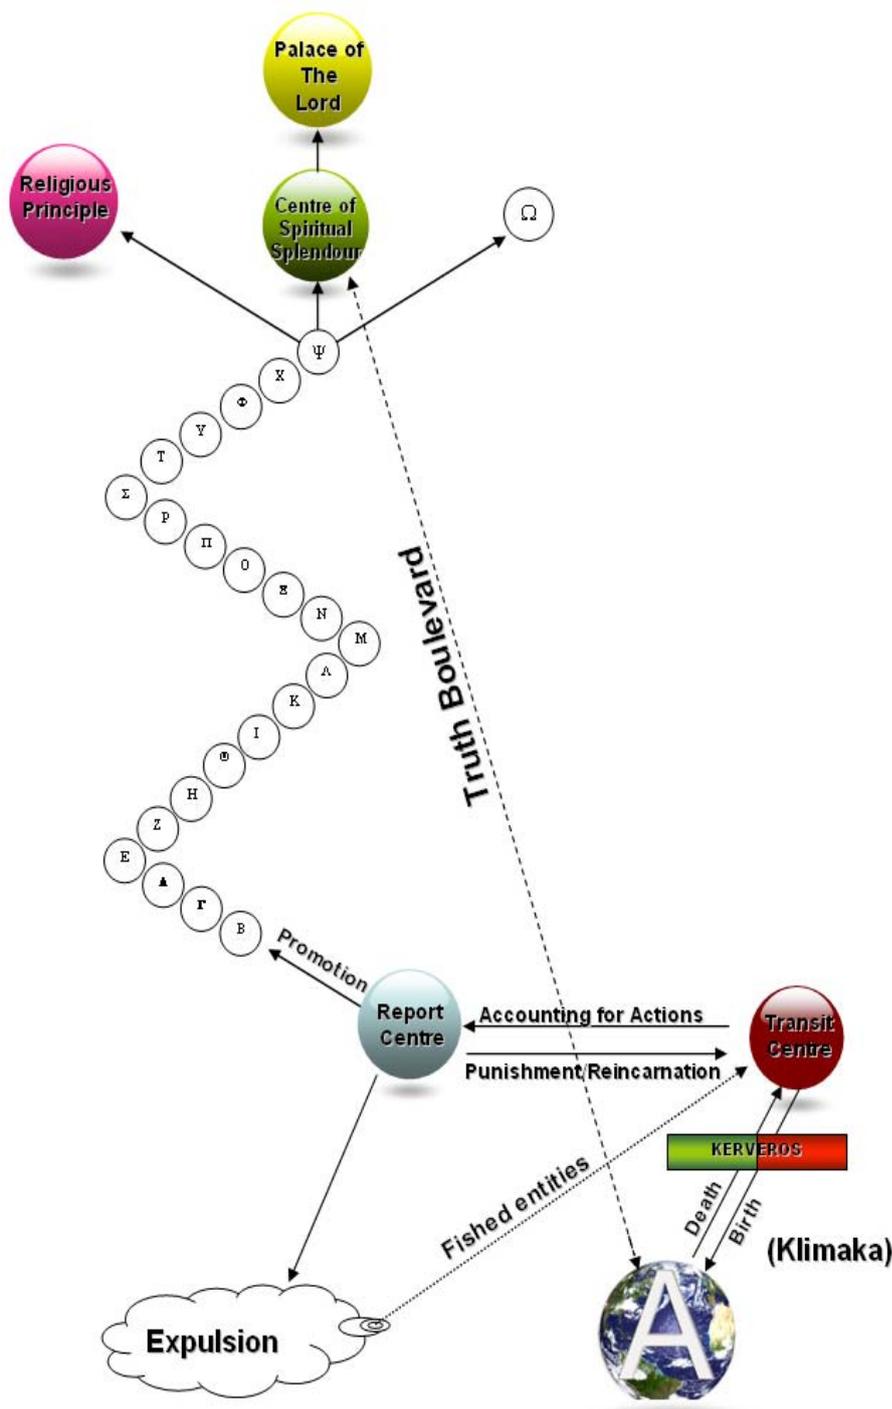

to their spiritual and *soul* training on Earth. But if they made great spiritual progress on Earth then they are transferred to one of the 24 Stations of the Greek Alphabet (**Alpha-Ω**mega). This is the greatest distance that a *soul* travels in Heaven, that is, as it travels towards the Station of Repose (Paradise) or towards the Divine Authority.

Many *souls* arrive in Heaven every day. Very few of them are able to enter into the Second Station, Beta (B), or above except those souls that pre-existed in the 8th or 10th Station and were transferred to Earth to return again into a higher Station.

When the *soul* appears in the Report Centre, do not think that there are judges there who are unjust or unable to do their work. The soul, as you know, is always innocent. It is the spirit that is at fault. This way the soul has a higher authority in Heaven than the spirit. The soul becomes the judge and judges its entity, that is, its spirit, irrespective of whether in this condemnation, it is forced to follow its spirit. There are many situations and in the future I will refer to them.

No. 5

The categories of *souls* that depart from Earth are as many as there are souls. No one departs from your world in the same way as another *soul*. Of course, you say that someone has migrated (died) like his cousin. This is a wrong point of view. Every man is as a different world, with a different spiritual mechanism. Starting from this point, I can assure you that every *soul* has an individual type of death. However, you are not able to differentiate between these differences, which are very fine for the understanding of a Heavenly Spirit but not for Man.

Overall Heavenly Structure
(For more details see Book 1 Chapter 4)

Palace of the Lord: The Lord resides here with His Stars. Until now only seven entities (The Stars of the Lord) have entered.

Centre: of Spiritual Splendour or of Spiritual Sun or Council of the Ten: is equivalent to an airport control tower. All directives are transmitted from here. All spiritual (via the Truth Boulevard) communications take place from here.

Religious Principle: This Centre is the “paradise” of ordained entities. The Leader is John Chrysostom.

The Stations: Alpha(Earth) to Omega (Paradise).

Report Centre: Entities account for their actions. The spirit’s judge is the conscience which resides in the soul.

Transit Centre: Linking centre between Earth and Heaven. “Sorting station”.

Klimaka: The ladder of ascending and descending psycho-spiritual entities.

Kerveros: The barrier of rebirth or super memory for ascending psycho-spiritual entities (green in diagram) AND the barrier of forgetfulness for descending psycho-spiritual entities to reincarnate (red in diagram.)

Truth Boulevard: Communication link established by the Lord and is under the protection of Lord Pharah

Why do so many types of Council exist in Heaven to measure the soul in order to penetrate the depths of the spirit? It is because for Us the soul is the doorway. If We want to enter the inner world of Man, his spirit obstructs Us. We enter through the soul, that is, through the back door without the entity realising it. We link its thread with the Councils and immediately We know everything.

All this is carried out with such a speed that within a fraction of a second We know the quality of thousands of *souls*. The synchronisation and harmony is such that We are assisted, not with the speed of light, but of spiritual distance. What is this? I will explain next time.

No. 6

Many men are under the impression that some other stars are inhabited by entities similar to Man. Of course, those stars are inhabited by *souls* that previously existed on Earth, but it is not their permanent residence. They go there for a definite purpose.

There are other entities that are not human and since they live in Heaven, you are unable to see them. They are **incorporeal**. These entities serve other purposes of the Immortal Life. They also have their perfections and imperfections. They do not feel as you do. They have a special perception as to what they ought to do. They belong in the jurisdiction of another Leader, who is going to talk to you about them.

incorporeal:
material body.

without

There are many, many entities. None of them approaches Man. **Man is unique in the whole Universe.** If, my friends, there were other types of men in other stars much older than Earth, these men would be much more significant than you and then they would get in touch with you.

As this has not happened since the earliest of days, do not give credence to such idiotic human fantasy.

