**Communicating Spirits:** *Plutarch; Plato.*

## 5.1 Prologue – The Golden State

[31-7]

The Golden State is the future State (on Earth) that Plutarch has prophesied, within the framework of Heavenly Teachings that were transmitted to the Spiritualist Society of Athens “The Divine Light”.

This State will be a reflection of the White State of the Spiritual World, on Earth. It will be the earthly paradise. Based on the principles of Love and Justice towards all citizens, it will be the lighthouse and example to all nations of how they should structure and operate a society of virtuous citizens.

The Management will exercise its duties for the benefit of all the children of the State. Children will be brought up correctly through instruction based on human values and music will raise the soul to heavenly spheres where the spirit will be enlightened by immortal values. Laws will be established by inspired lawmakers and will operate for the correct reform of the immoral and will not be used for inhuman – and frequently unjust – punishment. Religion will take care of the continuous cultivation of the soul and spirit, so that these two balance. Furthermore, the solution to many of Man’s inner problems will be found.

All aspects of this blessed State, from educational establishments and athletics to public benefit works and entertainment will operate impeccably and they will all be designed for the spiritual and psychical elevation of all citizens without exception.

Therefore justly, in this spiritual winter in which we live these days, within the psychical intolerance and the total material acceptance of life that brings Man to the level of a beast, the image of such a future State warms our hearts with the hope that the Lord’s Love will raise Man to the level for which the Creator created him.

## 5.2 The Golden State

{Plutarch}

[5-209; 31-7]

I will give directions about My Work. My brethren, when you receive the Texts of the Golden State you will concentrate only on these until the end of the Work. You will not turn your attention to another direction caused by sound or by being disturbed by a third or other persons, because there is a specific reason for this Work. This Work prophesizes the future of the Golden State on your Earth. From this State will radiate the Lights of Love, of Justice and the goodwill of all good and pious men. From this State also, the bright sun of the psycho-spiritual substance of new Man will rise. From it, the new branch of science will grow that is, the advancement of the spiritual man through Divine Energy.

All will receive a new form. The unpolished diamond – Man - will sparkle as the most beautiful star of the Universal World. The animals will be ennobled even more because they have intelligence that Man lacks because of his continuous thinking about matter. Man will tame even the wildest beasts, because in him the imposition of his soul strength and spiritual Divine value will be developed.

Within the framework of the new State, Man will see how he is able to collaborate with the Divine and how the Divine will intervene, through inspiration, in the Great Work of the Lord, the base of which we gave to the Word, so that the Word will be converted into Work and this action will be credited to the last Pharos (*lighthouse*) of the Divine on Earth.

The chapters of this new Work will remain for eons in the memory of the bright and Divine Enlightenment.

Be proud in your soul because you are forging a landmark that humanity has never before imagined. The Golden State will attract everyone and will teach everyone what is the highest good in the Creation of the Universal World. The highest good is the application of Love.

I thank the Almighty immensely because He has enabled Me, His humble servant to give the image of the future Golden State.

This way, Man, through his perishable eyes will see Heavenly bliss on Earth. Of course, the difference between the White State and the

Golden one is great. The Golden State will prepare its children for the White State so that by the earthly cleansing they are prepared to be placed in the new and eternal life of the Spiritual World.

Again I thank the highest Authority of the Spiritual World because It has enabled Me to give images of the future life to the world of matter and disobedience.

From the depth of My Soul I thank the Triadic Divinity because It decided through the Divine Light to facilitate these communications for the benefit of the whole world under the sun.

The Spiritual World makes no exemptions based on race, beliefs, the spiritual development of men and much else. It considers them all brothers.

All of you will meet in the same invisible World and there you will understand the meaning of spiritual brotherhood. There, in Heaven, you will see the Divine Light and you will perceive that all the declarations made by the Spiritual World were not futile, but were meanings with the aim of elevating the human substance, cultivating the soul and refining of the spirit. Those men who have demonstrated faith and embraced the Will of Heaven, will receive an unknown reward in Heaven. Those who ridiculed the Divine Texts will regret it bitterly. Unfortunately they will not receive the same favour as the others. This is because, if Divinity wanted to give them Its Light then what should It give to the truly faithful and devoted?

My beloved, before entering into the main points of the Golden State it is essential that I give you some explanations for your familiarisation and Heavenly Enlightenment:

The precept of the Golden State for every citizen is the following:

“EVERYTHING WITHIN A MEASURE IS EXCELLENT”

(*“Πάν μέτρον άριστον” – Pan metron ariston*).

The ancient Greeks did not philosophise but were taught the Will of the Lord by the High Spirits. They cited this precept for this reason.

The Lord permits Man everything. It is sufficient that he weighs up the pros and cons and decides with freewill. When the Ancients flourished in spirit, which other nation in the World was in a position to compete with them? Do not mention other civilisations that were in darkness in their beliefs and actions. Very few of them had the Divine Light, whereas in Greece, during the old epoch, there were many who discovered the meaning of God.

In ancient Sparta the laws for the citizens were extremely strict and more so for the young people. Many of today's nations have the impression that they mimic the Spartan civilisation. This is false. They mimic it badly and I will explain why.

Sparta demanded very strict discipline from its young people, but, it taught them that their spirit was free and that a young person could do as he wished. One was free to steal. Why? To increase the courage of the young person but also to sharpen his dexterity, so that he would fear the law and carry out what he had in mind without being noticed.

This had two aims: courage with dexterity and secrecy. As much as theft is apparently abhorrent to you, in Sparta it was necessary. When they carried out such action, many of the young people preferred secrecy and death. This exercise had the aim of intensifying their spirit. Foolish men should not reproach them for what they have not understood from the history of the Spartans.

I am not saying that all the laws that were enacted by Lycurgus were excellent. As a man, he was wrong in some aspects and successful in others. I will not explain why, because we are interested in the new State that we are going to describe as we promised the Spiritual World.

Why did I choose the title "Golden State"? It is because, as the sun rises and through its golden rays announces the beauty of the coming day, this way, the Golden State will announce the blissfulness of Heaven on Earth. Its rays will be for the entire world. It rises to enlighten all of your souls, soothe your hearts and open new and wide horizons for your spirit that is enclosed in your brain and is unable to expand further than a certain point. This is why the Divine Light intercedes.

The first points that I am going to elaborate upon are:

- POLITICS
- EDUCATION
- MUSIC, and
- ATHLETICS

These are in a position to render the meaning of God. I will continue with “What is Religion”.

Because I report on the new State that is unknown to Man, and as you know an Authority governs this State with political spirit, I will explain first what Politics is. Afterwards I will continue with different chapters concerning the Golden State so that all will learn at what the Spiritual World is aiming. Moreover, if they are men with logic and great soul, let them support this Work if they do not want to mimic it, because this Work’s spark will cause fire. I want to say that its transmission of spiritual progress will be unprecedented, so that it will find not imitators but followers. In other words, brothers.

The Head of the Divine Inspiration for this Work is the Light of Truth (*The Holy Spirit*).

### **5.2.1 Politics**

The word ‘Politics’ is an unknown word in the political circles of your world. Politics will be practiced for the first time in the Golden State. Politics is the mysterious power of Divine inspiration in Man, who practices it according to the Will of the Divine image of God, Who has created everything. Today the whole world practices politics like a man without conscience.

Politics does not mean to meddle in politics but rather to set in order everything with conscience and love towards Man. Politics in the Golden State does not seek the interests of only one nation but the interests of Man, whoever he is and to whatever race or belief he belongs.

First, the governing mind of the State that I have talked of will have the Divine Blessing to elect men appropriate for the positions which they will honour and promote with perfection so that the governance of the Golden State will cooperate with all its members as though it were one

person. This is for the benefit of all citizens and not just for small factions of people or for personal obligations.

Politics will be the golden words for the mitigation of differences and adversities of neighbouring nations and beyond. The State will convince through words, not for its own benefit, but to put everything in order correctly and with good action.

A politician must not be like today's politicians - cunning, not worthy of confidence, a usurper, distrustful, sly, and a sower of discord. The Golden State will be the example of Virtue, Kindness and Good. It will look after all its constituent members, even the most insignificant ones.

When such a State is concerned for all its children, all of them will be alert to the smallest need of their mother, to assist her even by sacrificing its entity. However, if everything proceeds according to the measure and with cohesion, it is not possible for such a flower of Eden to be deformed. And this way, the beautiful and different varieties of flowers of this new State will multiply. The Golden Rays of the State through their radiation will attract human entities that are inside the State, so that through admiration and competition - they will want to compete until they reach the true brotherhood of the one human family.

Individualism, fanaticism, greed and all similar weeds of the entity will be removed in time because the New State will give, as an example, Man conquering his bad and harmful nourishment. For Man is not nourished by food alone but also by his bad habits that become second nature and then a passion.

On this point, which is also the main point for Man, Politics will intervene as Divine Enlightenment, to teach him that if he is left to the four winds, he will never be able to find, even throughout all ages, the Boulevard of Virtue.

