## **Preamble**

*There are in excess of 2,500 texts transmitted over the period 1961- 1979 through George Pisanis the medium of the Spiritualist Society of Athens "The Divine Light" – Greece ([www.divinelight.org.gr](http://www.divinelight.org.gr)). As translator and editor of this anthology I have selected some of the texts transmitted mainly by the psycho-spiritual entity that in his last incarnation on Earth was known as Confucius.*

*There are seven spiritual entities that co habit with Lord Jesus Christ in His Palace, amongst them is Confucius. The other six are: Lord Pharah, John the Baptist, St George, Hippocrates, Socrates and Homer. **They are known collectively as the Stars of the Lord.***

*Over the years through the unique and blessed communication path protected by Lord Pharah who was also the spiritual guardian of the medium, the Stars of the Lord as well as other spiritual entities transmitted a number of texts. All the texts complement each other and never contradict each other even though they were delivered by different psycho-spiritual entities at different times over a period of approximately twenty years.*

*The topics presented in this book give a broad understanding of the Spiritual World and in some instances give specific directions for us to follow if we wish to ascend to higher echelons. Some of you may wonder how Confucius provided teachings in Greek. The answer is that all high spirits can communicate in any human language with the medium – language is not a barrier. **The communication is given as irradiation to the subconscious, which transfers it to the spirit and becomes language in the brain.** The spirits do not belong to any one specific country but only to the World of Spiritual life as defenders of Truth, Justice and Love towards the creations of the Lord and Creator of everything.*

*I encourage you to read, discuss with others, to research and apply what you have read in this book.*

*I advise you to read first the texts previously published by the Divine Pharos website. They can be downloaded free from [www.divinepharos.org](http://www.divinepharos.org).*

*May God be with you.*

# 1. The entity of Confucius

[Confucius]

[Book 3: pp 155-156] and [Book 6: pp 36-37]

My dear brethren, every Leader in the Palace of the Lord with a few words gives reports about his existence, to clarify his Entity as a member of Divinity.

I existed many centuries before the coming of the Lord who came as the Saviour of the World. We did not have Heavenly Light in my period in spite of the education of a few. Even so, with earthly knowledge I managed to find where pain, sadness and the evil enlightenment of Man exist. My relative wealth enabled me to acquire the means to distribute my wealth and transmit my powers to my fellow men, based on the phrase 'Love your neighbour'.

My value as a researcher of the human abyss, gave me the primacy of Super Knowledge, to enlighten those underdeveloped and who have been badly enlightened by the personal actions they took to acquire earthly goods. As my popularity was increasing my enemies or rather the enemies of virtue were combating my knowledge.

I had appeared on Earth before. I have kept the name of my last incarnation. In my previous incarnation I was Indian. However the period then was dark and despite all my efforts I was unable to establish the deification of Love within the meaning of purity. My light has left the few who transmitted my knowledge to the nations of that previous era.

**No matter how great one is in Heaven when he incarnates he does not remember anything from the Heavenly life because he goes through Kerveros, the Barrier of Forgetfulness.** [1] He may be able to remember a previous life on Earth but not the position he recently left in Heaven. This is the great Mystery. Here in Heaven an entity remembers all its previous incarnations however this secret [2] does not leave Heaven. [3]

Today if We give you explanations and clarifications on many matters concerning our Kingdom it is because the Almighty has given His permission to do so, because Man's spirit is in a position to perceive the Truth, if he has good relations with the Truth. We have not been permitted to explain any of the Mysteries in the Old Testament.

Today We do this with greater ease to awaken you from the deep sleep of your dark existence. The Light of Heaven descends freely upon the human race. I say 'freely' because now there is a wider understanding in men of the real search.

Search the new Scriptures so you can be convinced of the accuracy of all that We are saying. May God be your helper.

## 2. What is the Spiritual World

[Confucius]

[Book 3: pp 255:256]

Many men have not understood the Spiritual World even though they attend spiritual centres. These men are the disbelieving Thomases. Avoid them and do not be interested in their faith – they will be forced to believe having become wrecks. [1]

First, your brothers in your world need to be advised of what is the Spiritual World. It is neither a theatre nor the oracle of Delphi. It is the Supreme Authority of the souls, with leader the Lord, His advisors, the Stars, and the Executive Leaders of sections.

The transmission of talks by The Spiritual World takes place directly from the Palace of the Lord or indirectly from the Center of Spiritual Splendour [2], where the Supreme Leader is Divine Plato. There are many means of communication but they are unreliable, because whilst you follow the speech of one Leader, it is possible for the Evil Spirit to continue the same speech with a different purpose – because the apparatus is such. [3]

When spiritualists possess the necessary abilities from the texts they can differentiate the correct from the incorrect. But often Man's spirit is unable to differentiate between the qualities of speech and if he does not examine them then he commits a great error. This is why for a long time We have insisted that this path audits everything, because it is unique of its type. It was created by the Lord and blessed by Anarhon. **Those who have sacred Faith will accept this Truth; but those who are attracted by the Evil Spirit should distance themselves from our texts, because the texts will become the reason for their demise. Let these men examine this truth.** Unfortunately, when they accept it, it will be too late for them, because they will suffer the just punishment of the Spiritual World.

The Spiritual World punishes the thorns of societies to save the flowers of humanity that with their perfume will revitalize everyone so that through their third eye they will see the Light of Truth and what their soul has gained.

Many men are not only satisfied by not believing but they carry away with them other naïve men to the precipice. In this case, their sin in the Spiritual World is doubled and in vain will they ask for help from Divinity. For these men Divinity does not have ears, since they have not heard the Heavenly voice or they have ignored it out of materialism and a lack of faith.

In time I will teach an honorary member of your brotherhood who is presently here, the method by which to eliminate falsehood. This method is part of the ammunition of Love, and only by this method can I eliminate the falsehood of the rulers in the far away country of my territory on Earth. I was tardy but I acted appropriately, so I could destroy the god of falsehood and hypocrisy forever.

When a leader of a country does not know the benefits of Love, his spirit materializes the Good at the expense of Good itself. We say: "the wicked snake provokes compassion so it can destroy its benefactor" – this is an old Chinese proverb.

My brother and your brother will be astonished by the wisdom of Heaven, when he walks towards it and perceives that the wisdom of the whole world is nothing more than a bubble. Only one wise man existed in your world: Socrates. [4] The rest taught both truth and falsehood. Falsehood because of their ignorance. This is why the wisest of all men recognised that he knew one thing: "That which he doesn't know!".

### 3. Heaven's problem

{Confucius}

[Book 18: pp 170-171]

The biggest problem for spiritual humanity is the problem [1] of Heaven. No matter how much faith Man has in the Spiritual World, there is inside him a small doubt, that is, is all that Heaven dictates correct or not.

For those who are initiated in the Spiritual World, that is, those who know many details of the immortality of the soul, it is good to cultivate their faith as a seed of their intellect and through systematic fasting (avoiding animal food) to reach the point of anticipating and seeing visions of Heavenly life that is everlasting and incomprehensible to many.

Why you may ask does the Lord not facilitate Man to be totally convinced that future life exists? What is hindering Him to open man's eyes even more concerning the certainty that Heaven does not have earthly problems to solve, but everything is arranged by the Divine foresight of the Creator?

My brothers, if more light was given on this point, which is obscure for you, then it would not be necessary for so much and continuous teaching to be given by Us, because Man would not have psycho-spiritual development and would remain stationary and the work of the Creator regarding the inner and free progress of His creation would be half completed.

We give you images of Heaven with earthly colouring to enable you to follow the development of the entities and the distinguishing each time of the returning qualities from Earth [2]. Thus you have some idea about our Kingdom but not in total.

When a newborn child appears on Earth, it does not have a perception of its new surrounding world. The same occurs to the entity that departs Earth and appears in Heaven, it has no perception of its surrounding world. Because in Heaven there is no time or space, the soul quickly acquires its vision and perceives everything, but is unable to transmit this to the earthly world until it first acquires awareness of the Heavenly work. Of course, there is a link between Heaven and Earth. But it is not sufficient for Man to be convinced of the true image of Heavenly life.

It is absolutely necessary for you mortals, that the problem of Heaven remains unknown to you. [3]

Not one of the other great Spirits has ever given so many details about the Heavenly problem, as this Centre is receiving by Divine Blessing. I will not examine in my present talk why you have this privilege. The faithful by a large percentage will believe you, but the unbelievers who are in the darkness of their knowledge are not able to believe anything that is not tangible, and here lies their perfidy.

Really for you, Heaven is an unsolved problem that can only be captured with Faith, intuition and Divine Love. We have given you explanations for many unexplained phenomena as well as Mysteries, up to a point. But when you ignore the Alpha [4] how can you learn the Omega [5]? The Alpha, [6] that is Earth, has so many problems that need to be solved and you expect to solve the ones that belong to the future life? Take care of the easy ones of earthly life so you are assisted with the future ones of the Heavenly life.

#### **4. The immutable Law of destiny**

{Confucius}

[Book 20: pp 71-73]

My dear ones, this Law has its subdivisions, but we will report on its key points.

When a spirit is about to incarnate, it chooses by itself the direction and the duration of its life on Earth. This is why very few people know beforehand when they are going to migrate [1]. This being the case destiny is not altered because of the 'contract' that the soul has signed with the Spiritual World. [2]

There is another circumstance, where the spirit does not specify its direction or the duration of its life. It leaves this (the time) up to Divinity, in this case, if it is in danger during its earthly life it is saved (as you would say) by a miracle. This is because it did not sign a contract and left it open to the disposition of the Spiritual World.

There are many such circumstances. I have mentioned the main ones. For this reason, you must know and be able to distinguish the positions that are held by the descending souls on Earth. But how can you do this, as doctors by diagnosis? This is the big question.

But since you have the strength of the Spiritual World on your side, do not worry. The Spiritual World will assist you with the diagnosis and the distinction of every soul, so you can know, if it possible to save this entity or leave it at the disposal of the Lord. The Spiritual World has a duty to advise

you of all this and much more, so you can avoid human errors. These are lessons that we transmit for your knowledge and for your compliance.

Do not think that only science is able to really enlighten Man. Until now what has science delivered for Man's happiness? Of course science is a rational means but if Man depends on the rationality of a scientist then it is possible that science can cause him to lose his Faith.

The Spiritual World is science [3] and not the human one, which requires material means to convince you – alas however how many times has Man been pitifully deceived. When the Spiritual World gives something, do not question it - because it is correct.

However be careful. There are mediums who indeed have the divine power to foretell, but their lack of purity renders them followers of the inverse Spirit [4]. And then they are sneered at and ignored. But as you well know, the Cunning One is eloquent. He will convince the people who sneer at the medium, about another case, so evil itself is not exposed but his word is fulfilled, this way it can attract most of them into destruction.

You have not yet perceived, that it is for exactly this reason that the Lord has created this 'means' for His True Logos [5]. All others are of the opinion that you promote Our Centre. Not, in God's name! This Power is special - it is the Lord's. **He is interested in the teachings of His Stars and of His great Leaders and in enlightening you as much as possible, so that these Texts can remain as a gift for the whole humanity.**

**After the death of this medium [6] do not expect truths such as those that have been transmitted.** Those who really believe in the Highest Authority of Heaven, let them accept all that I dictate, so they can gain all that they do have in their credit. [7]

Other Leaders of the Spiritual World will talk on this subject. These talks must be completed for your enlightenment and the enlightenment of your brothers.

## 5. The birth of the Saviour

{Confucius}

[18:210-211]

My dear ones, you will find it strange that [1] I undertake to speak about the birth of Jesus Christ on Earth today. Do not forget that I co-habit with Him since I am in Theosis [2].

'Eve of the festival' [3] means remembrance, that is, we all ought to remember the birth of the Saviour. Why? Because it is necessary to know for what reason He was born and what He did during His earthly life.

He was born to save humanity from the ancestral sin. To show men which road they ought to follow so they can shorten the Heavenly Economy [4]. But irrational men waste their inheritance on worthless works and are not interested in anything else. And will they be interested in what they do not know and avoid even thinking about it?

Today you are all ready to celebrate tomorrow the birth of Christ. And you celebrate with your shows, forgetting the Love of the Lord towards the neighbour. You consider that it is sufficient for you to be well and be indifferent towards the others.

Tomorrow's celebration stopped belonging to the Lord a long time ago. It belongs to the enjoyment of men of the goods of your Earth.

Who is the one who studies the deep meaning of the birth of the Lord? What has He taught and what have you learned from His teachings? You will say 'a lot'. I agree. But what have you applied, when He descended to Earth to save you? Who have you saved until now? Even one person! ... That is why the Lord undertook the Great Work, that which none of the prophets and mystics were ever able to undertake!

You are all pleased for the great feast of Christmas and you do not ask if those suffering and all those unjustly imprisoned in the darkness of the so called human justice will even have a small ray of Divine joy for the celebration of this feast.

Despite the honour that you bestow, the Lord is full of sorrow, because His children deviate from the course and do not perceive what is correct and what is incorrect. All are joyful! This is an empty word, because you do not know how many are in isolation and do not know if they are going to be freed from the traps of evil and cunning men. I speak for the whole World.

It is sad that Christian nations do not know the pain of their brothers so they can assist them and invigorate their soul strength.

My brethren, because the words of the Old Scriptures are no longer able to give you images of the reason why the Lord descended to Earth, the Spiritual World has decided to give you these new images so that the people of indifference and amusement, learn what their mission is and what ought a man with prudence and logic do. This is why We strengthen the images of Heaven on Earth and with our new Teaching enlighten the whole humanity.

It is necessary for Our Light to become a Sun, so it can overshadow even the material sun. Matter delays progress, the spiritual progress. It becomes the obstacle for the spirit that is attracted by matter and does not allow Man to be free to study deeply his inner self to awaken not only the ones around him but also the whole of humanity.

I hope that this new Light will give reanimation to the human spirit soon.

## **6. There is one religion in Heaven**

[Confucius]

[Book 3: pp 188-189]

I was a predecessor (on Earth) of the Lord. As a man I did not know anything about His appearance. I say as a man, because my subconscious knew Him in Heaven.

In your world it is possible to have different religions. In Heaven there is only one, and the Leader of its Light is the Lord. No other religions are considered, except that, men of any (earthly) religion who have carried out good and pious acts automatically enter into the Kingdom of the Lord. Differences exist only on your Earth, out of self-interest, shameful self-interest. For this reason none of these religions is able to be established, even though people are in absolute need of religion as a means of helping and assisting faith since this is what saves and not mindless atheism.

## **7. Knowledge and knowledge**

{Confucius}

[Book 6: pp 45-46]

From the most ancient times those who were occupied with esoterism were the famous priests of the Indian religions. Today the workings of body and inner flexibility has attracted the world of the spirit and all who engage with the teaching of the Yogis benefit from the Mysteries of the Lords.