It is possible for a group of men, through one ray, not a ray of sun but through a ray of the infinite Universe, to see the same phenomenon without others seeing it. This is something similar to group confusion. That is, a hundred individuals see as if on a screen a city that in reality does not exist. I make this point to show you that it is possible for miracles and distortions to occur because of these phenomena.

I have deviated from explaining my purpose. But it is necessary for you to be aware that there is much that is unknown around you and it is necessary to first examine these, since they are relevant to the *soul* and death.

1.5 The soul, the breath of movement

{Pharah}

[18-109]

I will answer one of your thoughts.

My dear brethren, you have all the spiritual provisions. Study them and afterwards you will be in a position to judge if the texts of the various authors are authentic and if they come from the Spiritual World. If We give our judgement on these, what is the use of all of Our teaching?

Referring only to one point in texts foreign to you note the following:

The soul does not contain material ingredients, nor are you able to analyse it. When the sun is on the meridian, look at it and if you are able to see it with a naked eye then you will be able to see God. The soul is the motive power that belongs to God. It is

the god that you have inside you. That is why the soul never gets involved in the affairs of the spirit. The soul is unrelated to your external world.

We give you this explanation so all brethren can understand Us; otherwise Our method of explaining would have been more scientific and not easily understood by many faithful brothers of the Spiritual World. We have spoken often about the soul so that the different talks by the Spiritual World on this matter can give you complete knowledge of what the soul is and what its purpose is.

It is possible for you to be perfect in everything; bodily construction and spiritual development. But without a soul you are useless. What happened to the spirit? It has exited because it was inseparably linked with the soul. Therefore the Divinity that breathed in the body the breath of movement, that was the soul itself. I will not expand more on this matter. I have spoken enough and I have given my teaching.

QUESTION: By saying spirit, and a soul not related to the spirit, do you mean that the spirit is intelligence?

No! The spirit is a special substance that God has gifted to every soul to complete it as an entity. The spirit, my dear brother contains also a faint material essence so that it is not foreign towards the body. And because the spirit is inseparably linked with the soul, the soul has knowledge of what matter is.

1.6 Clarification about the Stations

{Pharah}

[19-109]

Today my dear brethren I will talk about the

Stations. As you know, these Stations are 24 in number (Alpha to Omega, A to Ω).

The spirits that enter Station Omega (Ω), that is, the Station of Repose, do not return to Earth, that is, there is no further reincarnation.

The first Station is Earth or Station Alpha (A); a corporeal Station. All the other Stations are incorporeal. In previous communications we did not clarify one point: that those returning to Earth from the 23 Stations, they do not gain Stations in Heaven but only through lessons learnt on Earth. That is, from Station Beta (B) an incarnated entity has the opportunity on Earth to gain 4, 5 or even 10 Stations. Returning to Heaven it finds itself in the 12th Station etc.

From the 2nd Station (B) by gaining 10 Stations the entity goes to Station M (2+10 = 12th).

In Heavenly Stations, only lectures are given. As with everything, there are exceptions. For psychospiritual entities that exist in these Stations there is one exception: if some entities have a strong spirit and they are sad because while on Earth they ignored the Spiritual World, permission is given to them to transmit lectures. These lectures are enlightening for men and in this way, in time, they can gain one or two Stations as has happened with a few that have **migrated** from your Earth as earthly enlightened spirits.

migrated: died and moved on.

1.7 Brain and spirit

{Pharah}

[23-182]

It would be good if men of intellect, of any scientific branch, did not rush to express an opinion as to where Man's soul resides in the human body. This is because until now many foolish and very rough opinions have been expressed by them without

them knowing what they are saying and, where they derived their opinion from, being absurd in their conclusions.

Man is likened to a machine whose inventor is the Creator, that is, the Father of all the living. If we understand Man as a machine, it must be divine, as the most perfect creation of God, because its type is intricate in its simplicity; it is an image and a resemblance of the Creator.

Man's garment, that is, his body, was given to him so that through the freedom of his spirit and physical attraction, he would be able with his own strength to be worthy of the faceless image of the Creator. He is assisted in this by his likening to the Creator, since Man's soul is a very fine wick deriving its fuel from above where its Source is.

Let us assume that Man is a factory, with doors and windows that are closed to the public. This factory contains special chambers with additional machinery for specific purposes, such as ventilation, the continuous replenishing of energy (blood), a cauldron to digest various produce for production, a chemical laboratory, a thermostatic chamber etc etc. All these move with systemic precision and move smoothly from the machine-room.

But who controls the various chambers and who gives directions for the whole work of the factory?

It is the Administration. In this, all the fine instruments are gathered that direct the various chambers of the factory.

The Administration is the brain that has the capability of automatically organizing everything.

Thus, the brain - a very fine mechanism - has the attribute to host the spirit as an incorporeal entity reflecting energy of images, wishes, discretions, machinations, separation of material and spiritual differences etc.

The spirit is invisible as an out of this world energy. However it contains a sliver of material substance of Man since it directs everything with useful or useless commands.

The spirit is the main factor in the factory of a human entity.

The motive power that transmits living energy to the machine room (spirit) and to its chambers is the soul, which is a spark of the Divine.

Even though the soul and the spirit are inseparably linked, the spirit assumes all the responsibilities for human actions. The soul remains non-participative, as energy only of life movement in the human entity.

When the spirit shares the heart's emotion, then the heart transfers the soul's strength to the spirit and the spirit acts as if the soul was acting. We then say that the soul strength surpasses in favour of good.

The soul - that is its strength, and the heart - that is love, push and strengthen the conscience that imposes on the spirit, so that the spirit's correct actions produce fruit worthy of praise.

The soul resides throughout the whole body. The brain, the main and fine mechanism of human existence, which is very sensitive, absorbs the soul's current (energy) directly. The soul does not reside there.

From the end of the fingers good or bad currents are launched. The spirit receives from the soul the currents (called soul-shots) and launches them. I will explain:

If you give A and B a sling-shot each and the first one (A) does not use it, and the second one (B) uses it to kill birds, the donor is not to be blamed for their actions.

The same thing happens with the soul: it transmits energy, but not for a specific reason, since the spirit determines this.

The same happens with the flow of a gaze. Incorrectly this has been named “soul-shot” and it should have been called “spirit-shot”.

The soul generates strength (energy) without a specific reason; the spirit administers this energy for a purpose.

1.8 When does the soul enter immortality?

{Hippocrates}
[23-71]

My dear brethren, the earthly life has death as its end, and then the soul returns to its starting point. Be careful! I don't say to immortality!

When an earthly entity dies, you on Earth have the impression that it has been freed from its earthly burdens. Yes, it has left Earth with its burdens and illnesses and has entered into the Heavenly plain (so you can understand me) but it waits there for processing and the time of its return to Earth.

Do you know how many billions of people there are

*This Text was dictated on
the 28 June 1973.*

on Earth? With a rough calculation they exceed 4 billion. Let others say that there are only 2.5 – 3 billion.

Out of all these people only a very few have balanced! Now I believe that you can understand why the souls return to your Earth and what is Anarhon's aim for them. We work for this aim.

For this reason We dictate Texts that are completely unknown to you or unpublished and they must become the common possession of the whole of humanity. And for all those who We will win over, for them the Gates of Paradise will be open. For the rest, I am sorry, it is necessary for them to suffer the Heavenly illnesses, that is, the spiritual torments of the spirit. You will have noticed that many *souls* ask for your help because the ethical pain is greater than the physical.

There are *souls* that are nostalgic for Earth, for their old life, and they suffer. Others maintain a grudge against the brethren who were unjust to them. And many others ... these *souls* remain for a long time (earthly time) in Heaven until they moderate their egoism, their hate, their nostalgia towards materialism, their ambition, the easy conquests and much more.

Despite this, the *souls* are taught daily by the various Teachers so they can facilitate their perception of what the reason is for their return to Earth and what they ought to be taught to reach an equal balance.

