

## ***5. Spiritual Medicine - I***

***Asclepius visiting Hippocrates in Kos***

## Preamble

The Spiritualist Society of Athens “The Divine Light” published two books that primarily contain teaching by Hippocrates [20] and [21]. I have translated excerpts from these two books and have added some teachings by Homer from [10]. All the teachings relate to medicine and the medical profession. Because of the large number of topics I have divided them into three monographs (Monographs 5, 6 and 7) that group together selected medical areas. The Greek texts are given in chronological order, whereas the monographs are groupings of topics. In the monographs, I have provided the reference as well as the day/date that the Teaching was delivered

Hippocrates, the greatest of all earthly physicians is the head of a spiritual group of doctors that the Lord Jesus Christ has created.

It has to be stressed that the early scientists wrongly coined the term psychiatry and psychiatric illness. A clarification of this mistranslation is given in the monographs and the importance of looking after our bodies is explained.

From 1970 until the completion of the Teachings, the Spiritualist Society of Athens ran a “therapeutic branch” where many sufferers attended and sought advice regarding their illnesses. Some of the dialogues between patients and Spiritual Teachers are given in the Greek texts, but I have omitted them.

The Spiritualist Society of Athens “The Divine Light” is currently translating into English the two above-mentioned volumes. Further information is available from their website [www.divinelight.org.gr](http://www.divinelight.org.gr).

This series of monographs complements the four books in the series “The Purpose of Earthly Life” which can be downloaded free from the website [www.divinepharos.org](http://www.divinepharos.org).

### The two sacred professions

HIPPOCRATES: It is characteristic of men and especially doctors to define an illness based on their diagnosis and then to proceed either to cure the patient or to give medications to improve his condition.

But who of you or your doctors is convinced that the diagnosis is correct? Do you know that your doctors' mistakes are immense?

My dear ones, to what do you attribute the doctors' bad diagnoses? Of course you are unable to answer because you are not doctors and you lack the strength to find out exactly whether or not the doctor has made a good diagnosis.

But, you have to do this because the majority of your doctors whether they be professors or not, take on responsibilities to which they are indifferent if they are not convinced that they are going to be rewarded as they would wish. In other words, they have violated their sacred oath and as men of matter they only look after their own personal enrichment, forgetting that they will be held to account and will be held doubly responsible in Heaven.

Both the professions of doctors and priests are going backwards because the flag of Lucifer attracts them. These men – because they do not stop being men – will be **recalled many times**. I am sorry but when they violate the Laws of Anarhon, We are unable to do otherwise.

If I narrate recent events, you will be surprised. It is best for you not to know, and to pray that the Lord will enlighten them so they can perceive their obligations towards their fellow man.

From two hundred (200) clergy, four or five constitute the exception. You can understand their situation. I do not say this, Heaven says it. If they want clarification they should address the Lord. From Him they will receive confirmation.

Today We do not have much time to be able to give you an explanation of the ever increasing poisoning of your atmosphere i.e. where it comes from and what needs to be done. From this poisoning stem many epidemics that in the majority of cases are unknown.

From this point of view, instead of improving the situation of men, unfortunately, it worsens it and you do not know what measures to take because you are blind. You do not see, you do not follow and you do not perceive the evil. But the Spiritual World will intercede so that evil does not totally manifest. We are unable to stand by motionless when your spirit is not functioning well.

### Medicine is a sacred duty

HIPPOCRATES: With your Divine Blessing Lord of Powers I

**Hippocrates of Cos** ( 460-370 BC) – Greek: Ἱπποκράτης; Hippokrates, was an ancient Greek physician and is considered one of the most outstanding figures in the history of medicine. He is considered as the father of western medicine in recognition of his lasting contributions to the field as the founder of the Hippocratic School of medicine. Hippocrates is commonly portrayed as the paragon of the ancient physician. In particular, he is credited with greatly advancing the systematic study of clinical medicine, summing up the medical knowledge of previous schools, and prescribing practices for physicians through the Hippocrates Oath Corpus and other works.

undertake the high responsibilities for the salvation of the human race. But first, I want the world of ignorance (and by this I mean the world of earthly wisdom) to pay particular attention to what I am going to say.