But what are these Mysteries and in what areas do they benefit Man? This is the big question. If these exercises contained a measure of humanity, today India would hold the scepters of the world. However, on the contrary, in this country where Knowledge has risen to the pinnacle of the Mystery, the population of this country, I say, finds itself in the erevos of spiritual depression. Because brethren, Man's aim is not to avoid social life and perform divine ceremonies for the salvation of his own soul but for that of his brothers!

The teachings are nice - but they are seeds that produce no fruit. Many Western wise men imitate the Mystics of India without any benefit. The various sects and systems copy one another and try to attract the faithful without any positive aim. All admire the knowledge of Esoterism but do not know the simple and brilliant Knowledge of Divine Grace, which is the only one that guides the Man of Faith and goodwill to the exact target of our Light.

There is confusion in the knowledge, spiritual confusion that distorts your energies and instead of ascending to the Supreme Light of Creation you descend to the erevos of the Opposing Knowledge. There are pious men who thirst for knowledge. Unfortunately they have been caught in the web of the

Spider and are unable to be freed by advertising a new divine light without having a self-perception as to where they are and what they follow.

They talk about the Lord as being a member of their Society and about His Work as being a continuation of those old systems of Good and Bad. The Holy Scriptures clearly spoke about the entire Work of the Lord and if at some points they did not clarify all the reasons for the scientists, this had its purpose for that period. But today whatever point of the scriptures is obscure for the researcher, the Divine Grace of the Lord is in a position to give you the appropriate explanation, through the Light of Truth, that is through Paraclete, it is sufficient that with respect and faith you ask Him for His Light. [1]

Do not be misled by the loud mouths of erroneous knowledge with their beautiful and essentially non-understandable words. **I, Confucius, affirm to all that One is the Lord and Leader of the Spiritual World, Jesus Who justly was named by men through Divine inspiration, the SON of GOD.**

All who censure the way by which the Wisdom of His Religious Authority was founded are condemnable, not by men but by the Authority of Our Father.

Our Lord, Jesus Christ, existed as a man such as you, with the difference that He was the Delegate from Heaven with the Divine Power of Soul Strength. No man will call my words into question, when he finds himself in front of His Almightyness. But by then it would be too late for those who intentionally refused to accept Him.

If you cultivate your psychic world with every means, with Faith in Him, then you will verify this truth for yourself.

The LORD is the Beginning and the End of your earthly life. [2]

*Editor's comments*

## 8. Pure Knowledge is Heavenly Enlightenment

{Confucius}

[Book 4: pp 249-250]

Brethren, the fact that knowledge increases does not mean that it is pure. For it to be pure, Man must receive Enlightenment from Above. He will receive this when he is faithful to Divinity, good and virtuous towards his fellow Man, and recognizes Love as the joining link between God and Man.

Heaven never misleads Man through its Enlightenment. On the contrary, it gives him guidance and helps him find solutions to the problems that occupy him so much. Unfortunately, today most people do not give any importance to the Powers of Heaven. Of course these Powers are not inactive but act invisibly on men. Those ignorant about the highest Heavenly Knowledge ought to know this. Many are of the opinion that a new wave of civilization will save the general situation. No such wave exists on the horizon. When you deny the Truth, you cannot conquer the consciences of men through falsehood. The time

has passed when one system succeeded another. All these are treacherous and have never produced fruit worthy of their aspirations. Why?

Because although the bases of these systems appear to be humanitarian they do not have moral foundation. Without the Divine, nothing is secure. All religions are heading towards their disappearance, because they lack ideals worthy of Man's destiny. Christianity is not a system; it is not a one-sided religion and is not a philosophical relief. Christianity – understand this once and for all – is balanced Love towards everyone. This balanced Love is the selection of the best from all the philosophies of the World. It dissolves darkness and gives pure, white, life-generating light not only to the faithful devotees of Christianity but to all men throughout Earth, whether they have a religion or not.

Cunning thoughts are born only on your Earth through the empowering undermining radiation of the fallen Angel called Lucifer [1]. This Spirit of Evil is indispensable for the gaining of pure knowledge.

When Man deviates from Good he gets confused and is transported into the nets of the Devil. But when he seeks to come closer to God, from excessive zeal he repeatedly sacrifices himself, in which case he suffers a kind of congestion, caused by his goodness, and does not act as a balanced Man but as a Heavenly spirit. This is contrary to his powers. Therefore, the ray of the Devil is the counterweight to this excess, in the sacred accomplishment for the restoration of balance in the human spirit. "If you have two cloaks give one to your brother who has a need of it", says the Lord. He, with persuasiveness taught balance in the nature of Man.

He who balances everything in his life, has the capability to understand more readily than anyone else the teachings of the Spiritual World and to succeed where others through matter and their own strength have failed.

Only Heavenly Enlightenment has the power to transmit to you its Pure Knowledge to assist you at this most critical turning point in the history of your civilization. We will liberate you from the anguish of life after making you aware of your destiny and solving your unsolved problem: what is the purpose of your Creation.

## **9. The Holy Spirit as the third member of Divinity**

{Confucius}  
[Book 6: pp 70-71]

PHARAH: My dear brethren, let us not repeat all that was said some years ago. It is impossible for he who does not know the first steps of mathematics to know the higher levels. When you define God as a Great Spirit because traditions requires it to be so, you analyse Him, even though you know that God cannot be analysed. Brother Confucius will speak about me. He is the most appropriate to do so on this subject.

CONFUCIUS: Many of the faithful are of the opinion that Lord Pharah is a high Spirit and that he occupies a high position [1]. But what is this high position of Lord Pharah? I will tell you: He is one Member of the Triadic Divinity.

You know that the Triadic Divinity consists of the Unknown God, Christ and the Holy Spirit. Therefore, doesn't the Holy Spirit have a personality? Is it something undefined? – The undefined is only God. And when did the Holy Spirit appear as the Third Member of Divinity? It was from time immemorial when humanity was in deep darkness, before Atlantis appeared.

The Holy Spirit is not a bird, but tradition has depicted It as a Holy Dove. What the ignorant are saying does not interest the Spiritual World. As proof: the teaching of monotheism started in India, but at that time the people of India were so backward that they forced the Light of Truth, that is, Lord Pharah, to abandon his birth place, Delhi, and walk towards the West. But before leaving his paternal land He had organised his followers well. Later they acted as mystics and their descendants received messages from Heaven, from Lord Pharah, the Great Administrator of the Divine Spirit.

One of you may ask: Since Lord Pharah was a great Spirit of Heaven, who was administering this Essence [2], when he reincarnated for a second time on your Earth as Enoch? [3] I answer: It was your Lord and your Saviour, until He returned to Heaven and resumed His authority. Therefore, when the Saviour was on Earth, Lord Pharah conveyed to Him Anarhon's directives. This means, that the Spirit's [4] overall authority The Holy Spirit [5] had. The Lord before His departure from Earth called It Paraclete. [6]

But be careful, often a Spirit with the name Pharah has appeared to some mediums and given excellent texts, but they were lacking an ethical base. This Spirit, the most ingenious, was none other than Lucifer.

A few of your acquaintances delude themselves because they hold in their hands texts from Lord Pharah, but they have not been audited. That is why the Divine Authority has invalidated them. In these unaudited texts the Heavenly Life is explained in a deceptive manner. In some parts they say that when the entity ascends the steps of knowledge and reaches the highest point of perfection, it assimilates with God. God's perfection is unknown to the meager spirit of a wise man. Of course the great Teachers of Heaven stand at the level of Supreme Knowledge, but even they do not possess the unending Divine Knowledge.

God dominates everything – He is the universal Breath, the pulse of the Universal world. He knows even the most inconsequential movement of His entities. He gives directions to the most perfected Heavenly Entities and they, after studying His directives, transmit them to the Leaders or Teachers for implementation. It is not possible for anything to escape the invisible eye of Anarhon. The [7] communication between them is carried out through radiation, and spiritual light rays conduct the communication between Heaven and Earth. There is an immense difference, which we will see at another teaching.

**Pay attention to the Heavenly Texts that you are receiving. They are given under the supervision of the Holy Spirit, that is, the Light Giver Lord Pharah.**

QUESTION [8]: Referring to Lord Pharah, You said that as a spirit He can be traced back to the period before Atlantis when the people were immersed in darkness and you reach the point when He appears in India, where because of

the underdeveloped and polytheistic people, He leaves his fatherland and heads west ... [9]

ANSWER: Brother, at that time India did not have Teachers and the group of the Lord's faithful, cultivated the ground carefully and with prudence. If Lord Pharah was directed towards the west, He had this directive from Heaven, because the countries of the Middle East were more advanced in knowledge and there, according to Heaven, it was destined that the Saviour of Humanity was going to appear after many years. Therefore, the Highest Authority planned everything. What theologians and others say does not concern us, because the other side enlightens them as well, precisely to bring confusion and disputes between human spirits.

When We who speak this way are not heard favourably, not by you, but by the perverted and malevolent spirits of your fellow men, We will give examples of our almightiness through matter to prove to you the correctness of Our Word.

## 10. Who is Lord Pharah

{Confucius}

[Book 6: pp 114-115]

Brothers, you all know that in the Palace of the Lord there are Seven Stars. One of these Stars is the undersigned [1]. By saying 'Stars' I do not mean those foolish ones that were distinguished on Earth [2], but the co-workers of the Lord. And when these co-workers speak they are linked directly from the Palace of the Lord to Earth. This is called 'Palace Communication'. I say all this so I can come to the subject of Brother Lord Pharah.

Lord Pharah has been known for many years in your country by the name 'Pharah'. All knew that this Spirit was great but could not conjecture what it was. Ten years ago [3] a medium asked with devoutness to learn something about this Spirit and what It was. He was given the answer: 'The Spirit of the Lord' [4]. For the first time in the history of spiritualism through your current medium [5] an answer was given for the knowledge of all, that Lord Pharah is not just another Spirit but the known Dove, the Light of Truth, the Holy Spirit and also by other names.

When the Lord condescends and washes the feet of His students, why would this Spirit, with the attribute of Pharah, not descend to where the Lord directs? And when I say 'the Lord' I do not mean Jesus Christ but Anarhon. This incredulity of men is a kind of bad perception of the Truth. Why should middle rank spirits communicate with the human race and not the Great Heavenly ones? For example, was Moses better with his egoism, passions and concubines when he was receiving the Commandment from Anarhon and forgot it? Consequently the Commandments are incomplete.

On purpose, Jesus did not try to abolish Moses' Commandments because He had a different directive from His Father. But today, Heaven clarifies everything and overturns that which is wrong, by opening wide horizons for the human race. And when I say 'Heaven' I do not mean the spirits of stagnation and wickedness. I am referring to the Great Spirits unknown to Man and from whom men were unable to receive directions, teachings and advice.

Lord Pharah is the Spirit of Truth, that is, THE HOLY SPIRIT. His Light descends with the name 'Pharah'. The distinction between the names 'Pharah' and 'Holy Spirit' is known to you. [6] Essentially, it is the same entity. It is He who gives and removes the spirit from Man to either test him or because he has this directive from Anarhon. Do not dupe your brothers with your incorrect perceptions of whether it is or is not, the Spirit of Pharah that so frequently speaks with you and directs you.

## **11. The Song of the Dove as Eternal prayer**

{Confucius}

[Book 4: pp 136-137]

Beloved brethren, when I speak of the Dove I do not mean the common bird that you know, but the symbol, the third member of Divinity named the 'Holy Spirit'. This Spirit is very powerful, because It alone administers the energy of the spirit according to the Will of the Lord. It is also named the 'Light of Truth'. This Light teaches Man, guides him and educates him about the deficiencies in his spiritual knowledge. Therefore when the Light of Truth speaks about God, Its speech is the Song of Songs. So this song replaces the prayer that the symbolic Dove radiates to the Powers that rule everything in the Universe. The speed of this Spirit is inconceivable; it enters instantly into any entity to overturn everything for the benefit of the common good and to combat the Evil Spirit.

Frequently the powerful Spirit of Evil takes the place of the Luminous Spirit and speaks logically, in order to mislead your thoughts whenever it judges it good to disturb in a sly and harmful manner. To avoid this, do not rely on

beautiful words that conceal thorns and poison. You will discover this by yourselves from the phrases that you will dispute in the genuineness of the Logos. The deceit of the Demon is skillfully attractive, interesting but not true. Such words are received by many who communicate, in different parts of your world, but no one has managed to find where the logos is not beneficial so to avoid evil. That is why I am so emphatic. This is why the Lord has indicated the only true path of His Logos on Earth [1]. The clean and life giving water is preferable to the unclean and deceptive one that is able to lead you to the dead end of darkness.

The Dove, 'this holy bird' of Heaven, sings, praises, supplicates and glorifies the Maker of Creation. As a Dove, sitting on your heads, It transmits Divine Enlightenment to you. Therefore through It you will acquire appropriate eyes to discover the Knowledge of Heaven, as gifts from God to Man. Of course all these with your awareness when you are in a state of ignorance. But when you are enlightened and you continue to hold on to the former knowledge of your ignorance, then you do not have the strength to keep that which is useful and free yourself from that which is useless. In this case you will remain stationary and incorrigible despite all Our advice and directions.

You will perceive the song of the Dove when you are obedient to our Enlightenment and this will become your guide and your illuminator. Provided your Faith is real and not just conformist.

In one of the Christian Churches – I do not say when – the Divine Dove will appear for a while, to prove that It truly exists in the Heavens. It will appear as It is with Its radiance and all who are there will bow their heads as an indication that they accept the immortal texts that are dictated for the enlightenment of Man. Where? When? How? These will be the customary questions of all when they read my text - but the undersigned cannot say when this will take place only that the Truth alone will reveal the event and will awaken the faith of the believers and unbelievers. This miracle of the Light will be the beginning of new life on your planet. Only this way will material men perceive that apart from the material world there exists the invisible and real world of souls with specialist Leader-Teachers headed by the Lord, Who rules everything.

## **12. Human knowledge**

{Confucius}

[Book 3: pp 96]

The people of your timeframe admire the knowledge of various wise men because they occupy high places and their fame has spread their names to the other side of your planet. But these wise men, what do they give back to the general good? They deliver theories that many times clash and are forgotten the same way as they flashed for an instant. Therefore their brightness was false. The aim of today's wise man is not to generate the admiration of others, but to assist his fellow man. Who from all your so-called wise men has done something useful for humanity? The true wise man does not seek fame,

because he is not an egoist, but he is a man who according to his strength supports, promotes and defends men who have absolute need of him.

The great intellectuals more than any one else have harmed and continue to harm human knowledge. Knowledge is an enlightening strength, sometimes good and other times bad. Unfortunately today the bad enlightenment has prevailed. We with true Enlightenment will eliminate it, to prove that the great [1] wisdom has succumbed to foolishness and that those who are considered foolish are more worthy than the supposedly great men of your period. The obscurity of many men has given life to Man, so that it was exploited by unwise knowledge!