When a *soul* that is equally balanced finds death, that is darkness, from darkness it is reborn into a new life in Heaven. This is called "immortality". I speak about *souls* with equal balance, that depending on their progress ascend the various

Stations until they reach and enter the **Station of Repose**.

Station of Repose =
Paradise= Station Ω.

In these Stations these souls co-exist with other souls that have gained Station Beta (B), Gamma (Γ), Delta (Δ) etc but they are still lacking something. That is, they are not perfectly balanced. They have carried out pious actions, they had a strong spirit but not soul strength. Of these *souls*, there are many and some are sent to Earth to strengthen their soul strength. That is, they did not gain immortality but only the Heavenly life to an extent.

I give you these pictures, so you understand something more than you have already learned up till now.

Because the cultivation of entities is long, in earthly time, it is called “eternity”. Whereas true eternity is what is enjoyed by *souls* that will never return to the great laboratory of their education, which is called Station Alpha, that is, Earth.

Try, my beloved brethren, to the utmost of your strength to judge yourself objectively. Do not justify yourselves without knowing what is “just” so that you can gain God’s favour, so through this you can be balanced, to your advantage. By helping the Divine, that is Divine Providence, you will enjoy at some stage within Eternity the abundant and unknown gifts of God towards the new bright, splendid and brilliant World of the New Creation of the future.

1.9 Heaven's problem

{Confucius}

[18-170]

The biggest problem for the spirituality of humanity is the problem of Heaven. No matter how much Faith Man has towards the Spiritual World there exists inside him a small doubt, that is, whether or not whatever Heaven dictates is correct.

For those that are initiated in the Spiritual World, that is, those who know many details about the immortality of the soul, it is good to cultivate their Faith as a seed of their intelligence and through systematic fasting (avoiding animal food) to reach the point that they perceive and see, as a vision, the everlasting and - incomprehensible for many - Heavenly life.

Why, you ask, does the Lord not help Man to totally convince him of the existence of future life? What is it that impedes Him from opening Man's eyes even more about the certainty that Heaven does not have earthly problems to solve, but that everything is put in order by the Divine Prudence of the Creator?

My brethren, if more light was given to you for this obscure point, then it would be unnecessary for such continuous education to be delivered by Us, because Man would not have psycho-spiritual development, and would remain stationary and the work of the Creator would be incomplete towards the inner and free progress of His creation.

We give you Heavenly images with earthly colourings to enable you to follow the development of entities and the differentiation of those returning each time with earthly qualities. This way you have a vague idea about Our Kingdom but not an

From Wikipedia:

Human philosophy of **space and time** is the branch of philosophy concerned with the issues surrounding the ontology, epistemology, and character of space and time.

absolute one.

When an infant appears on Earth it has no perception of its surrounding world. The same thing happens to the entity that departs from Earth and appears in Heaven without any perception of its surrounding world. Because **space and time** does not exist in Heaven, the *soul* quickly acquires its vision and perceives everything, unable to transmit this to the earthly world if at first it does not acquire the sense of the Heavenly work. Of course, there is a link between Heaven and Earth, but this is not sufficient to convince Man of the real image of Heavenly life.

It is absolutely necessary for you mortals for the Heavenly problem to remain unsolved, despite all the efforts that you make and whatever you can imagine.

Because of Divine Grace, no one else but this Centre has received so many details of the Heavenly problem from the great Spirits. In my present talk I will not examine why you have this privilege. A large percentage of the faithful will believe you; the unfaithful, existing in the darkness of knowledge, are unable to believe whatever is not tangible and herein lies their unfaithfulness.

Truly, for you Heaven is an unsolved problem, captured only through Faith, perception and Divine Love. Up to a point, We have given you explanations for many of the unexplained phenomena as well as Mysteries. When you ignore the A (alpha) why do you want to know the Ω (omega)? The Alpha, that is, your Earth has so many problems that have to be solved. And you ask to solve those that belong to your future life? Take care of the easy problems of earthly life so you can be helped with the future of Heavenly life.

While such ideas have been central to philosophy from its inception, the philosophy of space and time was both an inspiration for and a central aspect of early analytic philosophy. The subject focuses on a number of basic issues, including—but not limited to—whether or not time and space exist independently of the mind, whether they exist independently of one another, what accounts for time's apparently unidirectional flow, whether times other than the present moment exist, and questions about the nature of identity (particularly the nature of identity over time. The earliest recorded philosophy of time was expounded by the ancient Egyptian thinker, Ptahhotep (circa 2650), who said: "Do not lessen the time of following desire, for the wasting of time is an abomination to the spirit." The Vedas, the earliest texts on Indian philosophy and Hindu philosophy dating back to the late 2nd millennium BC, describe ancient Hindu cosmology, in which the universe goes through repeated cycles of creation, destruction and rebirth, with each cycle lasting 4,320,000 years. Ancient Greek philosophers including Parmenides and Heraclitus wrote essays on the nature of time. In Book 11 of St Augustine's Confessions, he ruminates on the nature of time, asking, "What then is time? If no one asks me, I know: if I wish to explain it to one that asketh, I know not." He settles on time being defined more by what it is not than what it is.

1.10 The life of entities in Heaven

{N. Kazantzakis}

[23-73]

N. Kazantzakis: a short biography is given in the next chapter.

My dear friends, I will not speak for long.

When the *souls* enter the Kingdom of the Lord and pass through examination and get accustomed to the new life in Heaven, their first duty towards the Highest Authority is to pray at specified hours and sing hymns to the Great Creator of All.

This is their highest duty.

In contrast, earthly entities lead their children in a different way, to learn Faith in God later. The infants do not have a perception as you men do. You, unfortunately, perceive everything as your spirit imagines it, including myself.

When Man reaches the age of perception, it is the duty of specialists to direct him and enlighten him as to what God is and why He created the World. Unfortunately, such people do not exist. For this reason they all deviate.

Life in Heaven for the entities is tranquil without false feelings and the eye of their soul opens. They see everything clearly and they judge their actions by themselves, if they were good or bad; if they had a good or a bad guide; whether they were more attracted by earthly education or by an inner education that led them to the path of goodness and piety.

Everything is seen by the psycho-spiritual entity. It repents for its mistakes which it could have avoided if it had had enlightened entities near it who could have educated it on how to distinguish one colour from another. That is, good as a white colour and

bad as a black colour.

Up here, of course, they see everything and cannot imagine how on Earth the darkness impeded them from seeing the light!

After the prayers, hymns and glorification to Anarhon, they go to different sections and, depending on their spirit, they follow Teachings by various high Spirits to familiarise themselves with the first principles of entry into the Kingdom of the Spiritual World.

Depending on the knowledge and absorption of their education they take a place and if they progress very quickly, exceptions are made by gaining Stations Β, Γ, Δ. From these Stations they are able to descend to Earth to gain more if they comply with what they have been taught in Heaven. Because when they return to Station Alpha evil nature is more attractive, this is the way they are tested, to see if the *soul* has truly absorbed all that it has been taught.

There are many things that I could tell you about the life of entities in Heaven. What I have said is enough for today and I may continue later.

1.11 Educate your souls on Earth

{Plato}
[18-56]

The Heavenly teachings aim to prepare the ground for your soul superiority, they also transmit many small and necessary mysteries for your knowledge in order that you are familiarised about where you are going when you leave your material **cover**. This is to facilitate your ascent.

cover: body.

Educate your *souls* while you are on Earth because you are only going to achieve this with difficulty in Heaven. When you are not interested in the practice, the theory is extremely difficult. The teachers from India occupy themselves with practice. You should also do the same, because by practising you also practise the theory as well. You have the advantage that you are Christian and the Lord helps you. Let Apostle Krishna assist your brethren from India. For you to understand what I have said I repeat: None of the great deities is equal to the Lord.

We, as ancient Greeks, do not belong to any race. We are citizens of the White State of Heaven. All the brethren of your world are also Our brethren; We do not make any distinction, it is enough that the earthly entity is worthy of Our efforts.