My dear friends, Virtue has branches that you, who are conscious of your actions, ought to follow with a measure. Because if you have an excellent soul, but do not have a clear perception, it is possible to deviate from the path of correctness and be trampled by a jealous person whom you have not perceived. This way, all the kindness of your entity will be to no purpose because you were unable to put it into the service of your good actions.

You can be good and able to assist your brothers but because of the tardiness of your perception, a thief and a wicked man will be able to take advantage. All this will be applied outside the Golden State because within it all will know the Divine Word and will apply it to the letter. Therefore, the main role is taken by the politician, a specialist in the art of words, logic and correctness.

The Golden State does not need directions for what it has to do. The Opposition (*of Government*) is not the enemy of the State but is its doctor. Cooperation between the Government and the Opposition will have a different meaning which will be that of brotherhood between them, so that the State will be governed by one person who assembles everything.

I say not only what the mechanism of the State will be, but also how other nations will exist, as emulators of this State. They will have respect and faith towards it for its spiritual progress because despite all progress, knowledge is infinite and from its progress it derives new knowledge. And the good becomes better and the better becomes excellent.

Nations under the sun:

“Open your eyes closed by your deep sleep and look to find first the image of the Golden State to enable you to enjoy the true Promised Land, not only for your sustenance but for the maintenance of your goodness of spirit, so that the Light of Divine Providence will give you peace in your soul as a gift.

The Work of the Golden State is great and great is the meaning of politics that Man has destroyed for reasons of self-interest and so brought the world of today's epoch to a dead end. This dead end will be eliminated with the first flash of the new State's Golden Rays. Only this way, distrustful men, will you see the happiness of Heaven on Earth.

Fight your enemy, the Evil within, and if you do not believe in the Evil then fight yourself, because you have been overtaken by it totally”.

## 5.2.2 Education

With the word “education” I do not mean how a person ought to be taught technically, but how he ought to educate his spiritual world through the Divine concepts.

It is possible for a professor to have enormous fame as an authority in the delivery of his duties i.e. to transmit his knowledge to his students in a special way to enable them to understand. On the other hand, a person with little fame, but who is equal to the professor, can save more people and lead them to their destination through his actions. This is how the “great mind” did not have the same direction as the one considered to have a “lesser mind”. The lesser one meditated much more deeply than the great one and so he took the position of saviour and not of educator. This is because education in depth is the lifejacket of the soul.

Learning is necessary for the shaping of the brethren but it is not always to their benefit. Education needs to be grounded in the demands of human life. Many years of classroom learning weakens the student who remains for many years in the senior classes before receiving his degree. Higher education is achieved by experience only and not from the continuous vague words of the professors.

Today, sciences end up in new commercial branches and thus no longer have the value that they had many years ago. In the Golden State the added years of foolish study with the pedantry of the professors will be abolished for the students. It is possible for the study of medicine to last only three years. If the graduate has an inclination towards it or if he has an inclination towards another specialty, there is no need for him to waste his years unjustly to be considered worthy of his profession. It is sufficient for him to have zeal for his science.

They torment people unjustly into only one specialty. This is so that the number of scientists will not increase. And, on the contrary, they increase even more.

A scientist must have an inclination towards the science he chooses, and during working hours must devote himself to it as a man and not as a merchant. I said all this will be eliminated from the Golden State, no one will remain uneducated and every citizen will be occupied with what

he enjoys. Understanding will be the means of all agreements between brothers. A person who becomes angry or rather excitable will be considered as ill and will be taken care of as such, because when the nerves weaken, one is not able to carry out any duty for the common interest.

When a citizen wants to help his brothers, he is never alone even if he does not have beloved persons alive. The people around him will substitute for his own and the State - as a true mother - will turn its immense love towards all its children who will be concerned about her as the divine daughter of Heaven. Education - spiritual and psychical - will be the two legs that support the human entity on a solid foundation, so that Man by himself can judge his own mistakes and reduce these with goodwill and perseverance.

As mentioned the Golden State will consist of individuals. Anyone lacking perception of this principle will be locked up in special centres for examination and therapy. That is why this State will be incomparable as an example of goodwill and for the development of soul strength in Man.

Women will be a balm for men and not the finger of Evil. If, by chance, a man is found to speak without respect to a woman, she will be in a position - through her gentle speech and virtuous behaviour - to bring him down without malice and hatred, so that when the man regains his composure he will thank her as a divine guide.

I am obliged to compare your epoch of today with that of the future, because the female has become the kernel of immorality. For this, the male is to blame because he gave her the freedom to think and act so now you find yourselves in the midst of confusion and cannot find the exit. I am totally indifferent to the views of your fellow men, because they are incapable of deciding which are beneficial (*views*) for society and which are harmful.

Who are the best above all others who can teach the faithful or even the unfaithful, the path of virtue and the path of evil? Maybe you my dear brethren, may know who would be able to do so? I will tell you in a short while. Those who say that they are enlightened by Heaven and who forget that there is bad enlightenment, which twists meanings and delays Man's progress to soul beauty, we will speak of those more extensively in a different chapter.

With the word “education” I mean a broad, human education and not an inhuman one because Evil also has an immense education but how does it use it? It uses it for its machinations and deceptions that today Man mimics.

The Evil spirit will only be defeated when Man has knowledge of his destination.

Furthermore, who is going to teach what his destination is?

Do not deceive yourself! It is only the Spiritual World, which, since the beginning of the World has tried to inspire you and to teach Man, the uncultured Man, because today he is cultured only by Evil. Only very few are the exception. This is the reason their voice is not strong enough to enable all the brethren of the great earthly family of your World to hear it.

But the Spiritual World that is interested in this voice will place megaphones, that is, a special network of radiance in the hearts of men in order to achieve the exemplary Golden State that in future years Pericles will govern. His predecessors will also be important people with knowledge and human sentiments, not bestial ones that, with regret, I notice most of those governing humanity have today.

### **5.2.3 Music**

I will not examine music as a means of soothing an entity, nor am I going to penetrate into its deep meaning, that is, into its essence as a language different from the common communication between men.

Music, my brethren, ennobles the soul and gives it the possibility of calming the spirit and, through imagination, gives wings to the inspiration of intellectuality.

At first sight, music is considered to be an amusement. This is a bad human perception. It is not possible for the work of musical sound to be easily understood even by a specialist. In the daily labour and toil of your life, music is essential. It numbs everything and revitalizes the spirit with new directions.

I do not refer to the unreasonable musical sound, that is, the sound of human derailment that depicts the barbarism and unethical customs of retarded people. It is strange for a man of knowledge, that such annoying vibrations that have no connection with the true harmony of soul, attract him.

Music is divided into many and different parts. We will not examine these, because it is not in my specialty. When you have acquired many images of life, and your spirit is calm with correct knowledge and varied form, sitting outdoors enjoying a well-known piece of music, immediately you form marvelous images of your actions regarding your future life on Earth.

Music relaxes the soul and supplies it with a sweetness even greater than honey. The satisfied soul acts upon the spirit so that the spirit under the influence of music, opens for you new horizons of knowledge and good vision, so that you can form images worthy of the name of Man, that is, humanitarian images.

The Golden State will not have to choose from many sounds of music, but only from those sounds that soothe the violence of men for the ennoblement of the entity.

There would be many musical Centres for performances. I say “performances”, because music without you perceiving it performs its energies well or badly. Exquisite music is performed only through the good intentions and deeds of developed human brains. Concerts in the Golden State will be performed in wide spaces with the minimum expense to the music lovers. The musician, the true musician, is not a merchant, but is an instrument that feeds the soul, since music is the nourishment of the soul. The major part of the musician’s expenses will be covered by the State, so that as a citizen the musician will not be in need of necessities and will be free to offer to the great family of this world the virtue of musical sound.

Do not ask me what are the virtues of musical sound. Whoever has knowledge and a good soul is in a position to know. Music is also a means of facilitating the soul to offer to the Almighty the highest greeting of Beauty, Love and Peace.

In your inner world music pacifies an abnormal situation. It places in order the ideas that are in the spiritual closet, it reanimates the wish to do that which is correct and good and it raises morale, delays the bad inspiration and converts it into an energy for good. It resurrects the passive inertia of the body and replaces it with a new life.

In the Golden State lectures about music will be given. This is not to laud the musical composers who will be already known, but is for people to know what effect the true energy of music has on the entities - and what will be in Heaven.

The whole life in the Golden State will be music, flowers and love, the like of which until now Man has not been able to see. That is why I say that this new image will be the poetry of poetry. Everything will be examined - not with your today's spirit, but for the good of the State. All will be willing even to sacrifice themselves for such a Mother. But likewise the Mother will be willing to assist even her last child, when it is in need of her.

All will learn what capabilities music has in Heaven and why the Lord gave it power to attach wings to the spirit. The spirit has great speed, of course, but it has no rudder. With music's wings it is directed where it is destined - that is, it does not depart from its circle, even if this circle is called the Universe.