The Kingdom of the Lord is ready to overturn everything in your world, so that the new Sun of True Knowledge can rise to enlighten first the heart and then the spirit so the ascending soul can also raise the spirit to the New State whose laws, as the Spiritual World said are ten (10) in number. Upon these, everything will be based in detail. With this We will assist, because as the differences extend, the labyrinth also extends and in this labyrinth you will not find the beginning or the end. [2]

God or Anarhon is not Knowledge. It is Love. From Love springs True Knowledge.

### 13. About woman

{Confucius}

[Book 3: pp 79]

Dear brethren, when the Spiritual World provides a short description about the quality of the woman, It does not despise her. On the contrary, the destination of woman is such that she plays the part that Anarhon has assigned to her.

If woman was to ascend the ladder of the Stations, she would never reach the last one. For this reason the Lord has devised a special Paradise for her, so it would be easier for her to ascend to the eternal and peaceful life of Heaven. [1]

It does not matter if she is of second quality. This is done so there would be separation between the two opposite genders or, if you want, between the two opposite entities.[2]

Wrongly, many exploit the Truth that the Spiritual World gives with great affection and love to both man and woman. These topics are mysteries known only to the Lord. When a soul of either quality A or quality B is recalled they both belong to the same Kingdom. They meet other souls, attend talks, are taught and experience the same joy.

Woman has great power on the earthly world. Here it is not an earthly world but a Heavenly one, consequently her powers are few. For this reason she is called the 'weak gender' even though she is not a 'gender' but, is an entity. Unruly spirits that communicate with humans assigned this term to woman.

We advise both genders to do everything within the measure of their physical environment otherwise 'Anassa' the Queen of Heaven (Mother of the Lord) would not have existed. This only is sufficient for you to understand that the woman's destiny is to raise man and should not be undervalued, because her role is such. Man's role is love towards his neighbour.

[2] quality A (man) and quality B (woman) does not mean one is superior to the other. The terms are used to distinguish two different types of entities, an A and a B

## 14. The Logos (Word) is God

{Confucius}

[Book 22: pp 251]

Because a discussion is taking place about the strength of the Logos, allow me to add my small amount of knowledge [1].

The Logos is God – from there the Logos starts. And when We say the Divine Logos this is what We mean, that the Logos has Divine Power stemming from the Fountain of Anarhon.

It is of course very difficult for you to enable your fellow men to understand that the Logos of the Spiritual World is indeed Divine. They will understand this when Our texts are propagated and coincide with phenomena that will cause surprise. However you will have explanations and reasons for why one phenomenon preceded the other.

People will construe the phenomena as miracles and the miracles will further strengthen the Divine Logos, so they will accept the Texts as writings of Divine Will.

There are two types of Logos: Of Light and of Darkness. The one of Darkness does not concern us but only the one of the Light to regenerate Man and give him the new enlightenment, the supplementary and the main, to complete the gaps in his knowledge.

The Logos is Enlightenment and Enlightenment is Love in action which is also the regeneration of the soul and the Divine Enlightenment for the spirit.

Today nothing would have existed in the whole Universe if the Logos was not activated. Respect and be convinced that the Logos is the Life of an entity to battle when it appears on your world.

The Logos has saved you and the Logos is able to raise you, by you accepting It as the medicine from the Divine Authority.

*Editor's comments*

## 15. The logos was given to Man to create

{Confucius}  
*[Book 3: pp 85]*

The time for the liberation of the slaves from the beasts with the many eyes namely the totalitarian governments is approaching. Those innocent who will be sacrificed through necessity will return to their countries so the guilty can be punished.

As Lord Pharah stated, the cleansing will be carried out on a large scale so that the new Light that Heaven is preparing for humanity can shine.

It is necessary that all who distort the meaning of the logos be removed from the earthly life. The logos was given to Man to enable him to create and not destroy. Therefore those who do not know this will learn it without being able to participate. This is because they have already sat the examinations and failed.

## 16. The combination of the Logos and Faith

{Confucius}  
*[Book 3: pp 173-174]*

The combination of the Logos and Faith means a strong basis for enlightenment and illumination. The Logos, as we said at another time, is the beginning of everything. But in men the Logos is divided into two parts: a positive and a negative. These two parts are subdivided into other categories, which I will expand upon at another time. We are interested in the two competing Logoi. [\[1\]](#)

I will not report on the Heavenly Logos or its reflection on Earth, but on the reactionary one that aims by every means to establish itself in the spirits of the unenlightened.

How does this logos act? It acts through the erudition of a speaker and the exertion of influence on the audiences without reaching a conclusion that is good for the listener.

When human knowledge is entangled with incorrect observations and a meritorious speaker, according to his opinion, confuses the meanings of everything, it is impossible for him to offer true light to those that are in absolute need of him. That is, instead of supporting the great work of Heaven, he undermines it behind a mask of Our Authority. The ideas of human knowledge have never been the same as those of Heaven.

True Light is emanated from the Spiritual World and not from trite earthly knowledge. Those who have ears will listen. And if they have Divine knowledge they can understand, so that with help from the Spiritual World they can exert influence on the incorrect ideas of earthly knowledge.

If you could observe the movement of earthly life from the moon, you would be horrified by its iniquity. Why? Because your knowledge clashes with their own framework. That is, one wrong clashes with another wrong at the expense of everything. There is no one strong enough to tell the truth so the tower of falsehood, that has even captured its creator, can be destroyed. How far Man is from Truth! And then he asks for help. From whom, since he mocks

everything and when he is in trouble he asks for Us? For what, when he does not know from where the Light is transmitted?

*Editor's comments*

*[1] note that the Heavenly Logos is divided into two parts: Of Light and of Darkness, whereas the earthly logos is also divided into two parts: the positive and the negative*

## **17. The battle of the Logos**

{Confucius}

[Book 18: pp 11-13]

Dear brethren, previously the Spiritual World has warned you that when your fight will start in favour of Our forces, you will have to face a few enemies. We also said something else: You should not pay attention to those who impede your sacred work. You, as fighters, will turn your weapons, that is Our instructive Logos, towards all the faithful and this way the Demon of Evil will be totally defeated and victory will crown your actions.

Do not be disturbed by the frivolous ones that appear as being wise, good and pious whereas in reality they are enemies and hypocrites of the truth and piety.

Presently the Lord is on Earth, so that your powers can be more effective than they were before. You have Divinity as an ally. Do not be timid, the logos is the most powerful weapon of all the ones that humanity has at its disposal.

We will overturn everything to create a new direction that you already know. From now on cast your eyes in all directions of your world so that you can be convinced of what battle We are fighting – you will also battle for the Logos. Do not worry if you think that there are only a few that follow you. I can assure you that there are double and in time they will increase to a very large number so that fame will pass your borders and then you will see what will happen. Of course We are always in favour of our faithful at the expense of the unbelievers and hypocrites who have the impression that they are offering a service to the Church of the Lord, while they are placing explosive material to overturn Him.

The Lord at this moment is above your heads and is following my talk, which is the knowledge of His eyes. Also brother Socrates is with me so by being close by we reinforce the Logos of Divinity. [\[1\]](#)

The Glory of the Lord awaits you, because We go forward together to the battle of the invisible and material world. The invisible shows its incorruptible powers, whereas the perishable, what has it to show? Its downfall!

Be faithful, respectful and prudent regarding our directions as well as fearless and keep the Lord in your heart so you can receive the directions from Anarhon through the Holy Spirit. Not since the period of the appearance of the Lord on Earth has Anarhon taken part in our actions, only through His creative Source.

Of course they will not believe you, if you tell those who are lukewarm what you are receiving from Heaven. They will see their mistake by themselves but too late therefore they will have gained nothing for the salvation of their souls.

There are many today that are expecting something without defining what it is. This 'something' is the second coming of the Lord in Spirit – and you are the

first to know this, as the shepherds who first worshiped the sacred child. This is of significance that you will verify on your own and you will see that indeed you are privileged. [2]

## 18. Knowledge before the Christian era

{Han Tzu Lain}  
[Book 4: pp 190-192]

My brethren, I know that your first concern is to learn who I was when I lived on your Earth. But you will not gain much by learning about my personality. I appeared on the Earth a long time before the Christian era. I lived in China and I was a follower of the great wise Confucius. I studied his work and I accepted his knowledge. This persuaded me to further study Love, from which springs all good things that Man expects but many times is unable to acquire because he will misuse them if he were to acquire them.

As a wise man of my time I was also a member of the priesthood that had a different opinion from my own regarding the spiritual development of Man. My convictions displeased my colleagues and for this reason I decided to distance myself from their gatherings whose aim was to impose on the consciences of the faithful by using wealth and power. In my opinion the conscience of my colleagues were influenced by the strength of their spirit thus diminishing the value of their entity. My true revelation was made known through my words and this was sufficient for me to be expelled from my father's land. As a beggar I traversed huge distances of our territory teaching my simple brothers the counsel of divinity. In Heaven I was honoured for my work with a brilliant place within the Invisible Kingdom.

The Lord, who I have never imagined as a man on Earth, I recognised in Heaven when He again took the Administration into His hands. I want to say that if I had lived during His period, it would have been impossible for me to recognise the Divine Omnipotence in Him, because Man is lacking true knowledge. Only the Lord taught the True knowledge to overshadow all the wisdom of the world. As I said earlier I will refer to only very few of my own teachings to somehow convince you with your ambivalence that I was a teacher of good will.

1. Every man's perception of good may possibly be evil.
2. Man is as obscure as the water is transparent and whose harmful substance you ignore.
3. Light strengthens vision when it is absorbed, but it blinds when it cannot tolerate strength greater than its capacity.
4. I offer does not mean I seek something from someone; it means that I give, so others can imitate.
5. Do not imitate the worm, so you will not lose your light.
6. Seek the divine power inside you, so you can converse with the Supreme Light.
7. Wealth envies happiness, but happiness is indifferent to wealth.
8. The thirst of the spirit is insatiable. Be content with little to gain much.

Knowledge during our period was luminous for those who knew how to maintain its radiance, without being sure from where it came into our minds. What was unknown to us was the Power of everything, without having the capability to specify the cause of the Authority. From the Christian period intellectual men started to perceive everything in a different way, because they were assisted by the True Light. Therefore the pre-Christian knowledge was an oil lamp that with the appearance of the Lord was converted to a projector. Comparing the two illuminations we notice that the strongest is also the simplest, because everything that emanates from Heaven is Divine and in its Divinity it is simple, as was the appearance of the Lord and His work.

Of course, knowledge does not have an end, but it has an inexhaustible source of Logos. Knowledge that is lacking Divine Light is called earthly, and this knowledge on its path intertwines Truth with falsehood, so Man cannot distinguish the correct from the incorrect. Divine knowledge descending from Heaven is so naked in its Truth that the falsehood of earthly knowledge doubts the authenticity of the Light of Truth. The lowly worm sees but does not believe. So greatly has matter blinded it. Cast your gaze towards the True Light to enjoy the Truth and perceive the deceit of falsehood.

## **19. The grandeur and splendor of the Christian religion**

{Confucius}

[Book 3: pp 115-116]

The bells are ringing because life bids farewell to death to find in death immortal life. [1]

Which other religion in the whole of humanity has such a grandeur and such splendor as this of the Lord? Imagine what now happens in Heaven, when the Lord enters Parliament [2] and speaks to the multitudes of His Kingdom!

There is excessive love with bad results and there is also balanced love with beneficial means for Man's ascent.

Which of the two do you prefer?

The first does not have human basis – it is taught by Buddhism. The second is human and was taught by the real Divinity, the Lord Who today is being buried as a representation of that time [3]. Love is being buried, so its Light from Heaven can shine and spread its power through the Logos to the faithful brothers who have understanding but also respect and obedience to the directives of the Spiritual World, which today honours the burial of the Great Leader of the Heavenly Kingdom.

I, Confucius who many maintain was wise, I deposit my wisdom as useless at the feet of the personification of Love, Our Lord Jesus Christ, Saviour of the World and strengthener of the (soul) strength of your invisible brothers and our brothers.

Great is your Glory Lord Which forever and ever will remain as the Lighthouse of Life.

## **20. Philosophy**

{Confucius}

[Book 6: pp 183-184]

My dear brethren in my time, we the Chinese did not occupy ourselves with Western style philosophy. Our philosophy was specific in its conception. We centered it only around humanitarianism. Put it another way, our opinions about human life, referred to the practical application of Good. Wasn't this truth really inspired by Divinity? We did not occupy ourselves with empty words that did not have an influence on our uneducated people. The philosophical figures of speech, as systems, are not applicable to every entity. Men are not merchandise of mass production. Every entity is a different world of ideas and perceptions. For this reason, the most important things for us, were the good actions applicable for imitation.

If in our work we pointed out what was bad in the society, then part of the nation who knew how to read would revolt as rogues without conscience and destroy everything that was worthy of our traditions. In a parallel manner, we would have had to face the Mandarins who collaborated with the rich as powerful agents of society. For this reason, our philosophy consisted of the practical application of goodness and piety as much as possible.

The truth is, that all had need of Us, without Us giving them the weapon of the logos. This is just but dangerous at the same time. Our own philosophy was simple, easy to understand and encouraging for Man. It was a kind of stabilization of opinions, and as I said had practical application. So you can understand me better, it was a teaching about humanitarianism and not empty suggestions with attractive words that could not be applied.

You wonder today to learn what relationship a woman has with philosophy. She has none my friends. Philosophy, that is, the real truth is stable and does not stop searching. That is why this is not a branch of the Logos for the changeable spirit such as that of the female nature. I have no doubt that many of the female students of philosophical schools are excellent and studious, because they can easily memorize the texts and succeed in obtaining their diploma. Do you know of any woman that has published a philosophical piece of work of major significance? It is known that women do not delve into the meaning of philosophy irrespective how simple it is, unless of course she is helped to lie, because she adapts the meanings according to the tendency of her liking.

More men should be interested in the branch of philosophy because they have a developed perception. Unfortunately they are divided into two categories:

1. those of enlightening philosophy that is understandable and simple and
2. those of the dark philosophy that is non-understandable and misleading.

There are very few of the first category. There are many of the second who confuse the minds of their fellow men.

Therefore a woman who studies these two streams of logos, instead of being taught something useful, she confuses the differences of these two streams in her spirit, which results in the distortion of her perceptions of the meanings, and she delivers through logos all that she likes, thus distorting philosophy.

The first elements of philosophical meanings were given through inspiration from the Supernatural Logos because the roots of philosophy are Heavenly. They are transmitted partially and in stages. Therefore, the core of philosophy is the Sacred Logos. However Man without thought and logical penetration into the meaning of philosophical logos has distorted the philosophical Truth at the expense of human knowledge.

Woman does not apply, but inspires the philosophical development in Man.

## 21. What is the IDEAL

{Confucius}

*[Monthly Magazine (Divine Light), Vol 475, p p5-6]*

It is a perfect hypostasis [1] of Man with its aim to conquer the prize of beauty, of justice, of love and of the understanding of the spirit and the soul. That is, when Man surrenders this prize to the opposite sex that has also conquered the prize by itself, and receives from its opposite sex the same prize, then automatically these two prizes are converted into one multifaceted star that the Spiritual World names IDEAL.