1.12 One is in need of the other

{Plutarch}

[22-136]

*In a previous communication **Plutarch** informed us that he reincarnated as St Basil.*

Pay attention to what I am going to tell you: There are spirits in our Kingdom in positions. These spirits are in need of earthly forgiveness. For this reason, do not forget that they expect goodness from you - Spiritual goodness.

Because someone was a leader of the second degree it does not mean that he does not need you. On the contrary, the Lord in this way has organized matters so one is in need of the other, irrespective if it's a spirit or not. Do you agree? This is the Truth of Justice!

1.13 About Spiritualism

{Pharah}

[18-181]

QUESTION: We warmly ask Lord Pharah to explain to us the following subject:

It is known that in some countries, for example USA, England, and the Scandinavian countries and others, there are many mediums that possess rich **ectoplasm** so that perfect materialisation of the invited spirits and communication with the materialised body occurs.

There are many mediums that are auditory and others visionary through whom communications take place with very good results, not through hypnosis, as is commonly practised by us.

Without wanting to support that the aforementioned method of communication is more effective than ours since they do not receive Teachings for mortals nor the conveyance of Divine Light but only proof through materialisation of the entity from the Spiritual World, we simply ask how is it that in Greece there are no such mediums that perform materialisation and, in general, why is their method of communication so different from ours?

PHARAH: Before answering your questions I will pose two questions, simple but they require thought:

1. What is the name of God?
2. Why when Pilate asked the Lord "What is Truth?" He did not reply.

PHARAH: Give me the answer next time.

ectoplasm: (from the Greek ectos, "outside" + plasma, "something formed or moulded") denotes a substance or spiritual energy "exteriorized" by mediums. Ectoplasm is said to be associated with the formation of ghosts (see book #15 in bibliography).

As for the other question, you ought to know that in climates where there is high humidity, such as on islands, in the Eastern Countries and in England, this facilitates materialisation, in most cases, of evil spirits. I do not say that all are evil. Be careful! Do not misinterpret My words.

In Greece - even though people do not know their obligations towards our Authority because they have not been educated on this point as much as they should - despite this, they are credulous, especially towards the Divine. On the contrary in other countries they believe more in spiritualism, that is, in the contact of the Spirit with earthly entities, but not as much as you believe in the Divine Authority. This is except for western USA where men are equally faithful to their religion and spiritualism. But many of them are exempt because they are total atheists or they ridicule spiritualism.

Spiritualism is expanding but there is a need for cleansing because many elements have entered it that are seeking to mix spiritualism with fraud. Therefore choose the faithful at the centres of your gatherings.

My dear brethren, there is no need for you to attract more than those who come to be enlightened. There is no need for all to see the Sun. But let them enjoy the rays of our Teachings. If they have a grain of knowledge they will understand what it is all about and will accept the Heavenly Texts as many accept the Divine Scriptures. But even the latter ones, yes they accept them, but they do not keep them. Therefore the Spiritual World will attract them more because in Our Texts there is plenty of material for the preference and disposition of every person.

1.14 Embodiment

{Pharah}

[19-112]

Dear brethren, today I will not answer your questions because the aim of this communication is for new spirits, known or unknown, great or small to communicate. For this reason I will confine my talk to embodiment.

Embodiment is one of the phenomena of the many Mysteries. When the medium is hypnotised, he is not conscious of his surroundings. He is a piece of equipment, without will, in the service of the various spirits either good or evil. For this reason, do not be surprised by this phenomenon because it is possible for the Evil Spirit to enter the medium's entity as a university professor or even in the form of a holy entity to teach you subjects that may harm you. For this reason We stress again, that these phenomena should be submitted to examination.

Of course, you the listeners, who follow the voice of the medium, are in awe of the boastfulness of the spirit, but you are unable to know what is happening and which spirit is talking, irrespective of whether you have been given existing or non-existent names.

All Heavenly spirits are free, if they have the capability, to enter the body of the medium. How many cases have occurred where the names of saints have been given to attract you, or names of other great Spirits to ridicule you! Note that in all these Centres, prophecies, directions and similar are given that are not true. Compare them - that is, the Centres - with all that the Divine Authority transmits to you and confess if you have ever received from Heaven similar prophecies, directions or advice. I say this so that you are careful not to

make mistakes that you were not prepared to make. This is one correct enlightenment in its correctness, pure in its purity and clear in its clarity.

Embodiment occurs to prove that the soul is immortal and through its energies, in the foreign body it gives the identity of the spirit. However, often this identity is false, as has happened to many who believed that they were their loved ones and took their advice as if it were correct. After some time, they discovered that they were deceived and that the advice was from Evil.

Do not be gullible about these phenomena. Here you must doubt if truly the beloved spirit was or was not the real one. As to how the embodiment is carried out, this is a different subject which I will explain another time.

1.15 Incarnation and reincarnation

{Pharah}

[19-114]

How many times have I been obliged to repeat this same subject, so you can understand My Teaching, and you continuously return to it!

I refer, my dear brethren, to the incarnation of Man and to his reincarnation.

How many times have I not said that the reincarnation of an entity is God's greatest blessing to Man! That is, when an entity is sent from Heaven for a second or more times to Earth, this is to prove the immense Love of the Creator towards His children.

The new entity appears with a new identity, straight from Heaven. The aim therefore, is for men to

enlighten the new generations on this point, so they can endeavour to find the correct path that they need to follow.

If they knew what they had done in previous existences, they would never be able to distinguish good from bad. Frequently the weights on their souls are many and to remove these weights, Divinity sends the entities to Earth for a new life, to expiate, without the spirits knowing whether they had sins or not in their previous existences.

That is why I have often stressed that it is not correct for men to ask the medium about their previous existences. Firstly, because it is possible that they could be wrong and secondly, if they have been truly good and pious previously, they would not be curious and ask about their previous existences. Again, if they knew that they had been entities with vigour and wisdom, this would influence them badly, by restoring the seedling of their egoism. And if they had been persons of bad character and bad instincts and envious, this would prick their subconscious to confess to their spirit who they had been and therefore they would follow the path of the previous existences without realising it.

On rare occasions, without you asking, the Spiritual World provides a pre-existence to one person or another. It never risks destroying a human entity without a reason.

How many of the seemingly saintly women were prostitutes! And how many of the pious men were criminals! This way, through reincarnation, the new type of Man is different from the one he was before. Is not this God's great benefit to Man?

Do not exclude the phenomena of these cases.

There are many of them. But why did men want to exclude reincarnation from the faithful? It is because it is not to the advantage of various people who exploit their brethren, for reincarnation to be believed. It is clearly a reason of self-interest and not a religious one, as the clergy construes.

Pay attention to the various phenomena and write them down in your books together with their meaning because the evil spirits have the ability to enter into your entities. They do not affect any part of your body, apart from your spirit that in accordance with the command of the Devil, orders the whole entity to move, work or carry out what the spirit wishes. In common human parlance this is called “embodiment”.

The High Spirits - make a note - avoid embodiments. Only the lower level ones and the evil ones embody. Embodied, these spirits ridicule you by pretending that they are great spirits. Pay proper attention to this, because I am not going to repeat it again.

The Saints and the Great Teachers never embody. If they want to appear in front of your eyes, they are free to do so. They are free to appear as they are or as visions. You can see a vision but you cannot capture it. But when a spirit appears and you touch it, it will give you the feeling of touching a living being. And it is such at that instant!

1.16 The wheel of life

{Confucius}

[22-67]

Do not let your tongue run before the steadiness of your spirit, because in the opposite circumstance everything is pointless. This is why we prefer the

serious thought of men. The myths are food only for women that is why their thoughts are superficial. The wheel of life is its repetition. At each repetition Man ought to correct and not destroy. If he did not correct then there would be no progress.