The art of medicine is not only an art, it is primarily a sacred duty. If the doctor does not have the strength to confront illnesses as a hunter, it is better that he follows another profession.

Medicine is directly linked to Divinity. Therefore, self-interest must not intervene.

Medicine is the only one of all the sciences that is sacred. Whoever takes advantage of the poor, of those unable to pay what is due or who benefits from the attraction of women for his pleasure, sins as though he is the worst sinner.

The doctor ought to cure even if he places his life in danger. The doctor needs to be unselfish; not to indulge in all the pleasures of men. He needs to be dispassionate, to seek everything that is beneficial, to persecute all evil and to advise - and also help the sufferer. When these virtues are not applied in practice, the doctor is not a doctor but a merchant of souls. He trades in that which does not belong to him and he will account for it at the Divine Examination.

If today humanity is lacking in the discovery of antidotes, this is due exclusively to the material profit of the said doctor, who despite of his misleading knowledge is unable to act for the benefit of humanity.

I will only help the few and capable, the real doctors of Divine Enlightenment. Only to those, I will give the Light. If some of the rest try to steal this Light, I am obliged by the Divine Authority to render them totally incapable, so they can be destroyed by their own sins.

I thank you Lord for this new strength that from now on will be at the front stage of necessity. Thank you.

**Take care to familiarize yourself**

HIPPOCRATES: When a patient can be cured and the attending doctor does not know how to cure him being unable to fully diagnose him, he should supplicate the Spiritual World and It will direct him and show him the way.

But when the patient needs to follow the path towards Heaven, because it was predestined for his earthly life, then it is impossible for Us to intervene so that We do not violate the Law of Anarhon, Who knows best of all why He recalls a soul that has so many ties to his earthly life.

If you do not study the Heavenly Texts carefully, what benefit will you derive from a pleasant but short life on this earth? When you are recalled, despite your earthly education, you are uneducated in the matters of Heaven and you will not occupy a better position than the

[21:12-13]  
{25 Jan 1973}

one you were hoping for.

Therefore, ensure that in advance you are familiar with the Heavenly Texts so that you may be facilitated with the ascendancy of your soul and occupy a place that is good, pleasant and conducive to this ascendancy.

It is possible for My **Sector** to save one patient who science has condemned to certain death; and It is not possible to give a helping hand to another and save him, because of Higher intervention. Take all this into consideration because you mortals do not believe in the miracles of Heaven and yet you expect miracles from Man. Man is not able to perform miracles, if he does not have Our Enlightenment or Direction.

### Reasons for the illnesses

HIPPOCRATES: My brothers, so you can understand how many of the Spiritual Doctors follow me I will say the following: there are up to five hundred (500). They do not all depend on Me but on the Lord, Who is the Leader of this Kingdom.

I only ask that you not move from your place. No prayers to be said only pay attention to the few words that the Lord, Who this minute is near Me, will say.

THE LORD: My brethren, I created this Sector for your salvation, comfort and rebirth. All work as My Father has indicated.

One of My audience is anxious to know when this Sector of Surprises will operate. It is not wise for an entity that says that it knows the Text of the Spiritual World well to be impatient. The time that you wish for so much will come.

Also, I have not yet handed over this special Power into the hands of the representative of this Divine Speech on Earth. There is a reason for My delay, but it will happen.

You as faithful brothers of this great Circle that is called "Spiritualism", be satisfied with Our Texts that have not been assimilated until now. At least make an effort to do so for your own benefit.

By Divine Grace, I Bless you all, even those who are absent.

HIPPOCRATES: After the short speech by The Lord, as the Leader of the **Brotherhood of Invisible Doctors**, who one day may become visible to the eyes of all of you, I owe it to you to tell you that in many instances this Sector of mine creates miracles and in other instances it may delay in doing so. In very few cases, it is unable to do anything because that is the direction it has been given from the Highest Authority.

It is not the fault of We Doctors if you request something and We

refuse. From Us there is no refusal, only willingness and obedience. Our willingness is dependant upon the Highest Authority Who knows everything and Who delves into the unimaginable depths of the essence of entities, and decides and points out the direction for all.