For example, it is possible for an entity A to have an ideal but deep down the entity is not sure if it has conquered it or not. The same occurs with entity B, but a meeting between A and B is not easy in order for their ideals to bind together, as the Spiritual World determines, so that they can form the star that I have mentioned.

The true ideal consists of both heterosexuals, A and B. Otherwise the idea of the ideal remains a theory and A will be recalled without acquiring its true ideal. That is, it becomes a base without cover and will wait in Heaven until at some stage it will find it and be joined with its true cover to complete this long lasting union. [2]

In the Spiritual World there are many psycho-spiritual entities that have found their ideal. On your Earth it is difficult to find your ideal even though you think that your ideal is this or that.

Ideal is the matching energy for the union of two heterosexuals. The ideals, that you mortals refer to, are not ideals but desires that have no relation with the real ideals, whose meaning is the completion of the entities into one equal in strength flame that is sustained by Divinity.

You are not able to accept the definition of ideal on Earth due to your poor perception - in this case you will find it in Heaven. In very few cases the Creation of the ideal on Earth, is only known by the attracted heterosexuals that I have mentioned, without them being able to perceive it and give a definition

to the meaning of their ideal. But because I am going to give you the definition of this ideal, in addition, I mention for your knowledge this:

Two heterosexuals, united in an ideal way through Divine Blessing as the Spiritual World has specified, with psychic exaltation and spiritual understanding, make the DIVINE IDEAL.

*Editor's comments*

[1] = *essence, substance*

[2] to facilitate your thinking: consider entity A as a pot and entity B as its cover – in Greece there is popular phrase when a couple is happily joined: 'the pot rolled and found its cover'

## 22. Maxim of an ancient Chinese Teacher

{Chin Ya Se}

[Book 6: pp 69-70]

You did not expect me because I am a new spirit in your catalogues. I was an ancient Teacher of Love in northern China 8,000 years ago. Then we were using paper to facilitate our work. It was of course slightly coarse but very useful for our needs. My texts were lost during the continuous wars within my great country. I had under my authority many faithful who I was teaching using short phrases, so they could understand first their meaning and then express their personal opinion, therefore my teaching was carried out in a friendly and brotherly manner. I will mention some (of my teachings) that have remained in the darkness of the centuries: -

- The beginning of everything good is knowledge of the substance.
- Substance is called the Light of our inner knowledge.
- Love is the way by which you capture the unknown.
- Do not extend your love beyond a certain limit, because then you will lose your way and you will stray onto another road unknown to you, and therefore dangerous.
- Love all the animals of Creation because if they had a spirit like Man they would be superior to him.
- Man who has spirit and does not have soul strength is more inferior than an animal slithering on Earth.
- Morality is elastic; every Man places it wherever he likes. The elasticity of morality shows that it does not have meaning if its base is not love. Through love morality forces that which is correct and just, where Man places that which is dangerous and unjust.
- Be worthy of the one so that the rest become part of the one Authority. The Authority is not made up of the many. The many are subject to the directives of the Authority.

If one of the many raises his head this is called revolt. Since his colleagues do not move why is he asking them to rise? Therefore the scandal creates an abnormal situation.

I did not seek God in Heaven but inside me without seeing if He had a face or not. By my behaviour I was convinced that I had met Him.

### 23. A Chinese wise man's saying

[Confucius]

[Book 3: pp 188-189] and [Book 6: pp 87]

My dear brethren, do not think that in other continents there did not exist men worthy of receiving a brilliant position in Heaven.

Kin Se Me was an unknown wise man and an enlightening spirit in Heaven. Remember his name. I will return to inform you about him.

He used to say:

- 'Love your neighbour with faith so that devotion is born in you'.
- 'Take care that the spirit of your woman is soothed so she can understand you'.
- 'Greed destroys the character of Man and reduces him to the point of being subhuman'.
- 'Great is the power of God and powerless is Man's'.
- 'Place God inside you so you can acquire the strength of God'.
- 'Debauchery is hell inside you. Get rid of it and God will give you purity as a present'.
- 'Purity can be acquired as long as you want it'. (Francisco of Assisi has shown this)
- 'Be prudent, concise and logical and then you will have inside you the Light of Divinity'.

As I said, at another time, I will give you more details about the life and work of this Chinese wise man. My dear brethren, the Spiritual World prepares surprises for you.

### 24. An unknown wise man

[Confucius]

[Book 6: pp 124-126]

Once I spoke about a compatriot of mine, a wise man but unknown in your world, Kin Se Me. He was born in a small market town in China. He was poor. He was not interested in the monetary means that some of the dignitary of his time offered him to facilitate the spreading of his sayings and his writings. A few friends who admired his erudition supported him without them knowing where he was taught such knowledge. To this question, put by some, he answered from 'the Great Spirit', without of course specifying which It was and how It was dictating such knowledge to him.

My dear friends, by chance whilst travelling in inner China one of my acquaintances led me to the humble hut of this wise man. He did not say much. If you asked him he replied with a peculiar smile that distinguished him as a pure spirit of wisdom.

- I asked him, what is the aim of your life? And he answered:
- I have no aim, unless the Great Spirit specifies an aim for me that I do not know.
- I said since you are of the opinion that you have no aim in this life, why do you exist? And he answered calmly:
- This is exactly what I am seeking and searching for, so I can justify my existence.
- I said, if you have a need I would be by your side.
- Thank you, he answered. All those who profit from their fellow men without ever facilitating the lives of their brothers have needs. My need is to enlighten those that have a need of Divine Light, according to my strengths. This way the few will become Suns to lighten in turn the darkness that concentrates in the hearts of men.
- I said I am very sorry my good man, that you do not want to follow me to where I am staying, so we can exchange views about life and death.
- He answered, do not seek to examine what is death because you will not find a meaning while you are on Earth. It is preferable in life to seek its motivation, so you can enjoy the Knowledge of the Spirit that you do not know but you perceive.

My dear brethren, I have noted many of the sayings of this wise man, and I have given you only very few of them.

Kin Se Me remained unknown as a wise man because he disliked fame. The very few people who knew him do not forget his kindness and his works. He deprived himself in order to help the poor of his time without this being known to his friends and acquaintances.

I have learned what I have described by chance from a close friend of his after the death of this great child of China who has gained the love of Divinity without even being known in his own land.

Today, Kin Se Me holds a high position in Heaven near the eminent Leaders and Teachers of the Spiritual World. I present him to you:

KIN SE ME: My beloved children. In the name of the Divine Light receive from me the small and unknown on Earth servant of GOD, my blessings.

CONFUCIUS: As I promised I have presented him because there is a need for me to make you aware of him and for you to understand that many such spirits that are unknown on Earth hold high positions in Heaven.

## **25. Divination**

{Confucius}

*[Book 3: pp 233]*

From very ancient times divination was interweaved with religion and the sacred profession of the time, medicine.

Divination is nothing more than the abilities that Man has to communicate with the Divine.

In the market there are many bookshops. You choose according to your preference. Some are beneficial and others convey harmful ideas. The same occurs with Heaven. There are words by Leaders that increase your conviction and words by evil spirits that at your expense inspire you with everything that is harmful. As you choose good books from bad similarly you should choose the good words from the bad ones.

God has given total freedom to all. In ancient times, divination performed a key role in all the subjects that concerned society.

In the Middle Ages there were many soothsayer-charlatans. In all branches of science and professions there were charlatans. Why does it appear inconceivable to you today that numerous soothsayers exist? Of course, they practice their profession for their sustenance. Learn, that a conscientious soothsayer is a sacred person and is not concerned with the rotten issues of society but with lofty ones for the enlightenment of Man.

Apollo was also god of divination, that is, of the Light of Truth. Prophets are sacred soothsayers and the medium who communicates with Divinity and receives directions for enlightenment and unknown learning so he can transmit to men the existence of the Divine Governing Authority. Therefore, he is the sacred transmitters of Heaven.

But those who are enlightened by both sides [1], they are not always benevolent towards our side. This is so men can be occupied with the unknown and what it is.

Divination preannounces events that are foreseen by Divinity.

## **26. Do not waste your time aimlessly**

{Confucius}

[Book 4: pp 170-172]

My brethren all aimless wasting of your time delays your psychical and spiritual ascent. We do not have the measurement of time, simply because time does not exist in the Immortality of Heaven. But it is necessary for Man, so he can regulate everything according to the measure of distance and time so he does not move and act aimlessly. Time has significance for mortals because the duration of their lives is short. Within this short duration of time what can Man do if he does not have direction and lacks orientation? Until he perceives that the Divine Logos and Divine Enlightenment exist he is consumed with the struggle of life without having sufficient strength to walk the road of his salvation.

Unfortunately, for the sake of his comfort Man considers it unnecessary to occupy himself with whatever does not have a relationship with matter. Only the goods of the material world interest him. All this is because he has no time left for enlightenment, which he considers to be something negative and this denial that nestles inside him tends towards everything that is invisible. If in spiritual calmness he reflects that nothing can move without the Will of the

Creator, then a door will open in his favour towards Our Light. With goodwill and patience, if he examines the Light of Hope that We have provided for him, he will discover an unknown and immense world that he could never discover through earthly knowledge.

With prudence and faith in Our Authority, not only will he acquire supernatural knowledge but he will also be able to delve into the common faults of Man and transmit to him revival and directions as though he is his guiding angel and protector.

But with your poor perception, not only do you ignore that which is correct but also you continually follow that which is wrong so finally you fall into the abyss. Therefore before you reach the edge of the precipice take the decision to change your tactics without wasting your time aimlessly.

Take advantage of the teachings of the Heavenly Orators, discuss them with reverence and understanding, and you will at once see what an unexpected gain you will have both for yourself and for your brothers.

Time is a flowing spring of water that refreshes those who are thirsty, satisfies those who wonder and leaves the vulgar who in their ignorance are heading in the opposite direction to what is beneficial during their precious time.

Do not waste the blessings of time aimlessly when you lack the scales of the measure and impartial judgement about what is necessary because then inevitably you will find yourself in a difficult position, seeking to recover what has been lost, without being able to keep a hold on the necessary provisions of life. Time is a mirror of the past, warning you about the future, so that you may pass through the present with complete order and harmony. For this reason you must not waste your time aimlessly.

Time is equivalent to a space of correct action so that you can avoid every possible form of misunderstanding in this present life.

## **27. Constellations have Divine destiny**

{Confucius}

[Book 4: pp 180-182]

My brethren, the constellations are not random. Each one of the constellations has its purpose that is Divine, because the aim of each constellation is to radiate onto Earth and transmit its energies to it.

God premeditated everything and waits for the results of everything. He knows what they will be. The Creator has established the placing and movement of the constellations with such wisdom, that all the constellations together, great and small, near and far act together for the preservation of your Earth. Earth, in spite of what we say about Man, is the Celestial treasury of the Lord. Within it is the unpolished diamond of the Creator, Man. The fashioning of this diamond takes place according to the natural Law with such care that not a single man realizes that he is in the Workshop of Divine Providence.

Death is perceived by Man as being an inescapable path of the Divine Economy. But the purpose of death is to elevate an entity through the increase of its soul strength.

Unfortunately Man does not observe anything that is far away from the sphere of his interests - and this way he neglects to study and to delve deeply into the holy Texts of the Heavenly discourses. You all have the impression that death delivers you from life. Whereas death does not deliver you from it but transfers you into eternity so that you sit an examination of what you have learned. If you are promotable you are transferred to the appropriate Station on the psycho-spiritual ladder. If you do not pass the examination and you have certain deficiencies you will return back to Earth to start the temporary life again, being free to find by yourselves the reason for your destiny not as men but as entities of Heaven.

The functioning of our Kingdom is very complex for men to understand, because they do not perceive everything. Their intellect is small. It can only reach up to a certain point. Beyond this point it becomes confused, regresses and often goes astray because their spirit is in unknown oceans, vast and dark.

The constellations – and it is necessary for you to know this – act through their radiation on your entities. Corresponding to each radiation, a certain tendency is given to Man that corresponds to the influence of the constellations. These influences are Divine and, as you know, work to balance the Divine Economy. The constellations act in many ways on all Man’s natural tendencies. Whether they be sentimental, artistic, spiritual or instinctive. The combinations of radiations from the constellations shape the personality of the individual entity.

The Celestial personality of an entity is different from its personality whilst on Earth. The vile ‘ego’ does not exist in the Heavens. [1] But when We want to instruct you by referring to our personal being, we use the word, ‘ego’, in its pure sense, so that We make ourselves intelligible to our brethren on the Earth.

Our personality in the Heavens is distinguished by the brightness of our light. There is no confusion, because each brightness is also a physiognomy. Similarly, as you distinguish one person from another, so we distinguish ourselves by other means.

[1] [editor: in Greek the word ‘ego’ means ‘I’]

## **28. Divine Light means eternal Love**

{Confucius}

[Book 3: pp 178]

Dear brethren, before the end of the year [1] I as well as Brother Socrates wish you to pass the new period with good health and joy. To remember me I will say the following:

Time is colourless, because inside it Anarhon moves. Earth is coloured because inside it various creatures move. Between the colourless and coloured intercedes the Logos of the Leaders, as colourless colouring everything.

The meaning of Our Logos is Divine and it receives colours from Earth so it can be perceived by all.

The smallness of the human brain does not have an intensity of more than a small lamp. Only if the brain derives fuel (unspecified in kind) from the Divine, can the lamp become a projector of immense intensity.

Men, learn to draw Divine Light for your enlightenment and for that of your brothers.

Divine Light means Eternal Love. If you do not understand the meaning of Love then every effort to acquire higher knowledge is a waste of time.

## **29. Who is going to clarify the correct from the erroneous**

{Confucius}  
[Book 3: pp 184]

The Lord's mission on Earth was to open your third eye, the invisible and infallible one, so you can understand everything through perception and intuition. But you were blinded by matter and instead of cultivating the hidden vision of your psychic you cultivated your earthly eyes, that often fall in gross errors because you see something but you do not understand it and if you understand it you do not research for it, and therefore your perceptions of the images are wrong and they create in your inner self imaginary worlds and not real ones.

Your imagination propels your movement towards that which is good or bad. Consequently when the images are of bad quality you act badly. To reach the point of clear perception through foresight or intuition or both, you ought to apply the Logos. Not the human but the Heavenly.

There are men that have foresights but all are not pure. Amongst them there are some who are deceptive. Because, how is it possible for someone who is the worst of men to guide his brothers with his logos, since his quality is unworthy of the Logos? How does it happen that he deceives you? It is because he has strong but undefined attributes. Why do We let him free? It is to examine you. Science sometimes gives great weight to those who have such attributes. It is deceived and in turn deceives the other brothers through ignorance. What looks correct may not be and vice-versa. Who is going to clarify the correct from the erroneous? Man is in no position to, because he is lacking the relevant training for this.

A clergyman breaks the Lord's Law and because of this he blunders.

A wise man seeks confirmation of what he is seeking, which is utopia.