With the word "circle" I do not mean that the Universe is circular. Only the Lord knows this. The circular shape stabilizes the meaning of an image. This is why many times We talk with circles. "Zero" is a circle. What it contains is unknown to Man's perception. Since it exists, it is not empty, but it contains values that none of you is in a position to ever know!

Proof of all that I say is that "non existence" was represented by zero; and from zero the Lord appeared. He Who has created everything and placed in front of your eyes all that existed inside zero. Therefore, "zero" does not mean "nothing", but something that you are unable to perceive.

The Orators of the Golden State will explain the meaning of zero to the citizens of the unrivalled life who, on their own, will perceive through simple words what the meaning of zero is, that is, of the Unknown.

In infinity the musical sound is the chant of Angels. At some stage you will be in a position to grasp these sounds and then you will perceive the truths you receive from the Spiritual World.

#### **5.2.4 Athletics**

With the word “athletics” we do not mean the competitive contest for monetary gain but the noble rivalry of young people for their physical development. In older times, the winner was crowned with a laurel wreath made of bay leaves which are holy and the honour then was much greater than the honour that they give today to the winners, as though they are buying them.

In the Golden State the winners of the various games will be crowned with ivy or bay leaves. The rivalry between the young people ought to be on a pure basis and not a material one, such as monetary.

What is the aim of the exercises for the different sports? First, it is for their bodily health, second, for their distancing from all material offers and third for their engagement so that they will not stray like today's immoral young people, who are heading for self-destruction.

We want the healthy in body and in spirit. When the body is not healthy, despite the clear spiritual development, it is rendered dangerously lame, and without understanding it they will do something that will possibly harm not only one person but the whole community. It is sufficient for the young people to join athletic organisations that will oversee and direct them to the path of joy and to their elevation. Later on, when the young people flourish in athletics then they will join a different form of development. This will be of the spirit.

It is not advisable for a young person to enter politics despite his education. He should enter politics after he has experience of life and can influence those that do not have an idea about politics. How many young politicians do you know today? What was their product, despite their offer to their nation? Maybe their fiery speeches have inspired people to a good or bad outcome of the nation? That is where the incomplete knowledge of people leads.

Because Man returns many times to your Earth to be trained, an entity at a young age today can be much more advanced than entities were in earlier times. But this is not sufficient, when you as conversant as you are about the Divine Authority know better than all the others - that knowledge is unending.

Great knowledge, that is, a supreme degree of spiritual development in Man, is often, not to say very many times, deceptive! When his peers raise a person because he is superior in knowledge, this person - without of course seeking it - develops in himself the various branches of egoism and egoism is exactly this dark point that condemns him as useless. And if this man dies, society refers to him as a great spirit. Society is pitifully deceived.

Who did they ask if he is truly worthy of being called a great spirit? Only the Spiritual World is in a position to tell the Truth. Such false knowledge which comes from the other side, is not acceptable to the Golden State. Not only about the man who I referred to but also all men together ought to know that humility is the weapon to exterminate egoism.

The Lord never spoke as an egoist. He spoke the Truth because the Holy Spirit transmitted it to Him. The Lord did not come to Earth to reign on Earth since He declared that His Kingdom was in Heaven. He repeated what his Father transmitted to Him. And when we tell the Truth it does not mean that we are egoists! But for someone to know the Truth is not easy, because falsehood is great and it attracts, whereas Truth cannot be approached by everyone. They repel it so they are not obstructed in their unlawful work.

In the Golden State everyone ought to know the definition of Truth and based on this, act as enlightened spirits. That is why young people should participate in athletics that will dissuade them from the forbidden grounds of earthly life. All have rules and these must be strictly obeyed. This discipline is not at the expense of the citizens but is for their elevation. With your intellect of today, you have the impression that you know everything, you forget the ethical base of life and deviate with the various experiments that will result in a dead end. And then you wonder what measures you ought to take for the benefit of society. My beloved, you need to be educated first. Not on a new theory that destroys the human quality but on the Divine direction, which you should absorb to

receive the position of a star, which enchants and also raises the entity to the height analogous to its Divine Light.

With the images of athletics I do not mean that the Golden State will be converted to an army camp, because if this happens, then the purpose that would be encouraged would be dark, disastrous and inhuman. Our reason is different and very much more superior than you can imagine. But the citizens of this new state will be so initiated in the Divine Light that they will know everything before hand.

I warn you of what needs to be erased from the meaning of words. That is, not to talk of the good things and think of the bad. Do not speak about morality when you are the most unethical in society. Do not punish when you are more guilty. Do not deceive your brother when you are inferior.

My brothers of this world, it is necessary to conform to the Divine Authority and ignore the small faults of your brethren, because “nobody is without sin”, said the Lord. The Spiritual World forgives the small sins that do not harm anyone in depth, because you are human entities.

But what do you understand by the word “sin”? I will examine this further because it needs analysis.

Do not be envious. Fight your bad habits. Try everything with a measure. Nobody is stopping you from tasting the fruit of your earthly ambition. It is sufficient for you to know the way of your behaviour without fraud and the creation of envy and hatred. All these, as I said, will not exist in the glorious and full of blessings, Golden State.

### **5.2.5 Religion**

Religion is the last meaning to which Man gives importance. You will ask why? It is because Man does not develop with Divine nourishment, when he appears in the material world. He ought to develop his spirit and afterwards, after he has arranged many of life’s meanings with order and logic, then he would also turn to religion. For this reason I started developing my Work with the other meanings of Life’s Word.

Religion forms the stone of Wisdom. If Man does not pay attention to this stone it would be impossible for him to construct solid dwellings for his existence and sufficient light for the raising and continuous cultivation of his spirit so he can balance the spirit with the soul.

If there is no understanding between a man and a woman, their life is converted many times to hell. The same thing happens with an entity. If the spirit does not agree with the soul, the entity sails as a ship without a rudder in unknown oceans. All these The Golden State will take into consideration because it will be based on solid foundations. The State's rudder will be the Divine Word that does not dictate trite meanings incomprehensible to the spirits of the citizens, but dictates tangible and lively images of each citizen and his Faith to the one and only Authority of the Heavenly Kingdom.

In the Golden State the faithful will not congregate in the church to solve their life's problems or to express opinions on subjects that are of no interest to religion. However, there, the soul will be cultivated, that is, the inner problems of Man will be explained and how he through his supplication will be able to come in direct contact with Divine Will.

The preacher will talk and explain what the Divine Light is and how this enters, as a helper, into the spirit of Man because a good act is an energy of the Spiritual World and not of Evil. It will also be explained why when Evil affects an entity, the Spiritual World does not take part, together with other very useful information for the cultivation of the spirit and the relationships between citizens as well as between females and males.

Celibacy is not advocated for anyone, even if he is a high priest or an eminent person in society, except for the ones that have been born for this reason. They are never tempted by Evil's machinations, that is, they remain indifferent since their subconscious dictates the reason, which they keep as a Heavenly diamond. They gave this promise in Heaven before departing from the Divine Kingdom of the Lord.

The priest will not pretend and he will enjoy the goods as do his fellow citizens. He will not be deprived of spectacles, concerts and many other beneficial lessons from life. He will not exploit the faithful but he ought to assist them and direct them as a faithful and devoted family friend. He will not swear, because this is the same as swearing to God.

The priest will be remunerated as a public servant. No one will be more privileged than another but all will be prosperous and will have free time to study and exercise their spirit in the varied knowledge of their world. The libraries will be open for all, and what their spirit desires they will be able to acquire in their library so they can enjoy it even more.

As you can see no one is treated unjustly by a spiritual and psychical education. The latter will attract the citizens even more, because the study of the inner world is unending. There they will learn how to avoid diseases and how they can become doctors of themselves. If some of them do not have such soul strength, there will be provision for them.

It would not be permitted for anyone - either scientist or wise man or merchant - to have immense wealth at his disposal. Of course the imbalance exists in nature but it must not exist in the application of the Law, which maintains a relative equal existence in Man. A beast does not know equality from the point of view of sustenance. Man who has a brain ought to know that equality exists in certain aspects of life. Otherwise, he should recognise that he belongs between a beast and a non-human.

All these, as I stressed, together with the previous sections, belong within the circle of religious discussion. Religion leads Man towards the port of the Heavenly State. Religion for this reason does not select the incapable, but the worthy. If they are not worthy, the purpose of religion is to ennoble the citizens who are coarse and uncultured in soul, and convert them into precious stones, and to not wait - as with time - to fashion the hard diamond of the Lord through grinding and by returning the souls many times.

Divine Providence speeds the valuable cultivation of the entities that are called "Man" in morph only. Its aim is not only to cultivate the morph but also the conscience to become Man. Man's civilization is not measured by technical progress - the roads and mechanical facilitation - but by the outcome of his inner progress.