Some speak unjustly against the Power that has created them. However, even though they understand their faults they are so pressurised by sadness that they repeat the whispers of Evil against the Piety of the Creator. For the Creator to decide something it means that it ought to be done.

When you do not know how Light is created do not try to explain its birth. And when I say "Light" I do not mean the physical light or its mechanism, but the Heavenly, irreproachable, the Truth, and the supernatural.

I hope and I believe that you have understood something from My clear and concise speech.

My dear ones, no matter how bitter pain is in the senses of the body, ethical pain is immensely greater and many times, it drives a person to irrationality. But why does Man suffer the toils of life. It is because he does not have a cultivated spirit to enable him to enter into the depths of reason and repel Evil with optimism and a pious soul.

I say "pious soul" as though a bad one exists. What I mean is the strength of the soul. The weaker it is, the easier it is enslaved by the spirit and due to the spirit, the entity suffers.

Study the text of the **Holy Hierarch John Chrysostom**.

*NOTE: Before the start of the séance a clear-sighted brother saw an Angel of the Lord standing in the corner of the room. It shone so much that it was impossible to face its light. Afterwards the blinding light illuminated the whole room with a silver light.*

HIPPOCRATES: I bless all brethren present or not. The strong lights that have materialised in the inner eye of the brother are visible to entities that have such capabilities.

This Angel is He who presented Himself to the Virgin Mary. This very strong light is for the cleansing of the atmosphere so that the Great Doctors of the Immortal Kingdom are able to enter this room. Other lights are for the strengthening of your bodily weaknesses and others, for directing your spirit to higher levels of knowledge.

There are other lights that cannot be seen even by clear-sighted men because they are coloured. These are sent by Our Doctors and have different properties.

My dear brethren, if men could be involved with the Spiritual World of My Sector from a young age then they would not suffer from any illness. You create the illnesses yourself because you abuse your body. You do not take care of your health by exceeding the measure

**Holy Hierarch John Chrysostom**: for details see monograph No 1: "Ways of living and ways of dying".

in everything that could please you spiritually both visually and materially.

When a thought becomes permanent regarding an issue that concerns you, you become upset when you do not see results. This way, the nerves are stressed externally and because of this, and from the reflection from them, so do the fibres. With the passage of time, this creates a small focal point in the weakest part of your body, the heart, the stomach, the liver etc.

Therefore, a thought can create distress to a person and this distress is reflected in the spleen. Without understanding it, the spleen, to a certain extent, poisons certain parts of its surroundings, mostly the weakest ones. And therefore, by you not paying attention to those small physical discomforts, very slowly the illness increases and could affect the whole body.

That is, you yourself feed the weak parts of your body with pressure from your spirit and when you reach as you say “**now and (for) ever**” it is too late.

At a young age, you never thought to look after your eyes and not abuse your vision. I know many that, by their idiotic decision, read by the moonlight. Do you know what that causes? It causes reduction in your vision. And when you reach an advanced age, you use medications for your eyes that, instead of improving your vision, destroy it. Why? Because you did not think.

It is possible to confine illnesses to a minimum. But who listens and believes the directions of the Spiritual World? All, when they reach the last stage, and then out of desperation, seek a helping hand from Us. But there was a precedent that destroyed your hopes of today.

Despite the obstacles that are created, We as sleepless guards of Our Love towards Man take advantage of every opportunity to help you where no one else can.

You could ask: “You, as Heavenly Lords of the Spiritual World don’t You have the ability to cure us directly since You hold such high positions?”

We have. But many times We find Ourselves in front of universal obstacles, such as the irrevocable Laws of the Lord. And then We supplicate Him so that permission is given for Us to act in accordance with His decision.

I do not want to disappoint those of you who have the unshakeable faith that it is possible for you to be cured by special healers from **distant lands**. You should know well that the percentage of those cured is not very high, despite what they say and advertise. These men have a strength that helps them in their work - up to a point.

I say all this so that you are not disappointed if you do not see an

at the extreme of one’s  
endurance or at the last  
stage.

improvement in your illness. An improvement not from Us but from they who are so famous for their operations that if they are successful, only last for a very short time. Let those already cured confirm this.

But with Faith, Love and total conviction, cast your eyes to He Who is the Greatest Doctor of the body and the soul.