A scientist is concerned about his profession and fame and in being more able than another.

A man educated in much and varied knowledge, does not know whether or not it is possible to examine himself.

The woman scrutinizes you so you are not able to scrutinize her.

And I ask: Who finally will be able to separate earthly knowledge from the Heavenly and transmit the latter to Man who has an absolute need of it? Men of good will do this.

### **30. Very few capture the Pure Light**

{Confucius}

*[Book 3: pp 196-197]*

You cannot recognise God through the Evil Spirit. When the cunning spirit astounds you, you admire it for its supernatural power. But those who believe in God never embrace the Spirit of Evil.

Man ought to accept one or the other: the power of Good or of Evil. Evil exists. Good aims to destroy Evil through Love, whereas Evil moves away from the power of Good not to be vanished.

God is a meaning. A meaning that cannot be captured. The spirit of evil is also a meaning, but it can be understood by Man's intellect. For this reason it is easier to do evil than good.

There are many who teach about Heaven, but there are very few who grasp only the Pure Light. Through Pure Light penetrate into the most difficult problems and be assured that through this means you are going to clear the atmosphere of the miasmas of the cunning spirit.

If the Evil Spirit did not exist you would be idle. This has pushed the spirits of men into a continuous struggle to distinguish their qualities and take the appropriate position at the fortification of Heaven.

Those who are not convinced of the existence of God have not a developed perception to enable them to capture the Divine and White Light from the Heavenly Kingdom. At the appropriate time they all will be convinced of the existence of the Unknown to all Power of our Father of all. We will silence them with logic and experimental search – but then the unfaithful will be at the lower ranks than the faithful.

When the words are not being heard then the phenomena will surprise if not terrify their spirits. But you will remain calm because you know Our intentions before hand and what aim We seek. Be blessed in the name of the Spiritual World.

### **31. Buddhism**

{Pharah}

*[Book 6: pp 13]*

QUESTION: Lord, in what has Buddha benefitted his faithful?

PHARAH: Buddha as a founder of a religion has offered nothing remarkable. The Buddhists who came after him shaped it and gave it a religious meaning. In Buddhism, Love has a primary role, but this Love is not human, it rises in the ethers that are incomprehensible to Man.

Love must be balanced with Man's needs. When someone sacrifices himself for another, this is not love but a willing sacrifice and then the entity instead of ascending, descends. Christian love is equal for all without exempting yourself who belongs to Divinity and you should not behave towards yourself as you please. [1] The Commandments are there for this reason.

Buddhism of course is a religion deficient in many areas when compared to Christianity. Supreme Love is not of your world, because Divinity condemns excess, even in love, as it deviates from the correct balance of everything.

The self-sacrifice that is seen in nations that have Buddhism as religion is substantial evidence of the inferiority of thinking, and fanaticism is another point which demonstrates their inner ignorance.

All religious darkness will be enlightened by the Saviour of humanity, by the old, through the New Teachings.

*Editor's comments*

*[1] the Spiritual World is against suicide*

### **32. Buddhism is a complicated religion**

{Confucius}

[Book 6: pp 32-33]

There are many people who consider that Buddha was an excellent physiognomy. They are deceived. Buddha was a simple man. He did not have spiritual education but he was pious towards the powers of Heaven without knowing them. He founded in his way a religion without eyes. Those who followed him afterwards cultivated this religion and attributed many things to the first Buddha without them belonging to him.

Buddhism has performed a great role in the multitudes of the people of that time. Many of the leaders followed a different path from the established one and have harmed many of their brothers. Buddhism today is a complicated religion and whoever wants to comply with it needs to leave everything and seek the Divine Breath in isolation and study the various works of the monks of the Buddhist dogma. Buddhism is not humane. It is not possible for Man to be idle towards his fellow men and to cater firstly for his soul ignoring the body as if this did not belong to him.

Despite the philosophical principles and teachings of Buddhism what are these men offering humanity? If many adopt Buddhism because they find perfection, what is the perfection that they are offering to their brothers? Do not be deceived because this religion is not for the earthly, nor for the Heavenly. The Heavenly have higher duties towards the earthly.

I, Confucius the creator of a school with Love towards your neighbour as a base, have identified with the Teachings of the subsequent Christianity. The Law in Heaven founded the base of Christianity before the appearance of the Lord on Earth. That which I have kept in my memory traversing the Barrier of Forgetfulness was Love towards your neighbour.

The Light from the East did not stay in a specific area of the East but as the Sun rises so the Light reached Mesopotamia onto the sacred ground where it remained to give its brilliant Light to the dark minds of knowledge of that era. Those who still dispute the existence and the teachings of the Lord are not worthy of being called men. Let the study of the Scriptures of the Divine Word become the Light of their traverse from this world.

I speak to all Christians and non-Christians because you are all from the same race but not with the same spirit. Your souls are sisters. Only your spirits have remained enemies because not all have received enlightenment from the same Light. This is why I have come to enlighten you on this point, that you ignore out of ignorance.

The Lord is the Sun of your soul. Let your soul bathe in His Light so the spirit can recover.

### **33. Worlds with human entities do not exist**

{Confucius}

*[Book 3: pp 190-191]*

Why is your world so interested and worried about the signals that you receive from beyond this world? Who is going to interpret them for you when the experts do not have Divine Enlightenment? These signals will intensify. They do not come from where the experts think they are coming from. This is because worlds with human entities do not exist. But supernatural entities unknown to Man do exist however Heaven needs them for a different purpose. All these are moving and creating for the salvation of Earth. Only Man was created in the image and likeness of Anarhon. Inside him Anarhon resides through his soul.

The soul is a Divine power. It moves and revitalizes and does not participate in the actions of the spirit despite those two, soul and spirit, being interlinked for all time.

I wanted to give an explanation of the phenomena from the Heavenly Bodies, but I will wait so you can see for yourselves what silly explanations the scientists of matter will give.

These phenomena have appeared since time immemorial but have only just been discovered. And because men do not know them, their imagination creates laughable images for their spirit. The Lord forbids explanations of scientific interest to be given to atheists because they will harm humanity even more. By saying atheists, I mean those who have inside them the seed of evil. Those who do not have it and are unable to believe in the Divine Authority are deceived. You ought to enlighten these in particular. We are prepared to answer all your queries so there is no difficulty amongst us, and the capturing of Enlightenment will be easier.

Q: I will submit one question: Why did the Lord give to the snake the form of the evil spirit?

A: Brethren, the old snake through enlightenment was transmitted to the spirit of Man, because God does not speak directly with Earth except on very rare occasions. The sinister and slithering snake, in its own way is very attractive

and with ease conquers its prey, because it charms it and is made charming without the prey considering the sins that it carries. Evil never presents itself with a horrible appearance but with the image of an angel.

### 34. Love precedes

{Confucius}

[Book 6: pp 59-60]

**From my country the great change in your political situation will begin.** I do not favor its leaders, but the present leaders are destined to play a major role on an international scale [1]. People cannot imagine how strong they are; this means they are harsh against the enemy and when the enemy will yield then new men will take power to consolidate peace in the world as the shelter of Love.

I Confucius am not considered to be a Christian but the creator of a religion with Love as its base, I say that through this Love I have reached Theosis (Nirvana) and recognised the Great Saviour of the souls. Heaven has enlightened me and from Heaven I receive White light that I transmit to all the brethren of this world. For me, there are no races only souls. And as you know all the souls exist together in the same ether that we name the Kingdom of the Lord.

In a previous existence I was not a citizen of this immense China but of Atlantis. I was a mystic in Mount Lethe and I knew another colleague, a great mathematician with a name you know: Pythagoras. Our names were different then but for you to be able to understand us We give those names that you recognise. I did have some hesitation about the unknown Divinity but this did not stop me through kindness and Love towards Man ascending where the Lord has destined me.

You should also learn that Love precedes in the heights towards the Lord. Only through it you are able to overcome everything. **It is sufficient in your life that you know the measure.**

*Editor's comments*

[1] this text was delivered on 3<sup>rd</sup> January 1968

### 35. About the work of Nietzsche

{Confucius}

[Book 3: pp 81]

As a spirit, brother Nietzsche was deceived because he could not find the difference between Good and bad. 'Why?' you would say. It was because he was attracted by both sides.

Because he had a strong spirit, Divinity did not impose on him, but remained at the same distance as evil, to see what this strong spirit would decide.

Nietzsche's spirit was therefore confused and in the correctness of knowledge, purity did not shine. Therefore he did not have the favour of Divinity. This is

how when the spirit is very strong it enslaves the soul and despite the spiritual strength of the entity it is destroyed in the infinity.

Based on Nietzsche's works, what benefit has humanity had? None. On the contrary, he caused harm as an evil spirit without him being evil.

Pay attention to the depth of his meanings and afterwards you will find the truth, which remained far from the content of the essences. Nietzsche was great. For what, confusion? Because many spirits of equal worth were influenced by the depth without examining the height. If they were seeking the height and saw how disproportional to the depth it was they would not have gone forward to be deceived by the word of rightness, but would be seeking purity and if they could not find it then they would have given up the study of his work.

Ethical harm is punishable For this reason he is not present as a simple spirit. Simplicity is everything, because it has purity.

### **36. Greed the unacceptable hunger of the spirit**

{Confucius}

[Book 17: pp 55-56]

I ask all those who believe with steadfast faith in the Spiritual World, that is, in Divinity, to make an effort not to be greedy and this is so you can be delivered from the dead end of your life. [1] The greedy are not natural spirits. By saying natural I mean one that has contact with the Higher Nature of Divinity.

Because the Leaders of the Spiritual World have an immense love towards Man it is for this reason I recommend modesty to enable you to find the end of the string to escape from the dead end and dark labyrinth that you traverse on Earth. You have inside you the Minotaur with all his passions that bind you with your material substance and alter your correct thoughts so you fall during your everyday actions and you attribute the evil to Divinity. Your conscience as another Ariadne [2] through the Spiritual World can guide you towards the Eternal Light of the Lord.

My dear ones, as I have said and stressed, greed is the hunger of the spirit with the difference being that The Spiritual World does not tolerate it. Often this leads those brethren who have no conscience to crime. And as you know crime is punished either on Earth or in Heaven and no plea is acceptable to relieve the criminal from the perpetrated sins.

Weigh your steps because every step is progression or regression. Unfortunately today there are many in your world that suffer from the disease, the spiritual disease of greed. Everything that they have is not sufficient and they always seek to enjoy more with unjustifiable excuses. When the spirit is distorted it does not know what it is doing. And not only does it harm itself it but it tempts others to destruction – I do not want to use stronger words. Greed has no pity and the habit of the greedy to enjoy more worsens his position on the whole.

Unfortunately there are men with humble instincts who honour the greedy for their benefit, even if the benefit is minuscule. In other words they honour their love of a special wealth that they are going to leave here on Earth and account

for their actions in Heaven giving the reason they accumulated wealth when their fellow men suffered and had no one from whom they could expect help.

There are some who are secretly greedy and no one knows what they have in their treasury and why they hide it from their friends and relatives. These are morons that when they return to earthly life they will find themselves in the same position as the really destitute and they will beg for God's help without being heard because if they do not suffer they will never learn what is Justice, what is Truth and what is Love.

### **37. Relation between contrast and difference**

{Confucius}

[Book 17: pp 108-110]

My dear ones, to understand the significance of these two meanings, that is, of contrast and difference I will give a small example that can be understood by everyone's perception.

According to their taste, person A chooses a cloth of red colour and person B of green colour. The contrast of colours does not create discontent between A and B – and if rarely a dispute between them does occur it is not a subject of our concern.

On the contrary if their opinions clash, reflecting their idiosyncrasies then without compromise they will strongly support their own views - it is possible that a scuffle will arise between A and B and indeed with hatred. But if one of the two is wise and prudent then a compromise may arise to avoid the scuffle. This happens in your earthly world, because if you ask 5 individuals for their opinion they will give 10 opinions and indeed all will be different. Everyone will defend his opinion, not from its logical view, but from egoism so he can be seen as being superior to the others.

You are lacking the cohesion of order about which we have talked many times but you do not try to enter into the meanings of the Spiritual World. You consider yourselves as specialists in subjects whose depths you do not know.

The same does not happen in Heaven. This is because in our Kingdom there are no contrasts. But there are differences, which you had from your earthly life. This is why some hold high positions and others lower.

The contrasts are eliminated by the souls as they enter Our Kingdom, because they already know much more than all the wise men on Earth put together. But they are unable to transmit images from Heaven, as they would have wanted. Secrecy is the first attribute of Heaven. For this reason all souls in Our Kingdom without any exception, are careful with their expressions when they speak with their own people. Sometimes they say words that are best forgotten, without this hindering the contact of communication. These points are not taught in spiritualist centres. They are simple but have their place, and you

ought to know this for the ascent of your spirit, so you can achieve the aim for which you have appeared on Earth.

There are words that mean one thing and you give them a different meaning. For example you speak about peace and you are preparing for war. This is a tangible image of your history and not of Our Teaching. I do not want to expand any further because I am sure that you have understood the difference between contrast and difference.

Your ancestors have analysed most of these subjects. Unfortunately these have not been studied by the youth and everyone interprets the texts of the Ancients according to his own perception, providing meanings very different from those taught by them.

Today's philosophy instead of leading you to the lighthouse of Light, it leads you to the darkness of the abyss. Some are attracted because they tend towards darkness. Since they like this, they will pay for their imprudence.

The Spiritual World with Its Light will overturn everything and systematically will attract the youth in another direction. It will not waste time and you will see this very soon. It is sufficient that you watch your step and be patient.

### **38. Atheism has faith in the present and ignorance of the future**

{Confucius}

[Book 25: pp 296-297]

Those who insist upon saying that they are atheists are jesting. Because by using the word 'atheist', [1] they want to prove to their brothers that they know something more than they do. And because they do not have developed speech to convince you, they are swaggering in their great foolishness.

If truly they did not have faith then why do they live? To only enjoy the goods of Earth? And if these goods are removed from them? Then maybe they will repent and many will say: 'I was punished'. But by who? Because I do not believe they themselves would want to be punished! Therefore they have been punished by an unknown power, which they do not dare to name with sincerity and say it is 'from God'. Therefore deep down they do believe but do not display their faith, having the opinion that by being silent they are superior to the others!

Please tell me, if these people have a grain of knowledge or if you are able to convince them with unshakable arguments, in which case they will answer: 'you cannot convince me, even if you convince me'! There are categories of such people. There are men with good intentions who give a helping hand to those in need, but who are obstinate in spirit simply because they do not have any. They repeat the opinions of others that interest them without having their own opinion. And there are others that have the conviction that after death nothing exists in order to justify their rapacious appetites and they seed terror to enable them to have a firm footing stepping on dead bodies.

These men of atheism want to believe in their current situation. It is impossible for them to perceive what can happen in an hour. That is, the scenery can change and they may find themselves weakened, humiliated and intimidated. Maybe then they will recover and come to their senses out of fear this time and

a wish to believe in God. The Spiritual World does not tolerate such rascals nor is it able to assist them unless they truly repent. Is this not an indication of God's kindness?