The Golden State, as an invaluable Lighthouse on Earth, will light as another Divine Star and will transmit its light to the four horizons of the human race. From the earthly darkness the Fountain of Immortality will spring for all who come to It, so that through the secrets of Heavenly

education are taught the miracles of the Golden State, the new earthly paradise, for imitation and acquisition of Divine Knowledge.

### **5.3 Municipality – Cleanliness – Public Benefit Works – Entertainment**

#### **5.3.1 Municipality**

My dear brethren, the municipality represents an affectionate father who is concerned about the welfare and education of the citizens without ignoring or violating their rights.

In the Golden State, the municipality will be primarily the educator of its children. It will take care of all that is happening in its house so that everything is carried out for the greatest benefit of the larger family for which, with Divine Grace, it has taken responsibility. The care of the municipality is raised to the first position of the circle of “humanism”.

Today’s municipalities of the various cities are far removed from the responsibilities that they have undertaken, because they are possessed by the love of power and little favour towards their citizens. They consider the majority. This is an unexplored pretext used as an excuse. A good Authority considers the individual and from there, it enlarges to the majority, so that the children of the same family will have equal political rights and the rights of the human life.

A comparison between present and future municipalities is enormous. If the differences could be coloured, today’s municipalities will be black whereas the future municipality of the Golden State will be golden, as the State.

It is worthy of observation by the searcher, to see the differences and to tell us why they exist. However, who is going to study this deeply and declare the true reason for the difference, when he fears misunderstanding and the obstacles of dissent? That is why the municipality ought to have a leader with Divine intellect who is respectful towards the Divine. Not to show that he is devoted to the Divine Authority, but because the condition of his soul prevents him from going beyond his duties.

The municipality ought to be within the framework of its work (this is necessary) and should not deviate outside this into areas that are not of its specialty. For this to occur, the majority of the citizens ought to be enlightened, so that they can overpower those brothers who are not correctly enlightened.

In older times, the municipality was the authority of a country. Today it has a secondary role. If you question those responsible, they will tell you that in reality, the municipality is of the second level. This is bad, very bad perception. The municipality is the one that is concerned primarily for the citizens and then the General Authority.

The mother is the first to be concerned about her children and then the father. In the State that I mentioned, the father is first to be concerned and then the mother - so that, in society, the parents exist as the directing authority which - without distractions - is concerned for all the children of its family.

### **5.3.2 Cleanliness**

One of the first duties of parents is cleanliness, not only of the body but also of the house and afterwards of the spiritual food of the children.

Why are citizens left free to poison the spiritual food of their brothers? This is where the freedom of speech has barriers. Whatever a person wants he cannot impose it on the many or influence them to the detriment of society.

You have plenty of examples from the history of your Earth. But whoever wanted to study deeply the general study of harmful works to save the family of the human race? And why is no one moving in that direction? It is because he does not want to lose his comfort and be slandered as a moraliser of the immoral side.

Cleanliness, in general, is a mirror of health. When health is strong in Man, he thinks very differently to when ill. How many of the Earth's lords, sick in body but also in spirit have ruined the straight path of human life! A sick man ought to leave the Management Authority. Afterwards, when cured, society will give him a suitable position.

### **5.3.3 Public Benefit Works**

Why does the municipality undertake these works? It is because it is its responsibility to facilitate its citizens indirectly.

Public Benefit Works are not clusters of industry or private industrial businesses. This has to be well understood by those who extol the municipality as being responsible for the citizens' problems. They forget that the municipality works for the interests of all and not for the accumulation of wealth for the exploitation by some favoured few.

Why does the privileged authority of Public Benefit Works ignore the brothers, and by its distinction protect only its favoured few ignoring the more suitable brothers? Why is the State not interested in the ones who serve it, and who have different remuneration from other brothers, as if they are not brothers, but are enemies of society? Here are the first inequalities of a State.

Such inequalities are forbidden in the Golden State, which leads the way in its type of life, so that all other people of the world can use it as an example and say, "See, where paradise is established on Earth". By saying "paradise" I do not mean the Heavenly one, because the difference in its essence is immense. However, I mean the preparation of Man for Heavenly Acquisition.

### **5.3.4 Spectacles**

Spectacles are images for the delight of the soul and the spirit. Man relaxes from daily fatigue by following spectacles as images of various facets of life.

When continually following spectacles, behaviours that corrupt the consciousness are projected and the student, that is, the spectator, rots as a fruit. Initially, if he has some judgment, he gets irritated. Then later on, by habit, he does not express an opinion and afterwards, as if on drugs, he is attracted by the decay.

Who is to blame? Man.

Nevertheless, why does the municipality not interfere?

Because it has an individual interest; and when I say individual interest, I mean personal interests.

And why does the State not speak?

It is because the municipality is the keeper of its institutions. That is, a small or larger faction of men creates situations that derail the citizens, and afterwards they attribute the blame to the citizens. Whereas it is they who should be sitting in the dock of the accused.

However, who could arrest them since they are holding the authority in their hands? This is how situations and revolutions are created; by the bad education of those responsible.

The Golden State will not tolerate such situations because the Divine Authority will enlighten the responsible management of the State. Worthy men with benevolent spirits and higher souls will take the management of the Golden State in their hands so that the rays of the new Sun will warm the hearts of men and regenerate in the spirit the hope of future life.

## **5.4 Preparatory Educational Institutions – Life Insurance – Taxes - Laws**

### **5.4.1 Preparatory Educational Institutions**

When I say preparatory educational Institutions, I do not mean the ones that operate for students today. I mean something else.

Each man chooses a line of work or a profession and occupies himself to gain his daily bread. With the passing of time, the working man discovers that he wishes to study something other than what he is currently doing. That is, a merchant of advanced age could have the idea that he may become a good doctor in society or be involved in another science for which he had an inclination, and the opportunity arises for him.

Preparatory Educational Institutions would be very beneficial for society. The ardent wish of man could materialize through them.

These Institutions would be controlled and maintained by the municipality charging a very small fee, so the courses can be accessible to all. This way, through a second education, a man takes another position in the life of society.

My brethren, when there is a will for education, Man will avoid the different gambling clubs and the aimless search for a way out beyond his confines. Learning will become enjoyable and not forced. "I want and I learn". The teacher will be equal to the student and often this student, after completing his studies, could be superior to the one who taught him. This way no citizen would complain that in his life he could never become what he wished.

These Preparatory Education Institutions will become the new lights of society. Age will not be a factor. Because the fervent wish of Man will be fulfilled, as if he was a true University student I can foresee that these graduating students will shadow many university students. These Institutions, in the Golden State, will be almost free.

#### **5.4.2 Life Insurance**

This section is one of the most important ones. Everyone will work and automatically will be insured. This area is taken care of by the State.

When the country has need of its citizens, it does not differentiate between them. Why should there be a differentiation between the insured and the non-insured? Who is going to look after the non - insured, after they gave and will give their blood for the Homeland? However, We said, in the Golden State such differentiation will not exist. All will be equal in front of the Law and in front of life. Every one will have the same rights as citizens of one virtuous and good State.

When the ethical factor has a basis, then everything goes towards the progress of the human race. Those hard in character and attitude will be expelled from public positions; they would be considered as spiritually handicapped and will be treated as such. This way the State will not isolate them but will cure them. If they show examples of good behaviour, then they will find a position under the sun again. The sun is the Authority of society that is inspired and directed from Above.

The churches will collaborate with the Authority, not as thieves and egoists but as brothers of the great circle that encompasses the citizens of a Nation.

Today, in this most wretched world of yours, there are many souls that suffer without having even their daily bread! Despite the fact that many countries prosper, they waste their wealth in unsuccessful businesses, pretending that in the future they will be fruitful. And what do they know of the future when they do not see the poverty in front of them, and they multiply their deposits without thinking about Divine Justice? Where is their spirit and the education that they received at the universities? What do they foresee when they maintain that accumulation is the basis for every prudent and wise man? If these accumulations are ruined by an earthquake, then what would they say? They would repent, because they did not give from them to those in need. And now what do they promise those in need? Work or future reward? This is how they become deceivers.

All this will be eliminated from the history of the Golden State. The elder will describe to the younger ones the disgrace of today's society as a myth of past epochs, and their children will wonder if such a world really existed - greedy people, dishonest towards their brothers. The young ones will wonder about the behaviour of their ancestors and will try with all the means available to them to become better than all through the centuries. This is what the Golden State will pursue.

### **5.4.3 Taxes**

Today, when you are subjected to tax, you are scared, because there is no Justice. In the New State, the Golden one, you will not know the word "tax", because this will be deducted from your income, without it reducing your way of life.

Everything will be arranged on a different basis - completely different from today's. The merchant will be able to have more. But the large gains will be earned by the State.

You will then ask, why should anyone toil, since the majority of the profit is deducted by the State?

My brethren, those who have the capacity to gain more than others, and the State deducts a large portion of their profits, they are rewarded ethically. They become advisors to the society and will manage its wealth for the benefit of all.