### **The work of the invisible doctors**

PHARAH: My dear brethren, you cannot imagine how much spiritual ascendancy you will have when you follow and assimilate the Heavenly Teachings. There is no obstacle to Our Powers when We want and the Lord permits Us to take action.

You are not able to imagine what resonance the Heavenly Text will have on all men. Even the disbelievers will turn their eyes towards Us, initially from curiosity and afterwards through Faith.

There are very few who understand at first sight the extent of Our Heavenly intervention. In the area of therapeutics, you are at the starting point, because the major manifestations and cures are of the Spiritual World, that is, from the branch that We have called the "**Association of Invisible Doctors**". I say "Association" because in this association there are many of the great scientists of Heaven.

Could We not send special angels to cure your illnesses? No! Because these angels irrespective of how powerful they are do not constitute science, because they have not descended on your Earth. We choose only those that have been **baptised in matter** so that they can know Nature from both sides, the known and the unknown. These Spirits have reached I can say, a relative superiority. They have been taught that which was necessary for their ascent and as specialists in the organism of Man, it is easier for them to intercede and cure the sick.

HIPPOCRATES: The entire Spiritual World has received your thanks to the Lord and His whole Advisory Council and He blesses you. Also you have the blessings of the Virgin Mary who is the first to be heard by the Lord. Do not forget this.

My dear brethren, the work of the Invisible Doctors is the greatest Work in Heaven. This **year** We made a small start. Even though your medium does not want to continue with this branch, We insist because We have not yet given examples that you will see and not believe. I wonder why your medium wants to avoid these cures. He himself has no responsibility when We undertake a cure. What is he afraid of? We will help him with this work because it is the most sacred of all.

Dear medium, when Man really loves his fellow man he does not show this through material offering but only through Divinity through which he cures the body and the spirit. The Lord did this. Why don't you imitate the directions of He Who protects you even by a very

small amount. Do not pay attention to the empty words of great speakers who are knowledgeable about a small physical power and have the impression that they control Knowledge. They are the smallest of them all. The Lord did not sell spirit, neither did He come to your world to talk about philosophy but about the Divine Kingdom. And from this Kingdom through Us the faithful of this circle are taught. Therefore, you ought to be obedient to Heaven's request, so that We can have you under the protection of the Divine Light.

### **Illnesses are gifts from Evil**

HIPPOCRATES: My dear ones, illnesses are necessary for the human race. It is a means of punishment and expiation. When the majority of men become faithful and apply love in practice then a large percentage of these illnesses will be eliminated.

---

[20:26-29]  
{3 Jan 1965}

They are all a result of gifts from the Evil Daemon.

Men do not all have the same idiosyncrasy. The susceptible parts of each human body are by nature different. For this reason your doctor does not examine the whole body to cure the individual part but examines the individual part as a whole.

Pharmaceutical conglomerates manufacture an infinite number of medications directed at the whole; and this is Man's big mistake. This is because ninety percent (90%) of the standard medications do harm and create new cases of decline in the organism, as side effects, with different symptoms that deceive the doctors.

Pharmaceutical companies are enriched to the detriment of the whole. Many medications are useless. The drug specialists abuse their knowledge that spreads illnesses causing them to increase by a large percentage.

If we take ten persons with the same illness-A and examine them in detail we will perceive that each person is a special case. One may have a weakened heart that cannot be perceived by the doctor even with an electrocardiogram. The other may have insufficient red cells, the other damage of the epigastrium or bad functioning of the kidneys, the stomach etc. By making an incorrect diagnosis and administering the same medication, none of the ten sufferers can be cured because the doctor only found they all have illness-A.

As the chemical drug industry progresses, the wealth of the companies grows while the illnesses increase. To be appraised of what is happening cast an eye upon the hospitals of various countries.

If I give useful prescriptions to the sufferers, these will be rejected as non-scientific. Why? Because they are going to be rejected based on the vast knowledge of your scientists!

But if the patient follows My advice and is cured, very quickly he will ignore that he owes the cure to the Divine Authority that he considers

as being unable to intervene at the stage where your science has reached through much labour and toil. Thus, men think with a confined spirit, whereas We have the freedom to know absolutely everything to do with their liberation and where it should be. For this reason the Lord forbids Us to give any Heavenly prescriptions or advice.