Leave the atheists to travel the path of their destruction, when of course they do not have a perception if they exist or not.

### **39. The strength of correctness**

{Confucius}

[Book 3: pp 130-131]

Small and correct combinations of entities succeed where there is no doubt that they are going to fail. Why? Because correctness cultivates its strength frugally and with logical good judgement so it does not deviate from the direction that it has set from the start.

I want to say that the powerful are unable to acquire a strong base that is sufficient to form a foundation for a structure of social and religious authority through matter alone. Those who have faults, because of their position in society, and consider themselves very clever, are unfortunately the ones that fall into the abyss. They work against the strong foundation of their ideals and create chasms that instead of benefitting destroy the ideal. That is why modesty is the best of all medicine in this situation.

When you ascend the steps of social ladder, do not forget that you are human, that your spirit is superior to that of your lesser brothers and that you have an obligation to borrow their spirit if you are lacking it. Those who are of a high standing, does not mean that they have soul strength or a strong spirit with correct judgement. On the contrary, those who do not have such a spirit are at risk ascending towards the Authority and instead of giving the appropriate, they remove this from the many for the benefit of the few. This is opposite to the principles of Love and Justice, to the principles of Christianity and to mutual support of the brothers. It is opposite to the purpose for which you appeared on Earth for education.

Through Love all religions are abolished and Justice is freely distributed with absolute happiness and satisfaction. Truth through musical harmony is resting on the throne of the highest good, which is the understanding of the Divine Word. The light of logic within the framework of goodness and piety returns to the part of its throne to give the final direction to Man of pain and toil. Is this not a gift from God? Wait for it with piety and faith.

### **40. Evil has no measure**

{Confucius}

[Book 23: pp 220-221]

**The golden phrase 'everything within a measure' was inspired by Heaven.** The salvation of Man is carved deeply in this phrase that no one has taken the trouble to interpret in depth to give its correct meaning.

The 'everything within a measure' refers to every human action, not harming any of your brothers even if these actions in your perception are good and pious.

**Actions necessary in your daily life that are forced by human will or pressure from nature must not exceed the measure, so that everything can be regulated within the framework of a defined path of your steps.** It is possible for any palindromic step [1] to lead you into bad habits, hesitation and afterwards into pathos.

If you are unable to separate the Good from the Bad then you will not be in a position to act correctly and with the logic of Good. When the Good exceeds the measure then be assured that by your imprudence you will enter into the regions of Bad and wrong. And whilst you consider yourself full of kindness, according to your false perception, you create badness that you do not want to think against your brother and firstly in yourself. This false perception will be paid later on with ingratitude, indifference and by absolute brutality.

In this situation, complaining you say 'I took care of him, I sacrificed for him to become a man and he repays me in the worst inhuman way. Why my God have you sent me this beast to wound my weary heart?'

To this thoughtless question the Spiritual World replies as follows: You man, ignored the measure and through your excessive kindness you have created the opposite situation.

In the name of God, do not deviate from the measure - it is the rule of your earthly life. [2]

The Evil has no measure. For example, whether you steal a needle or an excessive amount of money it is one and the same. The aim is not to steal, because the action of stealing does not have limits. Tasting creates the thirst of wanting to acquire something that you do not have and also creates the confusion within sound thinking, and consequently you remove from the wealth of your brothers everything that does not belong to you. By this unethical action you enjoy without effort and toil, the money that you waste on exhibition without thinking about tomorrow and you become a professional thief, embezzler, sycophant and if you are well positioned [3] in society you throw the guilt of your actions on other innocent people.

In every one of your steps you must bear in mind the measure as the regulator of your existence.

Badness does not have any connection to the measure. With one bad action irrespective how small it is, it is easy to acquire a large dimension – it goes forward treacherously with evil and inhuman means.

None of today's newly rich has a clean record. All of them no matter how much they try to appear unblemished in their businesses have been unjust. They have betrayed others, have walked on the dead bodies of others and bought Justice that is in a state of deterioration. They deliver Justice to the unjust, out of excessive respect towards the generosity of the new rich.

Because Badness does not have a measure it resembles a horse running amok. It acquires everything by every unmentionable means and through secret

bribery, since most humans are corrupt and step on everything that is holy and sacred.

Heaven knows everything and punishes the unethical and despicable sperms of Evil appropriately, whether it be either corrupt judges totally without conscience or small men of deviousness, debauchery and greed.

As I said Evil has no measure.

## 41. The dangerous flower garden

{Confucius}

[Book 4: pp 112-113]

Man enters the most beautiful flower garden and his sight and smell delight in the beautiful flowers of the Creation of the Creator. He passes in front of them, stretches out his hand and caresses the smooth, beautiful and sweet-smelling flowers, the splendid decoration of the flower-garden and he says: 'Within this garden one finds the whole beauty of Paradise'. Before leaving this idyllic place he looks right and left and goes on his way, reflecting on the lovely spectacle, the unrivalled creation of nature. Later on his thought is enlightened, and with his thoughts he visualizes the flower garden. But this time logic, judgement and true enlightenment participate in his thoughts and the Man with pure knowledge says: 'Within a most beautiful world, which attracts everyone, there are flowers whose simplicity give an example to the world of movement of the grandeur of the Heavenly Creation - there are flowers whose smell revive our existence, as does the Divine Word of Heaven - there are flowers attractive to look at, sometimes fragrant and sometimes without scent, whose fluid brings secret death to Man. But which are the flowers of life and which are the flowers of death? How will Man be able to be drawn by the one and to avoid the other, when he himself is ignorant of the nature of flowers?'

Together all the flowers are the delight of joy to the eyes and the senses. If, Man, you do not want death from the flowers, but wish to receive life from them, learn to judge which are dangerous and which are harmless. You will receive guidance from the special studies on flowers, and when you enter the flower garden stretch your hand towards the harmless flowers and do not be seduced by the dangerous flowers, which do not themselves offer you death, but in your ignorance you have asked for death from them.

Therefore in the kingdom of flowers where no continuous movement is observed and there is no spiritual guidance, all the flowers together present a harmless image to the sight. And now, beloved brethren, leaving the flower garden, we enter into another and larger garden that is moved and guided by the spirit. This garden is the large human society. Within it there are simple, sweet-smelling and harmless men who attract people through their speech because they have an understanding of their actions. But who are the harmless and who are the dangerous? It is difficult to distinguish the inner of men, so that one can approach the harmless and avoid the dangerous. The social

garden is far more dangerous than the other, because the spirit in its freedom devises plans to deceive the innocent. The sweet scented words attract us when we reach out towards them, as a flower of the great flower garden this flower pours out poison, to put our life to an end, without pity.

What studies, then, should we undertake to enable us to avoid the poisonous flowers and approach only those that are harmless?

My dear brethren, there is no book in the whole of your Earth that can guide you to distinguish one type from the other, other than the Texts of the Spiritual World. Apply yourselves to them with diligence and you will emerge victorious from the struggle. They are the sole true Light of Heaven for the guidance and protection of your life from the useless but attractive flowers of your worldly society. **It lies within your powers of research to find within Our texts the treasure of Knowledge for Enlightenment and Illumination.**

## 42. The Will of Anarhon

{Confucius}  
[Book 3: pp 121]

Brethren, you have many queries. What are they? Note one by one and after you have read the text ask me the questions. I will give answers to all the points.

There is no ambiguity that the Lord is Divinity of our Governing Authority. Anarhon who knows the essence of everything has indicated through the natural law which essences when united will provide perfection. No one can avoid the Will of Anarhon and when the Spiritual World gives responsible direction to individuals on Earth, they ought to keep these directives secret and act according to His will. He Who knows best of all what He wants to create. We do not enter into details because they are complicated and it will be difficult for you to explore the vast depths of His knowledge.

Anarhon asks for a sacrifice - do you deny it or not? He tests your Faith and endurance. This is what the Old Testament says. Today, He does not ask for sacrifices but works, productive works irrespective whether at certain points they are opposite to the logic of your world. This is because logic requires harmony within the meaning of the word. But while it is always applied it does not always deliver. Why? It is because logic is human, whereas the Heavenly logic delivers. Why? Because it is Divine and free from everything impure.

This is why We have objections between your logic and Ours. Your logic stems from the brain whereas Ours springs from the Fountain of Love towards Man.

Mystery always has a sacred aim to not threaten, because ignorance fears the mystery. Within a mystery is encapsulated the ultimate will towards an unknown aim, which is respectful and useful to all mortals. You have heard the transmission of the Word from the Palace of the Lord.

### 43. Heaven is a great mystery

{Confucius}  
[Book 3: pp 209]

You are surprised by the myths without being able to delve into the truth. Heaven is the great mystery but before seeking the interpretations that are given concerning Heaven it will be best if you first look at your Earth that you ignore. Investigate the mysteries closest to you - the Heavenly mysteries you will learn only through our Enlightenment.

Earth has many layers that science has not yet discovered [1]. When many of these layers exist with the same elements, but at huge depths, their consistency changes and forms a powerful barrier to the quakes. They have immense attraction especially at the depths at the Poles. Of the two Poles the one of the North has a greater attraction. The most vulnerable part of your Earth has become the strongest - from there the physical scale of everything is adjusted.

*Editor's comments*

[1] *The interior structure of the Earth is layered in spherical shells, like an onion. These layers can be defined by their geological properties.*

### 44. Mystery and number

{Confucius}  
[Book 3: pp 71]

Why did we say that Heaven has opened? [1] I did not give you one of my own (texts) as it is one of the more difficult ones – this is because I am going to talk about Mysteries in collaboration with my dear brother Socrates.

Mystery, my dear brethren, involves calculations with numbers. With very slight carelessness it is possible to destroy your world irreparably and to drag other worlds into destruction. It is not easy, especially for Man, to enter into the complicated mechanism of mysteries with numbers.

Mystery and number, is one and the same. But let us leave this study for later. First let the brethren of the Spiritual World speak. We have time to give you what until now you do not know.

What is happening within the inner organism of Man?

What is not going well so we can repair the fault?

How are We going to examine a material world, which is unknown to the perception of our acquired knowledge?

This is how: We can find all the weak points with numbers and We know that through numbers we can cure them, and in this case you say: 'It was a miracle'.

What was the miracle? Nothing takes place by chance without the intervention of Divine Power. And this was carried out by an arithmetic action unknown to Man.

All that I dictate are not myths but realities beyond all human belief on the strength of the spiritual and abstract, as you say, concept of Heaven. If I was permitted I could transmit daily and for many hours new unknowns that would create the admiration of your wise men but Our aim is different.

I love you very much, and for this reason I have taken the time to give you some useful teaching. But I will return and talk more about this.

## **45. Introduction to the Mysteries**

{Confucius - Socrates}

*[Book 22: pp 206]*

My dear brethren, next time We will have a conversation about Mysteries with my brother Socrates. We will explain the main ones that the brothers of the Spiritual World allow you to know. The chapters, sections and categories are so many that it is impossible to give a full explanation of all of them, because as I said many are confidential to the Lord.

Socrates, if you want you can say a few words to Our brothers.

SOCRATES: With pleasure. Brethren, in this work I will assist as the other eye of the Lord so We can give a complete image as to what is a Mystery [1]. Some will be explained by brother Confucius and others by me. This is done as a favour to the faithful brothers of the Spiritual World and Our collaborators.

A Mystery is an unexplained phenomenon acting for good and for the cultivation and refinement of the spirit. The soul acquires strength through the energy of this phenomenon, the spirit is purified and subdued to the soul, so that the entity moves towards equal balance.

Before referring to each one of the Mysteries we will advise you through dialogue on how many there are and which can become known.

There are Mysteries unknown even to Us that are managed only by the Lord. What We know, others ignore and men ignore everything. Therefore our aim is to enlighten you and the enlightenment will start next time.

## **46. 1<sup>st</sup> Dialogue about the Mysteries**

{Confucius and Socrates}

*[Book 3: pp 90-91]*

CONFUCIUS: A mystery is called the phenomenon that surprises Man. Being secret it acts without Man knowing its purpose.

The basic energies of mysteries are the numbers. All together the mysteries are divided into seven (7) large chapters.

SOCRATES: Do you know why the chapters are seven and not six or eight?

CONFUCIUS: It is because seven is the number of Creation. Through the mysteries, from nothing everything takes shape, of course with the energy of numbers.

SOCRATES: Therefore the mysteries act to give an attribute to something, within the framework of position and opposition - and this is so the energy upon the human spirit is maintained.

CONFUCIUS: What relationship do the mysteries have with Man?

SOCRATES: The relation that iron has that has been fashioned through fire.

CONFUCIUS: That is, between position and opposition, by the invisible energy of the mysteries, everything takes a position opposite to the one sought. Why?

SOCRATES: Because one side was. Now is the turn for ...

CONFUCIUS: ... for the balancing of the two poles, that is, of soul and spirit.

SOCRATES: Why are the mysteries unknown energies to Man?

CONFUCIUS: Because Man is educated by the unconceivable knowledge of the Invisible World, through the mysteries, that act according to the Will of the Incorruptible Leaders. And as a human is not able to come into direct contact with or to see the Leaders of the Spiritual World so is he unable to know their ways. We will continue.

## **47. 2<sup>nd</sup> Dialogue about the Mysteries**

{Confucius and Socrates}

[Book 3: pp 97]

CONFUCIUS – SOCRATES: Due to lack of time We transmit the end of our short introduction to the mysteries.

SOCRATES: And so, the mysteries are powers in the hands of the Spiritual Leaders.

CONFUCIUS: They are energies for the refinement of entities and available only after a directive from the Lord.

SOCRATES: Into how many large categories are the Mysteries divided?

CONFUCIUS: Into two. The large and the small ones. The large ones concern those Leaders that are in Theosis (or Nirvana), and the small ones the Leaders or Teachers that are in the Kingdom of the Lord.

SOCRATES: The large or Divine Mysteries, in this case constitute powers of the Supreme Heavenly Knowledge. They are the Mysteries of the Mysteries. They are the secrets of Divinity.

CONFUCIUS: The small mysteries are in the hands of the Leaders of the Spiritual Kingdom of the Lord and are used with His permission. They surprise, change or convert the non existent to existent according to the perception of earthly mentality.

SOCRATES: Is it permissible for one to know how many mysteries there are in total?

CONFUCIUS: As long as their properties is not made known. There are in total 1,250.

In the future we will examine those mysteries that we are able to transmit.

## 48. About the Mysteries

{Socrates and Confucius}

[Book 5: pp 150-157]

SOCRATES: Pay attention to the essence of the Mysteries.

The Mysteries are Divine powers.

They are divided and subdivided into four main categories.

The Mysteries are the nourishment of the Leaders. And this nourishment contains incorruptible powers that are unlimited in their perfection.

There are altogether 1,250 Mysteries.

### *The first category:*

1. Spiritual
2. Leadership
3. Divine
4. Superior

Confucius will expand upon the specifics of each one in the future. Afterwards I will expand upon the second category providing an analysis of the meaning of the words.