If in today's society such thoughts are not considered for the benefit of the whole, this is because of the oligarchy of wealth and wretchedness. The State has no power to compel those who buy the conscience of the citizens. In the Golden State, no one can be bought easily from the Daemon of Evil. Their consciences will be so developed so that their spirit will be rational and will agree with the soul.

#### **5.4.4 Laws**

First of all, the existing Laws need to be annulled from all the countries of your Earth and new Laws should appear. The Golden State will have at its disposal the best Laws that have not been seen by humanity until now.

Laws are not enacted according to the wish of one lawmaker or another – that is, if “lawmakers” exist today. The appropriate persons inspire a law, and the appropriate persons ought to have a white conscience and not a black one, like the crows.

A law is not a meal for everyone. It is a Divine Imposition. You ought to come into contact with the Divine to receive the law from It; otherwise you fail and drag humanity to the edge of the abyss because a bad law produces bad citizens. Moreover, the bad citizens drag down the good citizens and create agitation and impasse.

Referring to the general meaning of sin, I say that this is the breaking of the law of the ethical substance of Man. Sin is the ethical or physical pain that one brother causes another. I will not examine felony in general, but only those of your present epoch, because in the Golden State this would be considered unworthy of the entity called “Man”.

Misdemeanors and offences have their roots in your current civilisation. In the new civilisation of the Golden State these will have a different meaning. Do not forget that the measure – i.e. moderation - is the

steady rule of perception and assimilation of the Divine Logos. This measure will be the shield and arrow of our citizens.

## **5.5 Democracy - Teaching Institutions –Scientific Research – Prisons – Twisted natures – Slow perception**

### **5.5.1 Democracy**

Democracy is the ideal political system for your Earth. I refer to the pure meaning of democracy. The first State with democratic status will be the Golden State.

Until now democracy has not germinated in any country in your world. All nations have altered it. Socialism, which is an adaptation of democratic form of government is an utter failure, because it gave freedom where it should be restrained. Besides, the aim, the secret aim of socialism, is to derail the administration despite the brilliant conjectures of the leaders and citizens of socialism.

We proceed deeper into the meaning of democracy. Democracy is the only form of government that approaches the path of Truth because as men you have your imperfections that the Spiritual World takes into consideration. If you were perfect, then there would be no reason for you to be in the earthly world. You came to be fashioned as a diamond of Heaven. If the leaders are not technically capable then do not discuss democracy. You will have the name democracy but in the quality of it, you will be the worst.

The Golden State will not need what I have said. For this reason I call it the “Golden State”. It will be the pride of Heaven, as an inextinguishable lighthouse of your Earth.

### **5.5.2 Teaching Institutions**

I name today's schools “Teaching Institutions” in which you learn very little and you spend a lot of time entering as students and leaving as boors.

Education needs to be reformed from its foundations, because what you learn today does not make you human, but in the majority of cases, beasts of the jungle. If your inner world is not shaped first, do not ask for an extension of the education to the outer one.

The knowledge that a student needs from many different aspects is not what they pass on. Institutions teach the essentials. Later on the student will have time to increase his knowledge in society. Do not waste his valuable time.

Do not think that graduates from universities are better than students from high school. Practice trains them in their profession. The years that they have wasted because of poor education is of no benefit to any one. The change in this area will be fundamental.

### **5.5.3 Scientific Research**

Scientists, that is, those that would research to find what is better, will make the wrong progress if they do not have Divine direction, . They would progress towards evil whereas the Golden State will go ahead and progress for the benefit of all, because its scientists will be in contact with Divinity. That is, based on the Divine Authority they will work and feel the Divine Breath inside them. Only this way will science be able, with big steps, to reach where you cannot even imagine.

### **5.5.4 Prisons**

These are institutions that will not exist in the new Golden State!

Despite the flourishing of a nation, where there are more prisons there are more underdeveloped people and not where there is hardship because of non-fertile land.

The word “underdeveloped” is used wrongly today. It is possible for the richest man of your world to be the most underdeveloped of all men. Words like these, will be eliminated from the Golden State because wherever there is True Light, it is impossible for the harmful and destructive insects of humanity to enter.

### **5.5.5 Twisted natures**

I am talking of those men that will hold public positions in the Golden State. We said that such men will exist under these conditions, but they will be very few, because they would be expelled from their positions and will undergo medical intervention of the spinal marrow by special therapeutic rays so that after their therapy they will be back in the bosom of their mother who looks affectionately even after her retarded children.

### **5.5.6 Slow perception**

This will be cured by a special electric-ray machine in order to strengthen cells like the brain cells by replacing the lost ones. That is how science works for the benefit of Man and not for his destruction.

Bear in mind that in the Golden State Love will be undivided towards all living nature, animals and plants. Man's love towards them cultivates psychic nobility in the entity.

## **5.6 Epilogue – Golden State**

As you know salt, in small quantities improves the taste of everyday food. Its excessive use is harmful to your organism. The same thing occurs with love. Express it sparingly because its squandering in life will give the opposite result to what you expect.

You squander love from egocentric satisfaction. Not so much for a good act, but urged by your egoistic motivation. You satisfy a moment of your weakness without positive purpose, unconsciously harming the whole. The measure of love should become the regulator of your life.

In church one learns what one does not know. He believes without hesitation and prays, making contact with the Divine and not to hear and not to understand what is his purpose and his obligations in the earthly life.

The Golden State does not need this simple talk of mine. It will be one side of the eternal Eden. The other side, the entities will see and will admire in Heaven.

The Golden State will be the vanguard towards the true knowledge. There, the citizens will not deviate as happens today in the nations of the Earth, that is, the ones that are badly enlightened. This Pharos (*Lighthouse*) of words and action will be a brilliant proof of what Man can do, when he comes in contact with the Divine and receives from It directions and sufficient knowledge.

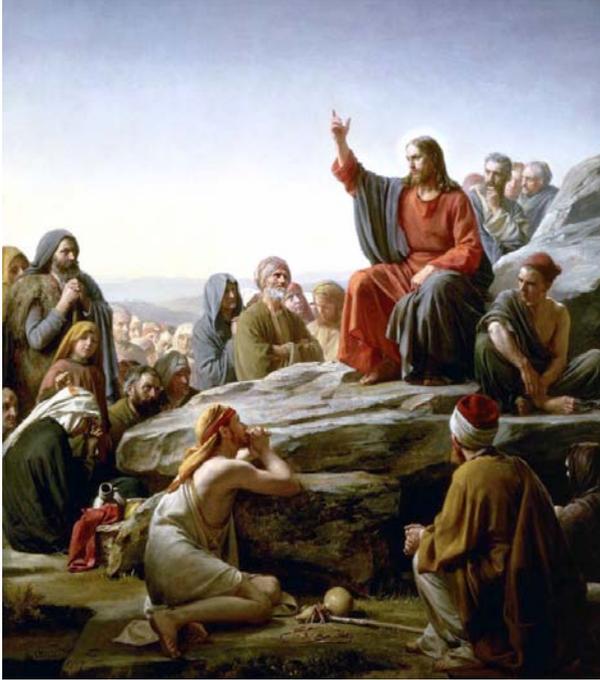

I will not talk about the miracles of science in the Golden State. Precisely these and many others will attract the attention of people even from the more remote places and they will compete with the Golden State so that the Divine Providence can come to light and be understood from the enlightened and great new orators of your world.

The rays of the Sun that is called "Golden State", you hold in your hands. That is why We keep repeating that you have in your stores the treasure of Heavenly Logos. That is why We insist that everyone learns the purpose for the influence of the Spiritual World on Earth: The Golden State.

*Our Father in Heaven,  
Hallowed be Your Name,  
Your Kingdom come,  
Your Will be done  
as in Heaven and on earth.  
Give us this day our daily bread \*.  
And forgive us our debts,  
as we forgive our debtors.  
And do not lead us into temptation,  
But deliver us from the Cunning one.  
Amen.*

\*

- The Greek word “επιουσιον” is commonly translated as “daily bread”; but strictly translated it is: “super substantial”; “super essence”; “essence from above”.
- Editors Comment: since the prayer denotes spiritual ideas why refer to earthly matters in this line?

The Sermon on the Mount by Carl Heinrich Bloch

The Lord's Prayer as given in Greek:

Πάτερ ἡμῶν ὁ ἐν τοῖς οὐρανοῖς·  
ἀγιασθήτω τὸ ὄνομά σου·  
ἐλθέτω ἡ βασιλεία σου·  
**γενηθήτω τὸ θέλημά σου, ὡς ἐν οὐρανῷ, καὶ ἐπὶ τῆς γῆς·**  
τὸν ἄρτον ἡμῶν τὸν ἐπιούσιον δὸς ἡμῖν σήμερον·  
καὶ ἄφες ἡμῖν τὰ ὀφειλήματα ἡμῶν, ὡς καὶ ἡμεῖς ἀφίεμεν τοῖς ὀφειλέταις  
ἡμῶν·  
καὶ μὴ εἰσενέγκῃς ἡμᾶς εἰς πειρασμόν, ἀλλὰ ρύσαι ἡμᾶς ἀπὸ τοῦ  
πονηροῦ.  
ἀμήν.