Each illness has its own medication, but where is it found? The specialists seek with their experiments and make small progress with very few products. The efficacious and saving medication is in front of you and it is very simple. Men are not enlightened on this point, otherwise they would have understood that this medication is useful for their health believing with devotion, that while the Lord left free misfortune's gifts, He also left free their antidotes.

Science has undertaken to research the antidote, if there really is such a thing and forgets that the constitution of each person is a different world. This is the vicious circle of the egoists with earthly knowledge.

Who is going to save humanity from the poisons that science manufactures and offers to men with the intent of saving them, when in fact they are being used as guineapigs?

Which man dares to speak against the wise people of science when they have the power of the ruling authority of their nation as a defensive wall.

To whom can Man turn and from whom can he seek a helping hand?

From religion? From the clergy who repeat the standard obligations of Man without the hierophants carrying out their own duties or from those who teach what they do not believe. Therefore, this hope is in vain.

Where is the Strength of the Lord? In which direction should they turn to find His path?

Brethren, turn towards the Faith in the Lord and ignore all the comedians. Ask only from Him Divine Enlightenment for your needs. He will not neglect to send you the Light of Truth to soothe your pains and the indispositions of your ills.

If science first turned its eyes towards the Invisible World of the Lord's Kingdom, it would have received first the Light of true knowledge. But as We said, egoism has blinded their knowledge and in the progress of science, progress to premature death cannot be defeated even when the patient has the ability to live. This simple point about life is ignored by the great minds and by the time they do perceive it, it is going to be too late for them and for their brethren.

Open your eyes and sharpen your spirit with the heart of Man and not of misanthropists. Do not seek the inglorious glory but that which is

unseen and glorious, so you can give to Caesar what is Caesar's and to God what is God's.

---

### **Consequences of Evil's catechism**

HIPPOCRATES: There is no greater pain for Man, than when he is disobedient and permits his spirit to be taught by the strange spirits of perverse men.

The Evil Daemon teaches. But you who know something about the Spiritual World and Divinity that permeate everything, why do you let yourself be taught by Evil?

When your spirit is full of Evil's catechisms then be assured that his teaching will have an influence not only on your spirit but also on your body's health. This is because the bad advice, the bad directions and their consequences, create confusion in your spirit. And if this is weak, then their reflections act on your entity and create many pressures on your organism. And from your spirit pressure, focal points are created that can bring you to an impasse. If you wish to exit from this impasse, you cannot, without an escape route.

And I ask, who is at fault when you do not know how to repel this Evil's wicked knowledge that tempts you, without you acquiring spiritual, ethical, psychic, and bodily strength from it?

One could say "Is it possible that a person can depend on one catechism either good or bad?" And I reply: of course. An entity can be influenced, especially if it does not have a strong spirit and is attracted by the teachings of the Evil Spirit.

My brethren, if you are amongst such rotten teachings try to avoid their messages, so that with a clear conscience you can gain soul strength and distance Evil.

I do not speak of the three or four persons that are amongst the brethren, but of all of you, that have the opinion that with your strength you are able to oppose Evil. That is, the Evil which appears when you do not expect it. And you say: "How is it possible to suffer from this?" It is possible because you left the door to your spirit open so that the teaching of Evil can enter.

If you have any judgement, with observation, you will find where Evil is lurking and who is the one who transmits it with his speech. And then if you have Faith, strength and determination, act appropriately so you can repel it and be liberated from the ills that you have which may multiply if you do not react immediately and always with the help of the Spiritual World.

---

### **Observation, a great asset of doctors**

HIPPOCRATES: Together with the blessings of the Spiritual World, accept My blessings, so through this means I can help all the brethren.

---

[21:57-58]  
{1 Nov 1973}

---

[21:60-61]  
{15 Nov 1973}

My dear ones, today I will refer to an incident that occurred during My life in **Kos**. It is unimportant but through it I want to conclude that observation is a major asset for a doctor.

**Kos:** *The Greek island where Hippocrates lived.*

One day an old man appeared leading a donkey with his son sitting on it.