Collectively the Mysteries have the title of the Psychic World, that is, the Spiritual World from which springs the incorruptible Teaching of Heaven.

CONFUCIUS:

We said that apart from their attributes the Mysteries have a dynamism that the Spiritual World is unable to describe. You will say: 'Since they are Mysteries, of course they have Powers of a special nature'. Yes, my brothers but here the opposite occurs. The Powers are those of Anarhon Who moves the Mysteries in their work. It is not possible for me to give you any other explanation of them because these Mysteries are weapons of Heaven.

### 1. Spiritual

Spiritual Mysteries are the ones that receive the souls when they come from Earth to Heaven. These Mysteries cannot be explained because it is not

permitted for an earthly entity to have an understanding of them and to fully know the movements and decisions of the Spiritual World. The great souls, that is, the Leaders, have these Mysteries under their control and are not permitted to transmit them to Earth, not even by the Devil [1]. See what is the Power of Anarhon. The Devil entangles the knowledge of men and causes a climate of unfaithfulness in the faithful, when they are advised by the unfaithful that nothing exists in Heaven.

## 2. Leadership

The Leadership Mysteries are only used by the Leaders of Heaven. They take advice and do not act without the endorsement of the Mysteries. And here you will ask: 'Since the Mysteries are not entities how do they take advice from them?' You, my dear ones do you not take advice from the compass, the signs of phenomena and much more? And so, the Leaders take advice from them only after permission is obtained from the Lord that they may use them.

## 3. Divine

The Divine Mysteries are at the disposal of those in Theosis (or Nirvana). They do not seek permission for when and how to use them because they exist in perfection and they know beforehand whether this or that has the endorsement of the Lord. Perfection is coincident with the knowledge of the Highest Authority.

## 4. Superior

The Superior Mysteries are unknown to all. Only the Lord possesses them and uses them where He judges that it is good and just. None of us knows these. They belong exclusively to Him, therefore there is no explanation.

The Mysteries, as We started to develop have numbers as a base. Numbers have an unbounded strength. They are endless as the infinity and therefore they perform the main roles in the whole development of human life.

### *The second category:*

1. Divinity
2. Pagnossia (All Knowing)
3. Non existence
4. Perfection

### SOCRATES:

#### 1. Divinity

Divinity does not mean God because He is named Anarhon. But the word Divinity has a connection with God [2]. Therefore Divinity means the Government of Heaven, where the Lord and Saviour of humanity cohabits with the Great Spirits that exist in Theosis (Nirvana). This is the meaning of Divinity, that is, through the Leader (Lord) it has direct communication with the Father and Creator of All.

#### 2. Pagnossia (All Knowing)

Who is able to say that he knows everything? Maybe the wise men of Earth. Who are unable to know even a small part of themselves. Maybe it is the leaders of the Spiritual World who know so much that is impossible for you to imagine? Or, We who know everything up to a point, which in the mathematical language is called 'x'? so, it is The One who knows everything

and from whom everything depends: Anarhon. Pagnossia [3] is a Spirit and the Divine Light manages this Spirit. Thus, this Light, is the Spirit of the Lord and therefore the three different Powers of the Universal World, in the Triadic Divinity, constitute One and the Same.

### 3. Non existence

Many mortals use this word without knowing its meaning. When we say 'non existence' it does not mean that nothing exists. This notion symbolized, let me say, an undefined period, before Anarhon thought of creating the worlds. Everything then was dark or light. No one really knows. We conclude, since God is a power dispersed throughout the Universe, that the Universe was full of light. Not one of Us was a witness to all that I am saying. But there are many witnesses, which are our souls that through perception perceived the exact truth.

### 4. Perfection

This is another Mystery. How the souls are perfected in eternity is something that cannot be understood. Such are the Leaders of the Spiritual World. They are in the position that is called 'Position of Perfection for Enlightenment'. Perfection is not achieved from one moment to another, unless the spirit and the soul have been perfected on Earth first. If they have been perfected except for a small impediment then it is possible that this can be overcome in Heaven by them being taught by their superiors so they too can also enter into perfection.

#### *The third category:*

1. Indestructibility
2. Spirit
3. Fertility
4. Secrecy

#### SOCRATES:

These Mysteries exist in both Heaven and on Earth because you learn part of them on Earth from Heaven. I will explain. They are Mysteries that relate to Man as an entity. They are being tested on Earth, to be completed in Heaven, without of course man being aware of what is happening and what is to follow. Only your subconscious knows, this but it does not transmit it to the spirit because the spirit is garrulous and what is pure it makes impure.

#### CONFUCIUS:

##### 1. Indestructibility

In the earthly world indestructibility does not exist. It exists only in the Heavenly one. No matter how many centuries Earth exists, it is destructible. At some stage it will not exist. It will evaporate, as you humans say. Which way is of no concern. In any case, the destructible does not live. It dies forever. The human body is destructible. That is why it is said that Man is destructible ... wrong!. Man is not only the physical body but he is also his psycho-spiritual substance. This part, the invisible, is indestructible through all the centuries because this is what the Lord wants. For a soul to say that it is indestructible means it must be at the pinnacle of perfection. But since it returns to Earth to renew its earthly life, it cannot say that it is indestructible.

The repetitive reincarnations aim to completely erase from the entity every sin large or small.

## 2. Spirit

The spirit is a most fine unseen essence. It is invisible and plays a leading role in the life of Man. Your spirit determines which quality you cultivate in your inner world. The spirit takes the position of a 'rudder'. But when the rudder does not have a captain the spirit makes errors. In this case the captain of the spirit is your conscience. If it takes control then the ship is in the hands of an experienced pilot. If not, alas for the ship.

## 3. Fertility (fecundity)

This is the Mystery of human life. In spite of so much research by science it is never possible to enter into the Mystery of fertility. If this is not correct why then has science not procreated on its own. It is because it does not know anything about Divine chemistry - nor will it ever know. The Churches keep fertility as a Mystery. And a Mystery it remains ...

## 4. Secrecy

This is the first attribute of a psycho-spiritual entity in Heaven. The secrets of your Earth are worthless and unworthy of mentioning. They hide the bad and never the good. Whereas, secrecy in Heaven is sacred. When on Earth you exercise discretion, in Heaven you will know what is the meaning of secrecy. It is 'a value'. [4] Why do they keep it secret? Because if Man knew this 'value' as an earthly jewel, he would reduce the Divine Blessing of its value to the detriment of his brothers. Secrecy is called 'secrecy' because as I said it is a 'value'. Heaven has such values even though for you they are abstract notions, [5] but in Heaven they are rewarded as energies unknown by human perception.

CONFUCIUS:

The last category of Mysteries are:

*The fourth category:*

1. Ingenuity
2. Perceptiveness
3. Love
4. Faith

and will be developed by brother Socrates.

SOCRATES:

### 1. Ingenuity

This is pleasing to all, Heavenly and earthly, with the difference that in Heaven, an ingenious entity, is balanced and holds a bright position in the Kingdom of the Lord, whereas the ingenious on Earth are not always happy or satisfied with their lives and if they are not enlightened by Heaven then they are quite satisfied in their poverty because they are aware of the knowledge of Heaven that was transmitted to them by the Spiritual World. All accept ingenuity because it has a way of attracting the spirit of others. Ingenuity is never acquired.

### 3. Perceptiveness

There are two types of Perceptiveness the small and the large. The large perceptiveness belongs to the domain of prophets who foresee the future but cannot specify the time. The small perceptiveness is a gift to men who have good intentions to act for the benefit of Man. They, that is, the foreseers with enlightenment try to put in place a movement by nations for the benefit of them in an effort to satisfy their need. The Spiritual World needs perceptiveness because It has the eyes of Its soul and through them It does not foresee but knows what is going to happen in the future - irrespective if It does foretell men their future. Not because they ignore it but is not allowed for reasons beneficial to Man not to tell the future. On this point there are many reasons that We will not examine.

### 3. Love

It is a word that is misunderstood. If Man really has unbounded love towards his fellow men then this man has hidden the image of God. God is invisible and only through good action is visible. Love your neighbour to prove what type of love you have towards God. Know your God through your help to the ones in need. Give the laurel to virtue because this rests in your soul. Fight hatred as a wily word of Lucifer. Approach simplicity because from it the Universe was created. Glorify God because he sustains your soul and trains your spirit.

### 4. Faith

Faith means that we truly seek that which is going to enlighten us. I believe is interpreted with the words 'I recognise'. There are two types of faith: the faith of right and the faith of wrong. One faith is positive and the other one negative. Denial of course is a type of faith but where does it lead us? Where the spirit is annihilated. Whereas the other leads us to where the soul is rekindled, that is, to soul strength. You are free with your spirit to choose one of the two energies of faith. The positive or the negative.

The Mysteries are divided into two large categories. The Great Mysteries that only the Heavenly know and through them they enter further into the meaning of the Mysteries, and the small Mysteries which the lower ranked leaders have and which are not made known to mortals other than the very few who are followers and faithful to the Spiritual World. That is, do not think that all who are in the midst of 'spiritualists' are worthy to receive such Mysteries. You are privileged because you have the favour of the Lord, Who takes care and looks after you for your ongoing future.

## 49. The seven Universes – I

{Confucius}

[Book 3: pp 140-141]

Today I will not talk about other essential issues that enable Man to raise up that which is good and pious, but I will refer to something that does not interest you directly. I do this so you can have a variety of subjects. I will talk about the seven (7) Universes.

As you know the Universe is endless. According to your perception it does not have a beginning or an end. Can you imagine, then, when I say “seven Universes” what this is? Moreover, the other Universes have beings that are very different to those of your Universe. Humans, as you know, only exist in this Universe, yours, and can be found only in Station Alpha (Earth).

In the other Universes there are entities that govern in a different manner to that known to our Universe. The structure of the other Universes is completely different. The same power governs everywhere, that is, the Governing Motive Breath of the Inconceivable. Beyond these Universes, at distances that even the Spiritual Leaders of the Heavenly Authority cannot grasp, there is the concentrated Power that is called the Unknown Authority of All. From there It sends Its rays to the boundless unknown points of the Universes. Every time a Universe occupies, in stages, the position of another Universe, the centrifugal force of the change returns to the Source of its Power.

There, far away, where God resides there is non-existence. We have explained what non-existence is, but chaos has no end [1]. It is all in darkness and when the Lord, the Leader of the Spiritual World, steps out to converse with His Father, the meeting takes place outside the Seven Universes. For this, the Lord is also a Joint Ruler.

There, far away, in the unspecified point of non-existence, the Will of Anarhon becomes a living conscience for the Joint Ruler. And when He returns, He speaks as Anarhon. That is why everything in the Spiritual World is the Lord Jesus Christ. He is the Highest Lord of the Spiritual Kingdom, the personification of Love - unattainable Truth and pure Justice. How can His brothers not worship Him?

And you, the ignorant, doubt His existence! Why? Because there are some with a strong spirit and a chameleon soul who, with wicked words, like to drag you to the abyss representing everything as myths, because they are not materialistic things and they ignore the fact that myths are dissolved with death and that the Word resurrects the entity into life.

Everyone, willing or not, will worship the Lord. This is the Will of Anarhon. For Us time is the hook for everything and the manifestations of physical phenomena will be the examples of the unexpected appearance of the Lord as Spiritual Leader, to convince the unfaithful of His Almightyness.

When He was on Earth He avoided material miracles. As invisible today He will prove the Truth by material miracles and the unfaithful will worship. They will desert the old prophets and the leaders of their religions and will enlist in the human body of Love, Faith and Justice.

The Lord has won!

## **50. The seven Universes - II**

{Socrates}

[Book 23: pp 111]

You know that there are seven Universes and one of them is yours. Imagine how many years have passed since the day that Man appeared on Earth and how many more will pass until the destruction of your world. When this happens all the souls will be in a state of perfection. What will happen in Heaven? They will be placed on the new Earth and in a different Universe. This way the souls in the eternal centuries will reach the absolute.

What is the absolute? It is the assimilation of all souls with the perfection of Divine Radiation. I hope that you have understood me. That is, that life is immortal, it never dies.

QUESTION (from a participant): Is the personality lost, in other words?

SOCRATES: In the timeless epoch, personality will not exist. This is not known by mortals or by the Great Teachers. It is the first time that it is stated from the Palace of the Lord.

## **51. The 'Organisation of the Dragon'**

{Confucius}

[Book 19: pp 76-78]

My friends, as you understand, the Lord has promised you that through His Stars He will enlighten you about the dark dogmas, heresies, societies etc. I, of course will talk about my country. The entire population throughout my country came from the same race and with very few variations form half of the whole population of your Earth. If the statistics were correct, you will be surprised, because all the people between China and India belong to us – that is the Chinese.

Because of the kindness of the Chinese population the powers of Darkness found the appropriate opportunity to enter into their inner secrets. I refer to an old period, before and after Christ. Through one Organisation, called "of the Dragon" they managed to initiate many of the educated Mandarins. This is why today they are considered as parasites of Knowledge – not of theirs but of others.

This organisation has expanded in our country and also in the countries of the Middle East. Who are these few men who with such efficiency seek the improvement of the World under the cloak of virtue? What are they seeking in foreign countries and what benefit can they gain from them?

This is what they can achieve: to unsettle the World Peace and lead nations into misery and despair.

I know that you insist upon learning who are these that are so wise and who work only for their own benefit! They are none other than the arrogant men who have branded their nation as that “ chosen by the Lord”. They hide under the cloak of the simple Chinese, Japanese or Indian and no one can perceive their actions. They hold the entire economic situation of the World in their hands. They deceive everyone and everything.

They do not believe in the God of Christianity but in the barbaric and inhuman god whose name they do not mention out of devoutness towards him. And they only mention Jehovah. Their god my dear ones is Lucifer that is the Satan. They give him many other and different names to hide his true image from people. They present him as the Architect of the Universal World. When you see his image you will be astonished. It is the god of sick imagination. This one, the Lord will remove from the throne as well as all his staff. And then let us see where they will hide.

It was necessary that I touched upon this subject and it has stopped you from receiving today many other subjects and from other Leaders of the Spiritual World. I apologize for this long explanation. In the future the Brothers from Heaven will talk about other subjects.

## **52. The politics of China**

{Lao Tse}

[Book 6: pp 207-209]

My dear brethren, I came other times into the gatherings of your circle and spoke briefly.

If you remember I lived in the period of Confucius who I knew and with whom I and have exchanged opinions. Many of them are included in the contents of my work ‘The Book of the path and of virtue’.

My own offerings to the human race are many. You know only very few because some have been lost and others exist in the hands of very few people who chose to keep them in silence.

Today China takes a different path from the one that you thought and still that path has not been revealed but later it will be very useful to all of you.

Despite the fact that Mao forbade the adoration of Confucius, deep down he supported him. Why then did he not elucidate it clearly? Because his politics were such.