## 5.7 The White State

{Plato}

[5-60]

The White State is called the State that has none similar. Colourings have meanings unknown to Man.

The best State in the world of mortals is the State that has not yet appeared. Plutarch speaks about it. It is the “**Golden State**”.

My State is white like the Light of Truth and it is the State of super mundane Love and Knowledge without end. In the White State the Powers of Good exist and function. Some are taught, others inform the citizens about what is going to happen in the world that they have abandoned. Every citizen in the White State step by step ascends the educational classes. These educational classes are called “Grades of the Entity”. When they complete the preliminary Heavenly lessons they enter Secondary school. By saying Secondary I mean that they no longer occupy themselves with the differentiations and comparisons of Man’s faults or charismas, but occupy themselves with the high meanings the essence of which Man is unable to perceive.

The first Station, Alpha, - Earth, the material Station - is the kindergarten; the second, Beta (B) - a soul Station - is the second class. Kindergarten and the first class are the same.

Until the sixth (6<sup>th</sup>) Station inclusive, is Primary school. The souls of the sixth Station are made members of the Heavenly Kingdom and attend Parliament and the talks of Great Leaders or Teachers. From the seventh (7<sup>th</sup>) Station, Secondary school starts and continues until the penultimate Station ( $\Psi$  - psi). Secondary school classes are of short (time) duration. A graduate from Secondary school or the penultimate Station, through his soul strength or through his diligence, enters the Station of Repose ( $\Omega$  - omega).

All who have the innate progress of knowledge and who balance it with their soul strength enter University.

What is the University?

It is managerial work for the higher souls. Here, University is very different from the earthly one, because the knowledge is knowledge of Divine Truth and as one progresses, the more one has to learn. Whoever excels in science becomes Strength of the Lord in His Palace.

There are no personal interests in the White State. Therefore, the excellent souls systematically progress to reach the high levels that Management demands, so that they can be enlisted into the order of the Power whose aim is to subdue the Power of Darkness.

In the White State the Brotherhood is unprecedented. Each one is so interested in the other that they form a body with the Lord as Head.

Each Leader has a special branch of teaching. One never enters the jurisdiction of another. Each respects and values these, as if they were his own. This accord between the Leaders or Great Teachers is so strong that it forms the extraordinary Power that enters into the affairs of humanity. This is done after a detailed examination that they receive from the various Councils. Each one of them has special experience and knowledge. Therefore, everything in this State is arranged in such a way so that no one can make a mistake, not even an insignificant one.

Sometimes Man is happy and other times he is sad. Here there is no sorrow, only happiness. For Man, continuous happiness loses its initial brilliance and very slowly it diminishes, but here happiness is always renewed so that its brilliance does not diminish. For this, this Kingdom is called "The White State".

As we said, this State has inhabitants who have been purified. None of its citizens wish to return to Earth and thus every citizen ascends the steps until he reaches, through his soul strength, the Station of Repose. From there, it is not possible - even if he wishes - to return to Earth, starting from Alpha. But before these souls reach the Station of Repose, they can return to Earth if they wish, to acquire higher learning. In this case, the same thing happens as with men who wish to show their bravery. Man requires courage to act bravely. Similarly, a soul requires strength to decide to return and supplement its gaps (on Earth). Because the soul knows from before the whole journey that it will undertake by returning to the material world, and it knows what is awaiting it in the predetermined life, it may prefer then the Station of

Repose. But despite not liking the path of early life and wishing its soul's ascent, then it acquires strength to endure everything. This is equivalent to Man's bravery at various circumstances of his life (on Earth). But if the soul sees that its path on Earth will be pleasant and knows that through its spirit it would repel all temptation, for its further ascent, it happily makes the decision to return.

The soul knows its strength. It has had some benefit from the Heavenly Teachings and thus you see rich men being benevolent towards their fellow men, because their soul strength is superb and the Enlightenment from Our Kingdom educates their spirit.

The White State has a Leader and an attendant. In other words, a King and His advisor i.e. His private advisor. As you have a Minister for Foreign Affairs, thus We have here Lord Pharah who manages all the thorny issues. We do not have a Minister for Interior because the White State is faultless in its existence. But We do have Teachers who are separated into three classes: (i) The Governors who cohabit with the Lord, (ii) the Ministers who are in the Council of Spiritual Brilliance, and (iii) the others who I can compare with members of parliament but who have greater authority. In their Councils they make decisions about every single soul. Councils, for you, means parliaments that have lesser authority than that of the Lord. There are thirteen (13) such Councils apart from the Council of Brilliance (or Splendour). In each Council there are ten (10) Leaders and many adjuncts and assistants. All ascend the steps gradually so that they can eventually reach the Council of Spiritual Brilliance. From there, they again ascend by following the path that leads them to the Palace of the Lord.

All the citizens of the White State, irrespective of which religion they followed on Earth and what their doctrine was, have here as a religion the Spiritual World and they have as a Church the Parliament (Will) of the Lord.

I will now refer to the Angels.

They are of many categories. They are, in comparison, similar to policemen on Earth. Some have great authority and others less, with the difference being that the Heavenly "policemen" do not pursue what the earthly ones pursue. One does not fully trust the earthly policemen, whereas the Angels guard you from evil.

The citizens of The White State do not need supervision. An Angel, commonly known as the “Guardian” does not have wings as depicted. However, his speed is such that, in icons (representations) speed is depicted by wings. The soul has immense speed, but that of the Angel cannot be imagined.

Leaders of the Spiritual World seldom become Guardian Angels of specific entities.

A Guardian Angel may have under his protection one human entity or many.

Those who are under the protection of a Guardian Angel, as I have mentioned, are invisibly linked with this Angel by an invisible cord that is called “the danger cord”.

If there are two or more human entities linked with the same Angel and are in danger at the same instant, then the Angel rushes to one and saves him and then speedily moves towards the other. But if the other, due to an infinitesimal delay, was hit by The Spirit of Evil and his soul has exited from his body, without this being written in the cycle of traverse of his life, the Guardian Angel then captures the soul and returns it to the same body. This is because its destiny was to live longer.

There are Angels in the service as messengers. Angels in *combating* Divisions constituting a power of immense spiritual strength. Angels of musical vibrations that produce pleasant sounds, harmonious to the Universe. Angels, special to the Lord, that participate in everything that He directs, and there are many others as well.

Many of the Angels were once on Earth as good and pious entities. There are other Angels that have never visited Earth and have remained faithful to Anarhon.

The Angel classifications belong to another Leader, who will describe them to you.

The White State is one State, with many differentiating signs. This does not mean that all do not meet together.

Work here is intense, because the spirit is cultivated so it can enter the Mysteries of the Lord.

When souls from one Station wish to meet other souls from another Station, they are able to do so with permission. The higher souls descend to the weaker ones.

All the works of the State are carried out through the Word and the Word is a Ray of Light. It enters everywhere and acts in a way that Man is unable to grasp.

As when a conscientious teacher, together with his students decide to go for an excursion to the countryside and the teacher gathers his students and talks to them with the aim of educating them internally, so in our State the Teachers, together with their students depart for a Station in the vicinity. This could be a Star, and the teaching takes place there.

The students learn ever more about the mysteries of earthly nature as well as human nature. Often a student, who wishes to delve deeper, will ask questions and the Teacher will reply giving him clear knowledge of his ignorance.

In other lessons they learn the numbers and their strength, because a large portion of miracles are based on numbers. Each number has its own strength and a combination of numbers, that is, the manner of their rules together with their meanings, form the strength of spiritual broadening for contemplations, which by numbers, that is, by a special force, we send to many mortals so they can discover what has not so far been discovered. But unfortunately for men, today there are very few of those who recognise that the Heavenly Light has enlightened them so they can find glory, honour etc.

Progress does not rely on Man's intense effort, but primarily on his enlightenment. First he is enlightened and afterwards he functions as a worker of science. All these, the souls follow at the advanced classes and with great willingness, they then perceive step by step the relationship between the Spiritual Powers of Heaven on the spiritual strength of earthly entities.

As on Earth after a long journey travellers are thirsty or hungry, so here their thirst is the acquisition of purer knowledge and their hunger the acquisition of more strength, so they can more easily ascend the ladder of their elevation.

The Great Leaders, advised by the special Stars of the Lord, develop amongst themselves. The lower rank Leaders, even though they have sufficient illumination, always need the lectures of the Great Leaders. The lowest ranking citizens are taught according to a hierarchical order. But there are many who, while on the earthly world were considered to be great spirits – and this has cultivated some sort of egoism as lights of the spirit – are taught by their subordinates, because, without being malicious, they boasted that they knew everything.