Progress is something relative. There is internal progress and there is external progress. When the relationship between one and the other is balanced, then progress is called beneficial. When the external exceeds the other, then progress is called destructive. I do not speak about internal progress exceeding the limit, because then you would not be of this world (Earth).

The wheel of a car - is that not an example of progress in transportation? Has it not been perfected? Thus, Man can be perfected, just as the wheel, which does not need many changes. Because we said Man ought to be balanced; this is what life requires of him.

If you have not understood what I want to say, then note: Man is the same as the wheel, that is, he has not changed very much and the wheel turns the same way as he does in life. He must not deviate from the trajectory that gives him what he requires to live. If a new development wanted the wheel to be square, what would happen? This is what many scientists do today and instead of going forward they go backwards.

1.17 How the unrestrained spirits deceive

{Pharah}
[22-35]

MEDIUM: I know that there is a difference between a male and a female soul. How is it that during the spiritual communication of another brother it was

Tibetan chakra by Philipp Roeli

Wheel of Life is a complex symbolic representation of samsara in the form of a circle, used primarily in Tibetan Buddhism. Saṃsāra is the continuous cycle of birth, life and death from which one liberates oneself through enlightenment. In the Buddhist depiction, different karmic actions contribute to one's metaphorical existence in different realms, or rather different actions reinforce personal characteristics described by the realms. Leading from the human realm to the outside of the wheel depicts the Buddhist path. The Wheel of life is represented as being held by the jaws, hands, and feet of a fearsome figure who turns the wheel. The exact identity of the figure varies. A common choice for the figure is Yama the god of death or Kala the Lord of Time. The wheel is divided into six sections that represent the Six realms or Worlds of Existence. These Six Worlds are:
(i) The World of Devas or Gods; (ii) The World of Asuras (Demigods, Titans, Fighting Demons); (iii) The World of Humans; (iv) The World of Animals; (v) The World of Pretas (hungry ghosts); (vi) The World of Hell.

said that sister E. S. was a man in her previous incarnation?

PHARAH: This is lacking correctness. It is not possible for the female soul to be simultaneously a male soul. Unrestrained spirits twist the meanings for the mediums to create confusion. For this reason you need to check the meanings. Often their deceit is plausible and you, out of respect towards the Leaders of the Spiritual World, are influenced and believe that which is unsubstantiated. You do not suspect that it is possible that you are being deceived and betrayed, especially when you admire the medium.

The same thing happened to brother Alkeos. There is no 'Rethinios from Megara' as the spirit called itself. The brother has fallen into a trap, because he did not want to give it much thought and to judge the putrid words of the spirit.

Often the mediums become the carriers of evil. The great fathers of religion knew this phenomenon and, in order for the faithful not to make mistakes, forbade the communications, since the written Word of the Lord existed for enlightenment.

But today you are not in that era. Moreover, the Will of the Lord is different: how can you travel towards His Boulevard, which is no other than the Spiritual World? We are willing to clarify many of the dark points of your beliefs through Our means and show you which are correct and which are not.

1.18 How the Teachers examine human entities

{Pharah}
[19-187]

My dear brethren. Today I will talk on how the Great Heavenly Spirits, that is, the Teachers, examine the human entities.

Of course, an examination is not carried out of the soul, because it is the Breath of the Divine and bears no responsibility if the entity does something unlawful. Only the spirit carries total responsibility.

As you know, the spirit and soul of an entity are inseparably interlinked. On other occasions I have explained why the soul of one entity has less soul strength than another.

We are concerned with the examination. This examination is carried out of the spirit.

If the spirit is stronger than the soul, it enslaves it by exerting pressure, because the spirit easily falls to the individual's self-interest. If the soul is stronger than the spirit then the spirit is subdued by the soul and the entity is considered holy, because it always does good and pious things, even including self-sacrifice.

Neither of these two situations is correct for the Spiritual World. The spirit and soul have to be balanced. Being an earthly entity, Man is in need of matter but must not exceed it, so that he does not fall foul of the known rules of the Divine Law.

It is impossible for Man not to have made mistakes because he is material. Heaven overlooks his small mistakes and they are not written in the Book of Good and Bad actions.

Therefore, the Teachers of Heaven entering the spirit of an entity, weigh up for and against and this way decide if the entity deserves Divine support in Heaven or even on Earth.

The Teachers are unable to enter the soul of an entity because it is immaculate, God's Breath, Immortal Energy. This is the difference in quality between spirit and soul.

The soul is never analysed. It is a ray of Anarhon. On the contrary, only the Great Leaders are able to analyse the spirit. The spirit is God's gift to Man. It is an essence that contains material **immateriality**. Because if it did not contain "material immateriality", spirits would not be able to appear in the visions of mortals nor would they ever be able to embody, as happens in some centres.

immateriality: having no physical substance.

Spirits of Heavenly Teachers never embody. Why would they? To prove their immortality in the body of a mortal? I stress again that everything is the Divine Logos. The action depends on the Logos and the Logos from the Divine radiation of Heaven. Visions, dreams, appearances of dead persons etc are for the superficially educated. They are for those who do not easily believe in the Divine benevolence of Heaven.

Often clergy of high rank appear to the mediums and they embody to prove who they really are. And how do you know who anyone is and if he is not the Devil? Because he is the only one who pushes the spirits to be embodied. And you with good Faith believe in what is said by the embodied spirit, embracing everything that it says, so that one day this spirit with this smooth talk will deceive you and lead you where he wants to.

I say all this so you can be careful. Through this means we come to examine and not to be examined. Earth needs Heaven and not Heaven the Earth. But men's blindness is such that everything is confused and you are not in a position to perceive what is happening.

By being enlightened you are enlightened, so that you can enlighten.

1.19 The meaning of the forbidden fruit

{Pharah}

[23-197]

*The original **forbidden fruit** was Eve's apple, which was Earth. It is synonymous with the original disobedience. See Book 1 of this series.*

My beloved brethren, many times you force Us to chastise you, and from this reproach you consider that you have fallen in disgrace in front of the Divine! Wrong! Only from Love and interest do We show you what you have to do, so you can exit from the adverse path of your life. We chastise you for not obeying Our advice and directions. Is it for your own good or to your detriment? If you have a grain of knowledge you will perceive it by yourselves.

The Spiritual World appears as the guardian of your entity. It encourages you, advises you and directs you, so that you can be found on the path of goodness and piety. But you go backwards! Only a few of you understand what I am dictating. But the aim is not to understand what the Spiritual World says, but to apply Its Instructions.

Others, despondent of their situation have learned to stress every time that it is their "karma" that they cannot avoid!

The meaning of the word "karma" is not as you have perceived it and as the Indian teachers gave its abstract meaning. I will speak about the "karma"

specifically **next time** because this is what the psycho-spiritual entity chooses before returning to Earth.

next time: see section 1.20 of this chapter.

There are many psycho-spiritual entities that are not in a position to choose. And, when they return to Earth and reach adulthood, they say that their fate is such that they will suffer until death!

All these perceptions are human. None is the same as the meaning given by the Divine Authority.

As I said before, every human is a marionette. It has one string, and together with the other human strings, forms one and the same total of strings that are held by Anarhon Who is the provider of just the motive power. This motive power, as a mechanism of an entity, is called the soul. You have no other relationship with Anarhon Who has gifted you a free spirit. If you stumble, you punish yourself, because you are subject to the Laws of Anarhon.

The Spiritual World helps you in every way it can so that you do not make major errors, and in this way, delay Divine Providence.

If your spirit works well, you understand the enormity of our offer towards men. If your spirit does not work well under the influence of earthly thought and the attraction of your desires, then it is not We who are to blame, but you, who are again attracted by the forbidden fruit.

Do not apply carelessly the word «φυλισμός» (phylismos = sexism) in the meaning of the forbidden fruit, which (forbidden fruit) is the disobedience towards the correctness and its attraction to falsehood.