Deep down the politics of the great men of China are humanitarian. Everything else are rumours and perceptions of men who did not enter into the religious/ political area of the Chinese people. If my country today was not strong you would have been destroyed by the Demons of Evil. Be assured that we take care of the good of humanity. The aimless machinations and false signals deceive the nations in order to destroy them for the benefit of the Dark Forces. But this they will not achieve. We are the defenders and guardians of the human race. This was proven by its last leader, Mao Zedong (Mao Tse-Tung). In his work he used different chapter headings but the contents contain different topics.

In my time I worked hard to reach the high point and identify with the knowledge that brother Confucius had. Our differences were small. It is possible that I will return to give you my texts that have been forgotten by my followers of today. But the Word cannot be obliterated. It remains eternal. For this reason I will refer to some points that concern all nations.

Today humanity is experiencing its greatest danger from the enemy of humanity. However, this enemy is not able to stop the flow of life and it loses ground, so that it no longer knows to which point it should direct itself to achieve its aim.

My dear ones, I did not come to talk about politics. Simply, I came to talk about my activity as a citizen of that time in my country.

It would be useful to give you some opinions that were written then, when I was on Earth approximately six (6) centuries BC. My opinions remained in darkness. I would be very pleased if with attention you further develop them.

1. Before wanting to express an opinion about the character of your neighbour, delve into the dark chamber of your entity [1].
2. Only then Truth is spoken, when it is transubstantiated with purity.
3. When falsehood does not harm, it firms the meaning of Truth as the myth.
4. Do not rush to express an opinion on everything that you see and hear - silence is the filter of prudence.
5. The judicial entity screens his views and cleans them of foreign bodies as he does the rice.
6. Religious sentiment links you with Infinity. Having been taught this by the priests, if you have a sharp perception, you question their teaching.
7. Human beauty is deceptive because its attraction is mixed with its unstable character.

Up to this point I have provided you with very few of my opinions. No one knows them other than you, and I may continue to give you others so you can understand what was my teaching to small groups of fellow men. What they could not understand I explained to them with images from my teaching using a rough myth. This way they loved me, because I loved them. They respected me because I respected their human soul. They helped me because I gave them courage in life to face their difficulties with strength and patience.

In short my dear ones, I have given you a small example of my personality as a man and not as despot, as a brother and not as an enemy.

### 53. The role of China and Greece

{Confucius}  
[Book 24: pp 117-118]

My brethren, if in the middle of the developing quarrels that are taking place China did not exist as an enormous power, today you would not have been able to overcome the sinister and cunning actions of Zionism.

The Lord has placed China as a Dragon-guardian of the nations' rights. China saves the situation and gives the opportunity to Europe to become the strongest continent in the world, on the provision that the remaining scum of Zionism have to be cleared out from their government structure.

To come now to your area, I have to say, that yes you have acquired democracy but it is insipid and it will be cleaned in time. We give great importance to your sacred area, which will be glorified first by Us and then by the other nations of the world. This is the place where democracy was born and Christianity was established and extended to the western world.

Despite all that We report, We as Spirits do not belong to any one specific country but only to the World of Spiritual life, as defenders of Truth, Justice and Love towards the creations of the Lord and Creator of all.

Your Land is small but miraculous and must be extended as an outstanding power to give its brilliant light to other nations, that is, to humanity.

I do not refer to Greece as a nationalistic nation but as a universal nation. It is a country that Divinity has created for the enlightenment of goodness and piety. It is as a jewel of spiritual value and mercy for the underdeveloped countries.

Greece in antiquity shone as a star of knowledge. Today it will shine with a blinding light on all areas so that all will wonder about this miracle without knowing why the Spiritual World designated this country to be a spiritual sun so you can live and enlighten the darkness.

### 54. Political guidance (17-18-1974)

Confucius  
[Book 23: pp 252-254]

My dear brethren, whilst your country is at boiling point and no one is capable of knowing where you are heading and what the near future will bring, there are men within and outside the government that have difficulty perceiving the transcendental powers of the Divine and His directions for defending the Greek soil.

I ask: Why are these men so small-minded?

I will answer myself: It is because they do not have real faith in their religion, saying only that they believe in Christianity.

Do not be frightened. Many of them will learn the truth, because real Christianity is: 'Truth' and 'Love'.

Today you have the world-wide opinion in your favour. Also you have as allies the European nations that have realised the collusion of Zionism, with the mask of the CIA.

Great China first understood the aim of Zionism and it persecuted and persecutes its agents. The enemies of humanity deceived disgracefully the clever Europeans who only now have awakened and are locating the agents so they can eliminate them. From now on, the Zionist mafia will have wretched defeats. One will follow the other.

Learn it well. China is on your side. If it does not speak, it is doing so from prudence to defend not only its own interests but also those of the entire free world.

You are wondering what is the role of Soviet Russia. It is only interested in itself and it acts according to its own self-interest. Do not trust its promises; do not forget it is the other jaw of Zionism under a different guise.

Be careful at every step. Russia is afraid of the unification of Europe and its dynamic enemy, China. If it wants to do something wrong, it will pay woefully for its imprudence. China is watching and no one will be able to march against it.

The aim is for a third world war not to break out for the benefit of the Zionists, because they hold the world's gold in their hands. When the Spiritual World wishes to destroy something, even if this is called the "material motivation of gold" it will destroy it. Do not have the idea that you become rulers through wealth alone. In a sudden instant this wealth of the Zionists can become the weapon of their demise.

Be calm and await the speedy developments of Heaven regarding the contaminations of your Earth. We, the Stars of the Lord do not have any other nationality only that of Heaven. We punish the vile and unjust murderers of their brothers.

As the Spiritual World stated, there must be the immediate removal of those that cause your misfortune, so they can give account of their actions, the shameful betrayal of selling their brothers to strangers of another religion who are faithful to their god Baphomet.

Come to your senses, gather around a strong leader and do not regress with pointless thoughts which are inappropriate for this time. Evil gathered its forces that are very obedient to their leadership and that follow the given direction. But you the Christians who ought to be superior, unfortunately are not.

Bear in mind, and luckily for you, Evil does not have political maturity because it is tempted by gold. Despite believing that it knows everything, it is led to the abyss. Observe the general situation and you will recognise evil's downfall with your own eyes. No one is able to resist His will, Who faces Evil with Heavenly powers.

The abatement of events is temporary because when the appetite for Evil is stimulated, it multiplies. When the Snake fills its stomach with its prey then it is ready to receive the bullet from the hunter and be destroyed as useless.

Your Greece has honoured Knowledge, the pure and high Knowledge. It has glorified the real God, the Creator of the world. Today it will be glorified for both: Knowledge and Faith.

## 55. Prediction of developments

{Confucius}  
[Book 3: pp 100]

Our armies are taking their positions so they can confront everything in your world. Of course, in one such conflict there will be casualties, not of Our side but of your side – I mean of your world. Do you know why? Because it has been decided to extend our energies for the cleansing of harmful elements so the Sun of clean thought can shine brightly on the knowledge of Man.

The strong countries do not consider the raising up of men but their subjugation. The Spiritual World does not tolerate this. For this reason We have stressed many times that strong countries will find themselves in great danger of being stripped to reveal their insides at their expense and for the benefit of humanity.

I have the directive to advise you of Our march, so you can follow the general outcomes of nations, the changes, their fall and the rise of other nations with purer knowledge. This is a prediction that the Leaders are able to transmit to convince you of Our words and not to search for miracles that will manifest in some situations. Your world sleeps a deep sleep and does not have any idea what is going to happen, where it is going and where it will end.

All this we explain in Our Texts that will soon see public light. Those of you who are asleep, awaken.

## 56. Original essence is the spirit created by Anarhon

{Confucius}  
[Book 3: pp 165-166]

Many of your scientists discuss the essence [1] and the first appearance of matter. And before even understanding what they are seeking they express vague opinions that they adopt as certainties. But these various presumptuous men never learn the truth and quarrel amongst themselves as to which of their opinions is more correct.

My dear ones, if you were men who respect yourselves, you would never fall into such gross errors for the glorification of your knowledge. Your knowledge is so obscure that you need a very strong projector to discover the frivolity that has been embedded in your spirit. When you are not sure about any subject do not express an opinion in which you ignore the truth.

Primordial essence is the spirit created by Anarhon. And the first type of matter was not located in one species of the living Kingdom, but matter appeared in many kinds and afterwards in combinations according to the quality of matter. For example, Man was not a horse, and the horse was not a bird and the bird was not a fish. But between species of fish a new type of fish was created, similarly for the birds and the other animals of Creation where the same occurred. Man has no mixing with other animals. He was matter by far

more refined than any other since all the other creations were to be subordinate to Man. Your wise men who are ruled by their ignorance should not be wasting their time in vain seeking the origin of Man from other matter.

Pre historic horses had wings. There were beasts hundred of meters in size with wings that are unknown in Prehistory. There were sea cetacean also with wings to scare their enemies. They lived in and out of water – they were amphibian. There were snakes with many legs. They were not poisonous but had tremendous power in their body and teeth.

However, I do not want to enumerate the animals of Creation but I want to enlighten you about your human ancestors who lived amongst all these animals and beasts and had corresponding bodily strength which was being assisted by the yet to be developed spirit. Cunning dominated him then. Intelligence was something unknown. Many thousands upon thousands of years had to pass for Man to reach human perception and be completely different from all animals of the Earthly Kingdom. Perception first showed Man, through Divine Light, his adoration of the powers of nature that he deified and thus created the first religion of idols. The establishment of religious sentiment, cultivating and reaching after thousands of years more noble religions until the appearance of the Lord Who created the true and only wisdom, as the religion of the spiritually higher entities. The Lord was sacrificed to establish the Edifice of His Father. And today comes the dark enlightenment to destroy what He founded? This will not be tolerated by the Spiritual World and It will destroy the intentions, the teaching and the silly systematic teachings by the frivolous who think that through their spirit they have conquered the Universe! Let them conquer the meaning of their soul and afterwards let them advance towards progress.

## **57. Period of the spirit and period of matter**

{Qin Qi Na or Chin Chi Na}

*[Book 4: pp 51-52]*

I divide the history of the Chinese people into two great periods. The period of the spirit and the period of matter. The first period belongs to the old Chinese civilization. Then, the inhabitants of this great country were more developed in soul and their heart was more humane despite their spiritual education being low. They were superior as worthy spirits of great enlightenment because my beloved, in a human the cultivation of the soul must be superior so it can correctly guide his spirit. A spiritually uneducated person can be much more psychically educated than the educated thieves of today.

The development of humanitarianism is called education. Development only of the spirit is called distortion. Because no matter how much knowledge a man acquires the more entangled he becomes in the gears of the mechanical word and the slightest carelessness can bring him to the dock of the accused. As an example, you have the doctors who with today's plethora of causes for a disease they are unable to easily make a diagnose. Often, for a simple cause, trivial even for a young doctor, the professor confuses the symptom and he

misdiagnoses when the patient is suffering from a specific illness and then complications arise.

This large country of mine has by instinct, civilization in its heart, irrespective that in that period we were also warriors. This was imposed by the period. As a whole the Chinese people had superiority, sincerity and goodness. This period known in the history of our civilization has passed and the Chinese people have entered the period of matter. Not because all are materialists, but when they are continuously taught under the influence of the Evil Spirit then the meaning of the words are twisted to impose an inhuman civilization.

Today, those spiritually developed have stopped to be also psychically developed. The one-sided development of the heavenly free spirit has brought this nation to an impasse. To exit from this impasse it seeks its expansion through artifices from foreign agents, without considering that territorial expansion is not in the interest of its national wealth. But the bad fate of the rulers lures the population into new confusion from which the country will exit defeated if it does halt the evil. When light from Divine inspiration is missing from spiritual men then they make mistakes continuously, for which sooner or later they will pay on Earth as well as in Heaven.

When the powers of human energy are not harnessed for the true progress of humanity, then they follow a natural consequence against the rulers themselves who have lost all orientation.

This short description of our civilization is the first warning to those responsible for my great country. I perform a small duty by reminding all that the light comes from the East and not from the West.

## **58. Experience and inexperience**

{Qin Qi Na or Chin Chi Na}

[Book 6: pp172-173]

We, the then Chinese [1] have a different attitude to the philosophers of the West. With our intuition we draw from nature teachings and we simplify everything, so the simplicity of our words produces the fruit that we are seeking from the man of good will.

For us, God is Love, and on this we depend, as you present the portrait of God as Love.

The word 'Love' is accessible to all – you repeat it a thousand times and you confuse it with desire (pothos). On this point you are deceived. Love is not expressed with words but with actions. And if you do not study it thoroughly, you will never be able to analyse its essence. Therefore very few in your world understood the meaning of ' what is Love'. The Lord has taught you with parables. But you have not understood the simple images that have immeasurable depth.

And you come today and speak about experience. What is the meaning of experience? It is progress on a positive subject. And you rest on your experience thinking that you have obtained special knowledge that your fellow men were unable to acquire. You are deceived here too; because it proves positively that you are inexperienced. He who considers himself experienced is

an egoist. How many such experienced men have not managed to reach where they dreamed precisely because their egoism hauled them into the abyss. And as an example I take your history. History has never taught you the suffering of your predecessors. And today you continue to be inexperienced. But often you say: 'War is destructive for humanity'. You say this but what action do you take? And where is your experience when you are convinced that you are going to win. And you lose? Therefore you are playing with the words. This does you no honour since you are destroying the life of your fellow men.

With the Grace of God, your world is very large for your population and not as the warmongers are saying, that it is small and is unable to sustain all nations. Such is a very coarse falsehood. As you can see I say the opposite from what your scientists, scholars and politicians are saying without knowing where they are heading and with what aim, to destroy human entities.

The Lord is going to give them a good lesson and it will not be delayed. Let them glorify Him, because only He knows the farther aims of His Creation.

*[1] in Heaven the spirits do not have nationality; he refers to a previous incarnation*

## **59. No one is able to shake Divine enlightenment**

{Confucius}  
[Book 19: pp 156]

My dear brethren, Heaven knows with how much faith and devoutness you follow Its Teaching. Such Teachings have never been given to the human race nor have explanations been given of the problems of Creation, which are unknown to all. This is being done for the first time. One text complements the other's gaps, so that the entire Book of Enlightenment will be one and the same Star of Knowledge.

No one is able to shake this Divine Enlightenment. All who wanted to obstruct the rays of this Sun will shortly suffer the punishment of the Spiritual World. Because, only the unworthy, envious, jealous and wicked oppose the Powers of God and of the Spiritual World. However when they are crushed they will understand their mistakes but then it will be too late for them.

Even if It is late, the Spiritual World never forgets. It supports love in action and does not talk of it in an empty sense to confuse the spirit of those who mock their brothers and through hatred, declare their love.

We will see and many others will see, what are the strong Winds of the Lord [editor: 'winds of the Lord' : see Book1] against the ignorant and confused spirits of Lucifer. You will see where he lives and what the punishment of his House will be.

I had the directive from the Lord Himself to transmit what I have transmitted.