With humans, a State's management needs its citizens because it is from them that it derives the material benefits and power for authority to force those citizens to carry out their duties towards achieving the aim that the management imposes on them. In Heaven the opposite occurs. From the Palace of the Lord the pure water of knowledge descends to the citizens to give all the Lord's goods for their reinforcement. Therefore, the Highest Authority does not draw strength from its citizens. On the contrary it gives them power according to their soul strength.

By acquiring the strength of pure knowledge the citizens are taught more easily. But what happens to Our citizens when they are taught about the Mysteries is that their understanding is immediate. However, what slows them down (depending on their soul-strength) is the assimilation of what they hear. On the contrary men assimilate immediately with their environment but they are slow in comprehending it.

One of the Teachings that is essential for the citizens of the White State is the understanding of numbers.

For men, the number 0 (zero) means “nothing”. The number 1 (one) is the unit of measure and 2 (two) means the doubling of unity etc.

## In the Spiritual World:

0 (zero)	equals	Nonexistence.
1	equals	Unalterable Authority, Eternal, Unbending towards its Laws.
2	equals	Opposition.
3	equals	Cooperation.
4	equals	Circle of Enlightenment.
5	equals	Source of Pure Light.
6	equals	Balance of Forces
7	equals	Creation and Destruction.
8	equals	Hierarchical Operation of the Spiritual World.
9	equals	Fertility.

These numbers, in various combinations give different results. The combinations are unending. A small example is the number 3497 which means: Governance with the Spiritual World for fertility by The Creation through destruction.

As I said, the numbers are essential in the teaching of Heavenly students.

The number 0 (zero) does not have the meaning of a circle but has the meaning of absolute tranquillity in the perpetuity of non-existence, except for the One and unchanging Entity. From chaotic Infinity, the One, by Its creative Word, from nothingness, created everything. Therefore the 0 (zero) was a created Infinity in the Infinity. Thus Infinity is marked by a connected series of two 0 (zeros), that is  $\infty$ .

1 (One) is the basic Authority and 0 (zero) is the created Infinity. Authority and Creation form the number 10 (ten).

10 (ten) is the partial Authority of the Creative Word. Such Authorities consist of 10 (ten) Lords in each of the 13 (thirteen) Councils of Heaven. Symbolically, in its general meaning 10 (ten) means Specialist Authority.

The Council of Spiritual Brilliance (or Splendour) is the Centre capable of receiving and transmitting from all Councils, that is, it is the mechanism of the Creative Word's energy. You can

observe this from the number fourteen (14). This Council is the Command Centre.

11 (eleven) equals inactivity, irrespective if the numbers separated are the favoured, 5 and 6. The source of Pure Light (number 5) does not operate on the Balance (6). Both numbers simultaneously affect the human entity to prevent something harmful occurring.

12 (twelve) equals perfection, balance: 6 plus 6.

13 (thirteen) equals the grouping of the Governing Authority: 10 plus 3.

This is the first lesson on numbers.

As men go by boat to fish, similarly We traverse the ether going into a specific place and from this place we try to fish the souls of men. On Earth the fisherman catches fish for his sustenance or for his pleasure. We fish by enlightening an entity. This entity then dreams and sees an acquaintance or a relative who dissuades him from doing something wrong or harmful to his entity. That is, We save by fishing, whereas men do so from self-interest.

As on Earth, many of you dream about an exotic island for your vacations. Similarly here, many of Our citizens dream about the Station of Repose. The difference being that for men the exotic island is for a short duration of time whereas the Station of Repose is Eternal, infinitely more beautiful and more attractive than the most beautiful physical beauties of Earth. Those men who want to travel to an exotic place think about the expense and how they are going to acquire the means for distant travel. Similarly, here they think of how they can ascend psychically to reach the so desired port of delight and eternal happiness and satisfaction. Of course those who have not yet acquired the necessary resources, hope. But We, being free, are able to visit this peaceful region of Heaven. That is why I am in a position to describe it to you.

There, the Lord of the region, will receive you as a Lord Mayor receives a dignitary from your Earth. The citizens of the Station of Repose are included in the Great State of the Lord.

We start Our journey in groups of two, three or more to enjoy this excellent place of Creation. It is phantasmagorical with an ideal climate for the soul. It gives such soul strength to the soul that Love is completed and the completion of Love is True Light, which is equivalent to Heavenly Knowledge.

I will describe to you My vacation to the Station of Repose.

When I visited the Station of Repose for the first time, the Lord of this Station came to meet Me and escorted Me further into the fantastic place of the reposing entities. Speaking the language of Truth, I ought to tell you that in this Station, which you have named Paradise, from the Old Testament, you imagine that it is planted with trees and other plants - in reality nothing like this exists. It is ether, but what ether; it is revitalizing.

As a beautiful and pleasant location on your Earth relaxes you and invigorates your morale, so here, to an indescribable degree, you have the feeling of beauty, and a pleasant and satisfying landscape. In this Station only entities of Quality A (Alpha) exist (this is translated on Earth as males) because entities of Quality B (Beta) (females) belong in the special place of Station Γ (Gamma). This difference, the why, and how etc will be elaborated by other Brothers of the Heavenly Authority.

When the traveller reaches a country unknown to him, which is civilised, amongst the many spectacles that he is going to see in this country are the museums. Here We do not have such buildings but We have similar ideas that occupy the place of buildings. And the newly arrived soul asks his guide: "Where is the Tree of Knowledge?" And the guide replies: "This myth is mentioned in the earthly Bible".

The images in the Bible were given to the people of that distant epoch to make a stronger impression on those lacking in knowledge. And, continues the guide:

"the apple does not exist in a specific place; it symbolises the knowledge of Good and Evil in equal strength. But the spirit of the second quality (Beta) entity, from curiosity and disobedience, made the big mistake of investigating if the Powers of Good and Evil were truly equal, and this way the spirit of the second quality entity managed through persuasion to convince the spirit of the first

quality (Alpha) entity to act with it to find the Truth, even though this was forbidden by Anarhon. When I say the spirit I mean the spirits that is the souls.

Why, you wonder, were the first souls not allowed to search for the Truth for which today so much effort is made by you to learn about, that which only We represent? At that time when Earth was not inhabited (because it was during the first stage of its creation), Truth was the Mystery that concealed the Creator, and it was as though each researcher wanted to compare himself with Anarhon, when the souls were most deficient in knowledge both spiritually and ethically.

The Lord, of course, would have given the appropriate Enlightenment but this had to be given during the souls' earthly existence, that is, they had to labour, to suffer, and to experiment in order to acquire the freedom to enter the sanctuary of Truth's Den. Disobedience was one reason why the Lord has given the souls the motive to acquire the Light of Hope in the new Kingdom of Heaven".

After this explanation, the guide spoke about the wonderful Words of the Station of Repose. There, the souls enjoy all knowledge and very seldom go to another Star from where they are able to follow the movement of the Universal World. This Star is the centre of all the mechanisms of attraction and repulsion; there, on-site, the Law of Movement is studied upon which the whole universe is based.

The citizens of this Station (Paradise) are the happiest because they have the opportunity to enrich their knowledge and enjoy the music of Angels. I will not expand further on this Miracle of Creation. Depending on the level of the students, We go to other Stars to follow all that would seem strange and unbelievable to mortals.

The Lords are able to visit the bright Star of the High Priest of Heaven, the Great and Eminent, in Energy and Knowledge, John Chrysostom when it is necessary. They are also able to reach the Palace of the Lord but they do not enter, because the Law of Heaven forbids all except the inhabitants from entering. We arrive there many times to receive the Lord and together We go to the Holy House of the Lord which is the Parliament. From the Holy House of the Lord the whole Kingdom learns everything that it ought to know.

On Earth you need to have connections to approach a lord (who, in the Spiritual World could be useless). Here, you acquire connections by yourself, as long as you want to.

Depending on the level of the citizens of the Spiritual World, We are able to visit the various Saints who form a special branch in Heaven and who have positions according to their standing. Many of the Saints who were considered great (on Earth) have a low position and others who were considered lowly have higher positions. Here the positions that they had on Earth are not taken into consideration, because Man is never just in the granting of positions. The Saints do not get involved in the State's affairs; similarly, your Holy Authority on Earth should not get involved in the affairs of the State.

The Management of the Saints is the Religious Authority, but they also receive orders from the Management of the Spiritual Kingdom. In this case, the souls are forced to be in disguise, that is, to wear mysterious garments and visit Earth, visible both in dreams as well as in an awakened state. These missions are called "inspection missions".

The Religious Authority represents the ethical hypostasis of the soul because, if in your world there was no religion, then ethics would not exist. Religion is what enlivens ethics in Man. Through ethics, Man walks the correct path and controls his passions, if he cannot totally eliminate them.