I hope that you have perceived what I am saying,

that you do not react to all that Heaven is offering and that you receive with great satisfaction all that matter offers you. Of course you have a need of what matter offers, within a measure. Is not an excessive desire of the material things a disobedience towards correctness?

Your fallacious justification becomes believable only to those who have a material tendency. In Heaven, such justifications do not have a place. I am saying this so you are not of the opinion that the forbidden fruit has the meaning that you have given it.

Think a bit deeper, so you can perceive the essence of the meaning and not only its form.

1.20 The meaning of karma

{Pharah}

[23-218]

My dear brethren, the word “karma” cannot be translated in any other language of your world.

You call it “destiny”, “fate”, “luck”. These words do not render the meaning of “karma”.

It is, of course, something similar to destiny without of course meaning this, even if the Spiritual World has avoided giving you the true meaning of this word, leaving it to be understood that it has a connection with destiny and fate. But the differences are great.

“Destiny” is something that is going to happen and then happens. But what is going to happen and under what circumstances and for what reason does not concern you. Therefore, “destiny” is not a positive explanation.

“Fate” is related to “destiny”. It is given by the accidental influence of the Invisible Power. But which is this, and why does it operate in this way or another? This is unspecified! Therefore from this meaning that you call “fate”, you do not have a positive aspect.

“Luck” is another word that you use frequently attributing to it good and bad energies, because luck, according to human perception, is blind and gives happiness where it should not give it and sadness where it should give happiness.

From this human perception, luck is blind. Luck, as you perceive it, does not exist! You create it to justify your situations in life. Everyone places his luck on his wishes and needs.

If one is rich and has the world’s goods - you say about him: “how lucky he is!”

It is possible for this man whose misery you do not know, to be the most miserable of all. And another, who has very few possessions which are just enough to live on, he says it is “luck” which at that instance pleases him and satisfies him! Therefore, luck is fickle because man wants it to be so.

Therefore, the three meanings of “destiny” “fate” and “luck” have something relating them that the old Indian philosophers named “karma”.

Karma is a distance of time with continuous images that the spirit accepts when it is about to reappear on your Earth. And the karma is unchangeable.

Therefore, when the psycho-spiritual entity farewells Heaven to reincarnate on Earth to atone for its sins and increase its soul-strength, it passes through the Barrier of Forgetfulness that you

already know, forgetting everything.

As the entity develops, it follows the path that has already been drawn up in Heaven and which it accepted as being correct for its atonement. But the new entity in the world does not know this; it knows it only in its subconscious. And if difficulties arise in its life, it should not attribute them to destiny or fate or luck since this same entity has chosen its path!

It is possible for its karma to be instantaneous, of a short duration or of a long duration. No one is to blame for this. Because if the entity wanted, before descending from Heaven, it could have suffered more of its punishment in Heaven. But it wanted to shorten its ethical and spiritual pain, and decided to align itself with the spirits that bring with them their karma.

The word “karma” has a deeper meaning that cannot be explained to human entities. It remains therefore, inside the Mystery of Divine Justice, from where, deep down can be found the clue that leads to Truth, Justice and Love.

1.21 Fight your bad urges

{Pharah}

[23-180]

My dear brethren, I am obliged as One of the Authorities of Our Kingdom, to remind you to be as careful about your expressions as about your actions.

Those who listen to Our Will, will find the correct path and will never be in danger under any circumstance. This is because they will receive our protective enlightenment that is not only of

knowledge but is also a defensive wall for each person.

You are all called the faithful of the Spiritual World. However, words without substance mean nothing. I prefer that you are faithful by deed, so that We can be well disposed towards you.

I am very strict where I must be and when I say something, this will happen. It is now time for you to be prudent, to fight falsehood, duplicity and your bad urges, so that your prayer can be heard and produce useful results for you and also for your brothers.

The Spiritual World is determined to assist and support you in whatever condition you are. It only suffices, that you also understand It and travel the path that we have shown you a thousand times.

It is not enough to be called spiritualists if first you do not comply with Our teachings, Our advice and Our directions. In this case, do not be afraid of any obstacle, because you have the protection of the Lord in Whose name I speak.

You are all children of the same Heaven. But why do you separate your responsibilities and are not able to understand with a light heart that you are brothers?

Where do you stumble? On self-interest? Over material goods? On the preference of your wishes?

Consider my words, and decide your luck. Luck as you say, cannot be understood without logic and comprehension. The Spiritual Leaders have analysed the fatal word "luck" before. I say fatal because you think as fatalists. If you thought with prudence, honesty and Love, true Love, then

everything would change in your perception and you would be able to follow the path of Light and not the path of Darkness that wrecks the soul strength and Man's heart.

I hope that you will feel the truth of My words and do not make mistakes that will have a bad resonance, not only with your inner world but also with the external one in which you live and travel.

1.22 Those who do not pay attention to Heaven's punishment

{Pharah}

[23-181]

Those who do not pay any attention to Heaven's punishment, despite Our persistence to help, not listening to the directions, advice and indications of the Spiritual World for their deliverance, with the excuse that "let us return again to Earth"- let them be aware that their sins have totally blinded them.

But if with their obedience they are saved, do not let them have the impression that they will not return to Earth to perfect their education.

Punished though, the duration of time in Heaven will be extensive and terrible and Divinity will show no pity towards them. When the decision is taken by the Spiritual World to return these entities to Earth, they will be totally ignorant under which terrible conditions they will find themselves in, and about what they are going to suffer in their new earthly life!

Crying and lamenting, without knowing their previous existences and actions, in a monologue they will say "my God have I done such wrong to be punished so severely?" But the Heavenly Law is

unbending, relentless and harsh.

And now, think with spiritual calmness and perceive the enormous Love of the Spiritual World towards the disobedient who have become prisoners of matter and of their passions. Contemplate Our kindness to save you earlier, and you rejecting it, serve Evil to the detriment of yourself and your neighbours.

Wake up before the flame of pain surrounds you.

1.23 What should be the stance of the faithful during séances?

{Chrysostom of Smyrna}

[19-215]

Do not be scared and do not lose your composure during moments that may shake your hope. Just, as an earthquake comes and then goes, in this way whatever happens will come and will go.

I am with you to show you what your stance should be during communications (séances).

Complete silence, calmness of the spirit and of the soul.

During Divine Communication you must not think of other matters or other troublesome thoughts from daily life. You come here to receive strength and not to lose it. We know your business and there is no need to repeat it before the Communication. The Divine Authority takes care of everything.

It is not allowed, during the Communication, to cross your legs because this causes bad circulation of your strengths.

Preferably keep your palms **on your knees**. If this is not convenient it does not matter. But when you pray or supplicate, have your **palms open**, because from them the silent energy of your supplication is transmitted.

on your knees: *palms facing downwards.*

palms open: *facing upwards*

It is not the head that receives the Heavenly rays, but the subconscious, in order to transmit them, through the spirit, to the brain. From there, through the utterances of the medium, the images become words.

Be respectful towards the Spiritual World and pious. Be good towards your fellow men, starting with the brethren in the room.

The Society is like a family, large or small. It possesses strong opinion that can be easily transmitted to the Divine Authority by the medium, the same as in a Church. But there is something else that happens. The one thousandth of the faithful keep order. Others philosophise on subjects that are not relevant to the whole. Even though they ought to be heard, unfortunately the Lord does not hear them. Who is to blame but the bad management of the clergy who talk about trite things and forget the essential.

If there is more than one medium in a room, it is possible for them to affect the active medium. This happens in various Centres of your world. I do not speak about yours, because there is a special reason for its existence and I do not want to speak further as an advertiser.

You all have such strength but you do not cultivate it. When we gave this encouragement to your medium we told him, if he remembers, to wait until it had matured and then he would be able to bring very tasty fruit for all the entities - as has happened.

He is only awaiting the appearance of the Lord for something that the Lord of Light has promised him. I am unable to specify the day and the time. Lord Pharah will specify this.

That is what I had to say; I may return to give you a special communication on the knowledge of the apparent Good with the infernal power of Evil.

1.24 The atmosphere during communications

{Pharah}

[22-210]

Please respect this place. You know well that communications are not carried out in an atmosphere full of **smoke** because you hinder the contact between the Divine and the receiver. The medium knows this. Why doesn't he speak?

smoke: refers to cigarette smoke.

I will explain: The smoke is a useless substance, and you ought to use something that links the Spiritual World with the faithful and does not distance it. A clear atmosphere facilitates this. You will also benefit from the point of view of your health.

When you are concerned about a subject, try not to convert it into a problem, because then each one of you will give a different solution. Take into consideration the **simplest** one, even if this, on first sight is difficult. Order requires this. I will not say more on this subject, as a specialist will talk about it, because his knowledge has placed him in a different place to others.

*Editor's comment:
Occam's razor or Ockham's razor is a rule in science and philosophy stating that problems should not be made unnecessarily complicated since the simplest of all possible solutions is preferable It was stated in the early 14th century*

1.25 The mediums, in their ignorance, are instruments of Evil

{Plato}
[19-141]

*Editor's comment:
It is common practice for
Heavenly entities to discuss
only topics in the area of
their speciality.*

My brethren, when an accident happens to entity-A and he dies, you know well that he is unable to appear for so many days when he is recalled to Earth by a medium. If he does appear, it is another spirit that is replacing him and it tries to describe the accident with screams, pain etc. This is not permitted, because the *spirit* in Heaven does not suffer from the accident. It stopped being what it was in action on Earth.

Who then appears and embodies to give through pain the exact symptoms of entity-A's identity?

Who else can it be, except he who is trying to deceive you?

The evidence is that the medium suffers. Why does the *spirit* embody and give these identities, to convince the faithful that he is entity-A? It is possible that the medium stops breathing! Who does this? The spirit of Good or of Evil?

You go to see this type of spectacle to amuse yourselves, without knowing exactly what happens in those circles, where there is no Divine Light. But they tell you that truly the light is divine! How does the medium conclude this? Is it because he saw the light in the Spirit? The Spirit of Dissension also has light! When I say "black light" it does not mean that it radiates black rays. The Light always has white or golden rays in two ray shades. This is how you fall into the net of the Wicked one without you knowing it!

It is possible for entity-A, as a spirit, to provide you

with an excellent identity and it may also transmit a number of points that you had forgotten in order to convince you that he is truly himself and not someone else. How will you scrutinise this, since Evil lies every day? What he transmitted are correct as points of identity. But what is he going to transmit in the future and you are going to believe him? This is a different topic!

Who has managed to mock Evil? Since the human race, because of him, appeared on Earth to gain its life with toil and torments you are and you will continue to be mocked as an imbecilic toy of Evil!

Pay attention to our Teachings. Do not proclaim Love but its application. Only then will you be in a position to recognise the difference between Good and Evil, between innocent and wicked and say: “something directs me and prevents me from believing or doing this or that”.

Do not think that Evil can be easily apprehended and placed in a bottle! When you achieve this, you will see, that it is you who are in the bottle!

Evil is a tremendous power. But you, having joyful light, do not be attracted towards it, but towards the Light of Truth, of Love and of Justice so you can find the Lord’s path.

EARTHLY GUIDE: Can you please enlighten us on this point:

Even though Evil – whose presence no one can perceive – is able to trap mediums and does so, should these spiritual communications still be carried out? It is only through them that men are convinced of the immortality of the soul and that there is the feasibility of being able to communicate by ignoring the traps of Evil that you have described

so clearly. Even negatively Evil becomes the instigator of good in this case.

Is this thought correct?

PLATO: Of course it is correct, because never has a student remained for years in the same class. Having acquired some knowledge, the students ought to advance so they can reach and see the True Light.

To convince men only about the immortality of the soul is not sufficient. They ought also to learn how to acquire this immortality in the higher classes of universities, if such exist.

1.26 The medium, in his ignorance, may dictate works of living authors to confuse the inspiration from the Divine

{Homer}
[10-190]

In your world there are a few, but extremely powerful mediums in the service of evil spirits. This happens so that they can bring total confusion to the communications received from good spirits.

The purpose of this Path, in which you are taking part by following the Heavenly Teachings, is to strike the Daemon of Evil wherever he is. This is another way of checking, that is, through a checking mechanism that the Lord has created to examine everything.

The mediums that we are discussing, without them being aware, fall into the service of Evil. This is how it happens: they say that through their research they seek to clarify if a Heavenly spirit transmits a work or a teaching or if these stem from earthly

thoughts of men that the medium can get in touch with. The medium borrows the way and thought of the construction of an article in total ignorance of the supposed author.

Through this doubt, researchers who want to be called scientists are brought down by the deception of Evil who has cunningly opened up the trap of their misfortune!

Evil, who mimics everything perfectly, knows the writing style of all the living authors very well, communicates directly with the medium and dictates to him part of an earthly author's work; a piece of work of which the true author in reality is totally ignorant.

This way, under the guidance of Evil, many works have been plagiarised. Works of scientific interest have been published by this means in the press in a strange manner, so that the real authors are surprised and accept that other men (scientists) have conceived the inspiration before them.

That is what happens with the unfaithful who insist that only by touching are they convinced of the Divine Authority. They are going to suffer more until they are brought to their senses and can blindly believe, since the pure teaching of Heaven contains nothing that can be criticised.

When the medium receives a topic from the subconscious of a living author, you - who examine everything - should study this work and then you will notice without surprise that it really has been dictated according to the phraseology of the author. The Divine Enlightenment is missing, that is, the medium is not transmitting anything useful to humanity. It does not teach aspects of Heavenly life or movements of Spiritual Leaders, Guides and

Guardian Angels, because the transmission of the work was made by the evil spirit.

Be careful with this type of work that has the aim of shaking and destroying your Faith and piety towards the Highest Authority that labours to increase your morals and cleanse your spirit of the contaminating flow of evil spirits.

There is no need to have recourse to this type of work when there are authors that receive the wicked radiation of daemons directly. They corrupt the thoughts with their manuscripts, and mislead their brothers to the uncertain and destructive actions of life's work.

1.27 Clarification

{Plato}
[19-146]

Brethren, I **did this favour for you** for the reasons that you know and it is not necessary for me to repeat the same.

*did this favour for you:
allowed a personal
communication*

You see how Heaven is favourably disposed towards you on many subjects.

My brethren, when someone is not enlightened by the Spiritual World he may suffer. If the world was enlightened on this point, that is, of the Spiritual World and the Fountain of the Lord, much would change to the advantage of your brethren. Everyone would be aware of the path that they ought to follow and they would not distort it with misinterpretations and **sophisms!**

*sophisms: apparently
clever but flawed
arguments.*

Other good spirits, but of a lower spiritual rank, transmit at different Centres of your world a small part of their enlightenment. That is, they carry out

the spadework of the great and valuable knowledge that the Spiritual World transmits and will transmit to you, precisely for opening the inner eyes of men who say that they are full of knowledge!

Ask whatever you want, I am listening.

EARTHLY GUIDE: Brother Plato, referring to what you said at our last meeting (see section 1.25) about inviting a person who recently died and is substituted by the Devil to mock us, we wish to learn if this happens only to recently departed spirits or also to spirits that have died some years ago, if they are called for communication.

PLATO: The same thing also occurs with those who have been recalled many years ago. Also note that everything I said in that Teaching, is a rule that has exceptions.

A spirit that is strong and good is able to appear without being embodied in the medium and without receiving ectoplasm from other mediums. Ectoplasm is not an attribute of only a few mediums, but exists also in the Infinity, then it is called "Divine ectoplasm".