Everyone knows the Laws here and no one breaks the law except for the very few who descend to the depths of Erevos. Their soul will remain there. It expands in order for the spirit to receive a teaching because a Teacher is not obliged to descend the depths of Erevos to teach. The soul ascends into special chambers for the punished. It is blind, it cannot see, and after the end of the lesson it returns, because as I said, through its contractions, it finds itself in its specified place.

The Laws have many provisions that have been enacted with the absolute Justice of the Lawmaker. There are also pardons. These depend on the willingness and work of the souls. In every case, the Laws aim to benefit the soul and not to condemn it in all eternity. A punished soul is able, after examination, to return to your Earth to totally

absolve itself and obtain a high position, whereas another soul may not evolve for infinite centuries.

You believe incorrectly that the Spirit of Evil resides in the depths of the Earth. The Spirit of Evil resides on Earth. The down does not exist but we say “down” and “up” so there is a distinction. And so, Evil wanders in denser atmospheres whereas Good is in lighter atmospheres.

So you can understand me better:

In the State of Heavenly Life there are no sight-attractions that I can describe, but there is something else that does not exist on your Earth and that is the Pure Knowledge, the unending progress of Knowledge and its Mysteries. Here, the whole movement takes place around education and because the citizens are souls, we say that this education is psychical (for the soul) and not spiritual as you commonly say.

In the perishable Earth there are an infinite number of spies. Of course, all of them do not work for the benefit of humanity. The spy, cares first for his material rise and secondly, serves whoever supports him.

A spy means a bad nature for exploitation. Such spies have existed since ancient times. Contrary to the spies, We send Apostles. The difference is as much as between black and white. For centuries Heaven has not sent Apostles to your Earth. Many have the title of Apostles or saints without there being any trace of them. However, Heaven that takes care of everything has already detached some entities from its Stations and has sent them to Earth. They will receive the messages from Heaven and will be concerned with these as the Heavenly Spiritual Authority dictates. Also, since long time ago, We have sent armies that are now becoming men, in order to enlighten the perishable World. These armies are Apostles from Heaven. The Apostles do not spy but teach Love towards their neighbour and Peace for all men, so that all men can see in Peace, the Face of God. God, as one of the Great Lords said is Faceless and all Love, Benevolence and Peace. Therefore when Peace prevails we are able to see His Face in it. God takes care of the good of all His children. When brotherhood is real, and you act on the basis of His Laws, you see Him, if you want to.

In Our State the entities have the freedom of Justice. On Earth your entities have the freedom of speech and speech many times results in

the punishment of the entity through imprisonment. In Our State the entities are punished for sins committed on Earth.

In Our State no citizen carries out an act that would displease his brother. On Earth the authorities punish you. Here, you are punished by your subconscious. How does this happen? This is how: Your judge is Divinity that is inside the small inner chamber of your conscience. No one forces the entity to self-punish if the entity itself does not recognise its fault and submit to the corresponding degree of punishment. If it does not accept this, then the entity does not enter into Our State. It wanders until it collapses.

Everything here follows a specified rhythm because everything depends directly on the influence of Divine Law.

On the contrary on your Earth everything depends on other rules and imperfect laws as we will see further on.

The Centre of Enlightenment for your Earth is the Council of Spiritual Brilliance (Splendour). This is also called the “Centre of Spiritual Sun”. From here the secondary leaders and their assistants send their spiritual rays to specific people. From here also, the Leaders are connected with Their Centre on Earth.

The Heavenly Enlightenment develops human languages so that new words enrich their vocabulary, without the existence of a correlation with the unreachable and unending richness of the Heavenly language, which operates by radiating meanings.

With the passage of time many words have lost their meaning and this is due to the spiritual decline of Man. There are many such examples. In Heaven the spirit develops through pure knowledge. On Earth the opposite occurs. Progress means the decline of the spirit.

Here, through their holy duties, the Sacred and the Saints act for the salvation of Man. On the contrary, on Earth the lawmakers and the lawyers complicate situations. But when they come here they will not hold enviable positions. This is because whilst on Earth, evil inspired them and they established laws and without having the right they also established punishment when they defended injustice in the name of Justice. Many of them twist the meaning of words. However when they

appear at the Gates of Heaven then they will see everything with their inner eye and will recognise their miscarriage of justice, submitting to their just, spiritual humiliation. On Earth they cultivate the spirit of their egoism and for this reason very few of them undergo development in Heaven. Most of them wander, if they are not in punishment.

The lawmaker, Lycurgus, had no authority to remove the life of sick children in his epoch. This action was sufficient for him to be punished. Many of those sick children had a bright destiny.

You perceive Justice according to the strength of your soul, so all of you are unable to express an opinion on a simple subject. Historically and currently you have a twisted meaning of Justice.

Solomon's justice, on one hand was correct in the case of the two opposing women but on the other hand was wrong regarding the judgement of the judge. When Solomon ruled upon the dissection of the child, if neither women had decided to claim the child, then what would this wise man of his epoch have done? To which of the two mothers would he have given Justice? On the other hand if the true mother in her confusion did not relinquish her claim, who then would be blamed for the dissection of the child? Therefore Solomon was not dispensing Divine Justice but was applying human tricks.

You admire the Macedonian Alexander for solving the Gordian knot. The oracle saved the situation through fame. This was not a solution but an episode for superstitious people.

The word "non existence" has no meaning for Man. It belongs to the Mysteries of Heaven and means the period before the psycho-spiritual creation, which you can call the "timeless period".

We spoke about the entities in Our State and we compared them with the earthly entities of humanity. Animals are also entities.

Whilst the wild ones on Earth are not approachable because of their instinct, here, when they develop, of course, they are the weakest entities of Our Kingdom. They are the ornaments of Our State. There is no need for them to attack anyone; their brightness is of small intensity. When a psycho-spiritual entity appears on their path then depending on the intensity of light that the higher entities radiate, they

depart. It is a beautiful spectacle to see the different animals of the animal kingdom in their spiritual life. They shine in the expanse of the vast State with soft and diverse radiating colours.

“What is their use here?” you will say. In this case, what is also the use of Man in the White State of the Lord? Man has a destination of ascension from Divinity. Similarly, the animals have a different destination for the elevation of their quality.

Your nature has other living entities that are immovable, such as the Kingdom of the Plants. The plants develop, as well as the animals develop. The first plants of Creation are not the same as the ones you have now. There is an immense difference between the two when comparing the different periods of the simple and the developed. Here the plants have a bright shade. It is sufficient for a leading psychospiritual entity to be able to see the reflection of Earth in Heaven. Often the birds take part in Heavenly festivities. Those of them that can sing give the pulse of sound through pulsating radiation. All living entities understand the simple meaning of the language of Heaven. If they want something from their friends who are on Earth, they obtain special permission and present themselves to the Lord, Whose reflection at that instance is a radiation of attraction.

As on Earth which is adorned by many animals, so here there is an infinite number of animals of spiritual appearance. Here there are animals that no longer exist on your Earth, for example the flying horse and the “pyrokroustis” (an animal of the creation period which when it opened its mouth it projected a liquid that caused burning). There are many others that Man was unable to examine or even to imagine.

We depart for the Infinity. This departure is made from Earth.

There are many souls for departure. Many Guardian Angels appear to receive them, awaiting their last breath. All souls that are due to depart are in categories, but We will give the signal for departure.

The souls that are linked with matter remain above their body and they are sorry because they leave the earthly life without, of course, knowing the Heavenly one, which is not pleasant to all because not everyone has the qualifications. My dear friends, when you are appointed to a labour centre without having the necessary skills, what is your place there? This is the same with the soul.

The souls float for a certain number of days and afterwards ascend to the Gates of Heaven to give account. The ascent is made slowly so that the soul can get used to the change of being separated from matter. It is a dreadful spectacle when the soul feels the separation and looks at the discarded body awaiting burial.

However, when the souls, through their purity, their good acts and piety towards Divinity and love towards Man depart Earth, their spirit remains for only three days in the material world, whereas the soul expands ascending to Heaven and it is placed in the appropriate place without losing the link with its spirit.

The souls that belong to higher Stations, ascend to higher Heavenly levels.

All travel together towards Infinity but We will accompany the souls of the higher Stations. The Lords who will familiarise them with the Mystery called "Immortality" receive them at the entrance of Our Kingdom. The souls change Guardian Angel and according to the soul's position one the Great Orators or Leaders takes on the duty of guide. As I said all this happens in Infinity. The soul is orientated and then the Heavenly Teaching commences. This is the Preliminary enlightenment for guidance.

After forty (40) days there is no link between the soul and Earth. All the souls are organised, some on one scale and others in another etc. Depending on the strength of the soul they come into contact directly or indirectly with brotherly souls of Earthly relatives, exchanging ideas and the stronger soul gives advice or encouragement to the others. This is how We travel from Earth to Infinity that has no distances for the souls but the distances are incomprehensible to men. Travel to Infinity does not mean from Earth to the Moon or to another star nearby. Such distances are so small, that they are not considered as distances of the Infinity.