It is possible for the Evil spirit to receive such ectoplasm, without it being divine. If you are not agitated in front of him and keep your self-control, having the Lord in your mind, make the Sign of the Cross and immediately it will dissolve! This ectoplasm is fake. That is, Evil with his suggestive power shows you a person, or he appears himself, without any substance existing! Keep this in mind.

1.28 General instructions to the Circle

{Euclid}

[19-104]

NOTE: Brother Dionysios T., with respect and devoutness asks if his mother wishes to say something to him, and if permission is given for her to say it.

EUCLID: Another one of the faithful asks for something. Do not disappoint anyone even if they ask for the impossible.

Tell him (brother Dionysios) that his mother is very concerned about him and generally about his life. She says with bitterness, that apart from her son all the others have deviated and follow a material path without any spirituality and perception of the Divine Authority. She appears so she can assist, so that the children of her child do not find themselves in an impasse and bitterly regret it, without having the means for their salvation. "Let them be careful", his mother says, "and at least go to the House of the Lord and ask for His help otherwise their lives will be very hard. Today they rejoice. Tomorrow they will grieve. Therefore, before the worst comes, let them repel evil with the strength of the Lord's Divine Energy".

My dear brethren, in the whole world a great movement is taking place that has started to take flesh and bones. This movement comes from young people and some of their enlightened collaborators, who have perceived the bad fate of humanity that has distanced itself from Christ. The young are moving forwards with Christian strength and are enlightened by the inspiration of those young persons who are seeking an exit from the dark corridor in which they found themselves when going towards the Boulevard of the Lord. That is

why the Work of the Spiritual World had to enlighten those in need of Divine Light much earlier. But it is never too late when the Spiritual World assists its Work. All these things should have been in the possession of these faithful young people because many who lost their lives unjustly would have been saved.

He who has impeded the faster dissemination of Divine Light around the world will be asked to give account for this, because he was able to help and he did not, because he was led astray by the attraction of matter and he preferred the useless decency of himself and fame rather than humility and the honest love towards the human race.

I will not mention the name of he who propels your work. The Lord will award him long life and health to his family so he can see it as he wishes inwardly. And He will guide him to unutterable happiness, in time, for him to rejoice listening to the influence of the Spiritual World on his brothers throughout the world. He blesses him and his whole family as Energy of Divine Providence.

Do not think, my dear brethren, that Brother Hippocrates is not concerned about everyone and is only concerned about the very few from Our Circle on Earth. If this **Brother** had permission, nobody would complain and all would turn with their hands extended towards him with requests and thank him for his Divine Grace.

I do not believe that you have forgotten that in the Infinity there are infinite and unaltered Laws of the Lord that are the Values of Heaven and they intervene where it is necessary for action. In a contrary situation these Laws would not exist. The Laws of Anarhon are just in their absoluteness. They never err! It is possible to give life to the

*Brother: Hippocrates. the
Leader of the Society of the
Invisible Doctors.*

dead and death to the living, without having the freedom to justify one case or another. For this reason these Laws are unknown to men. They operate “by themselves” with mechanical precision and they do not go backwards as often happens with machines.

That is what I had to say for today.

1.29 To all the spiritualist centres of the world

{The Spirit of Truth}

[24-45]

Every centre ought to be respected by the faithful but not strive for leadership as happens with the dogmas of the churches.

I would like to say much more about this **Fortress** but I do not want others to think that We are projecting this medium since this voice does not come from him but from the Spiritual World.

Fortress: Spiritualist Society of Athens, “The Divine Light”.

I have said before that many centres are lacking Divine Enlightenment. Spirits appear in those centres that have positions in Heaven but this is not enough when there is the Authority and it speaks to you.

If the medium with his goodwill wants to help his fellow men with their queries, illnesses and anything else they require, he must not forget to obtain permission from Our Authority first because if he exists in life it is because We want him to. At the **end of his life** the Spiritual World will stop transmitting all the necessary Teachings for Enlightenment not only for your travel in life but also for your direction towards the immortal life.

Editor's comment:
end of his life: This refers to the death of the medium George Pizanis, who migrated the day after the last communication having farewelled his earthly brothers.

I ask you, if there is praise in some of Our Texts remove it completely. You are all equal in front of God.

In some centres in the USA Jesus appeared! Is that possible, in centres where they treat a communication that the Lord would appear as a secondary function?

It is not the appropriate time for me to expand on this subject. Bear in mind only that these phenomena agitate Man but do not affect his spiritual situation. Only the Word (Logos), the Divine Logos, operates in such a way that It is not perceived by many of the faithful.

But Man asks for miracles! Did they not ask this from the Lord when He was Teaching in the Holy Land? But the Lord ignored their requests. He considered those requests unnecessary since they did not understand His Words.

Today, that means in your era, you should be happy because you follow directly the Teachings of the Great Leaders who labour for your enlightenment. This Star of Enlightenment will not be seen by others, but only by those who follow the Texts of pure communication.

I do not specify a time, but the Work of the Spiritual World will remain immortal in the history of the civilised world. And when this world will seek the Source it will not be easy to find, simply because it will not exist then.

That is why I say: "Take advantage, since you are fortunate to follow Our communications. Consider the best texts of the whole world (of course some of them may have eloquence but not substance) and compare them with those that you have in your

hands. If you have judgement you will accept the difference. If not, the fault is yours and it means you did not understand what you were taught.

Once I wanted to describe the Lord's Life in a series of teachings. I did not do so because the scholarly wise men of your era were proven unwise and naive in their judgement. They did the same thing when they asked Jesus: "What is Truth?" and the Lord did not reply because they were in no position to understand the significance of the depth of the meaning.

My dear brethren, I had to speak this way for you to understand better and I hope you understood everything I wanted to say.

QUESTION: Our Lord, permit us to ask the question: are we able to publish this Text in our books?

ANSWER: You can, because the Spiritual World is fearless and will deliver bitter blows to those who laugh about these contents.

1.30 Do not think too much about the deceased

{Petrula}
[24-83]

Petrula: see short biography in Book 2.

I am glad I found you. I am very happy when you are turned towards the White Light of Heavenly Teaching.

As a student I also follow the lessons and this soothes me very much, because you are being taught and you need to conform to the Heavenly Truth.

I wish that all of you enjoy the good and necessary goods of Earth, together with the spiritually enlightening goods of Heaven. When you combine and retain the measure you are within Divine Justice, understanding and Love.

Do not think very much about the deceased, since they have travelled to the Island of Resurrection. Of course you are humans, and want to know how they are, how they are thinking and what those who departed from the world of matter are going to do. Do not continuously disturb their calmness! They also have to carry out work and we must not disturb them whilst they are carrying out their duties.

You may say: “what is the use of the Spiritual World then?”

It is useful my brothers for linking you with its Authority so you can be directed directly from it as its beloved and valuable children. It is one issue to come into communication with the Great Teachers and another to be in constant contact with lowly spirits that need to be taught by Us and not for them to enlighten you.

You have greetings from many friends and relatives who remember you and in their prayers pray for your health, your happiness and your enlightenment.

1.31 Method of teaching

{Plato}
[19-141]

My dear brethren, you have the right - given by Heaven - to ask about what you do not know and We will answer you wherever We can. But do not abuse Our goodwill and deviate from what you

should know and run back to what you should not know because Heaven has its secrets. It is not possible for them to be possessed by many, if the souls of the entities are not refined.

For those who do not easily perceive the deep meaning of the Philosophy, it is unnecessary for us to philosophise with them. Through His parables The Lord conquered the masses. The parables were simple, understandable by many people and philosophical for a few, because they did hide the meanings of human nature. If you do not clearly understand the nature of Man, it is impossible for him to understand what you want to say, even under the guise of a teaching.

If you are unable to convince A or B because he does not understand you, show him images because his spirit is somehow retarded.

Do not think that your wise men do not need images. Maybe they need them even more than the others, because they are twisted by their egoism and their useless education.