“Doctor”, he said “I have brought this young man so you can examine him. He was eating meat insatiably and it looks like a small bone became stuck in his throat. It has not been possible for me to extract it”.

I took the young man by the hand and I examined his throat carefully. Indeed, it was difficult to extract this small obstacle because he had difficulty breathing properly.

In the surrounding area, there was a fence and tied to it was a lively donkey. I took the young man by the hand, guided him walking backwards to the rear of the donkey, and told him to try to pull the donkey’s tail. That he did. The donkey become annoyed and kicked the back of the young man who was startled and in fear walked a few steps forward, dislodging the small obstacle from his throat.

My friends, I have noticed other similar cases in this category. When Man is startled and in fear, his whole body recoils and expands. Thus, at the moment of expansion - by being startled - the small bone that caused the blockage, which to a certain degree obstructed his breathing, was propelled out.

Afterwards I turned towards the young person and said, “From time to time, my dear, even animals become expert assistants of doctors. Be careful and be kind to them because these entities are very useful in our lives”.

I advise all of you to bear this small episode in mind because observation has great significance in your knowledge. Through it you are able to avoid many bad situations that you could encounter.

I was famous for My observations, without this affecting Me, and I could teach My students so they could benefit from it.

I advise all of you to bear this small episode in mind because observation has great significance in your knowledge. Through it you are able to avoid many bad situations that you could encounter.

### **The number one physical enemy of mankind**

PHARAH: Symbolically the **mosquito** is the male and female of Creation. The male is harmless whereas the female is the one that transmits the illnesses. The female is the transmitter of microbes. Its organism resists and it lives. The male dies if he copulates with the female.

---

[20:15]  
{26 May 1962}

**mosquito** (from the Spanish or Portuguese word for little fly) is a common insect in the family Culicidae Mosquitoes and have

This insect exists in order to bring balance on a small scale through the transmission of illnesses to Man. I say small scale because at other times the percentage is great.

Malaria is not the only transmittable disease, there are many others that you do not suspect. This insect sits on one type of microbe and then afterwards on another; the combination of these two creates yet another microbe much more harmful and dangerous to Man.

Usually the examination and research on mosquitoes are carried out in swampy areas and not in towns, far away from rampant swamps. That is why the diseases that scourge humanity have not been discovered.

In time, I will tell you which illnesses the mosquito is able to carry. The mosquito is your number one enemy.

---

#### Therapeutic directions: diet

HIPPOCRATES: Because your food contains many poisons, as soon as those suffering from **rheumatism or arteriosclerosis** realise it, they ought to maintain an appropriate diet for a reasonable time.

Avoid white bread because this is preserved through the use of harmful chemicals.

Whilst you are eating at the table, avoid water. You are able to have it after ten (10) minutes. There is a very an important reason for Me to say this.

Fruits facilitate your digestion. Milk is also a healthy food, and in only a very few cases of illnesses should it be avoided. Generally, it is an excellent food when it is not synthetic.

Assuming that you dine about seven or eight o'clock in the evening, at about eleven o'clock you are able to take two tablespoons of cod liver oil. I refer to the above illnesses. This does not increase your weight. It revitalises the tubes of your body and cleanses them of toxic substances. A bottle or two is sufficient. It depends on the length of the illness. The improvement in your situation will be very obvious. Many people will regain their health. Stay away from alcoholic drinks, fried foods, savouries and foods that are heavy on the stomach. White flesh fish (non fatty).

These are the first steps for those who seek their health and cannot find it in spite of all the actions by your doctors and other related instructions that they give you. Later on I will speak in more detail on this subject and I will explain what happens and why.

I give you this diet. It is best to get used to being moderate and not to say "it doesn't matter, we only live once, let me enjoy my life and do as I please...". Only those who do not have a sharp spirit and a robust willpower will utter such phrases.

*mouthparts that are adapted for piercing the skin of plants and animals. While males typically feed on nectar and plant juices, the female needs to obtain nutrients from a "blood meal" before she can produce eggs. There are about 3,500 species of mosquitoes that are found throughout the world. In some species of mosquito, the females feed on humans, and are therefore carriers for a number of infectious diseases affecting millions of people.*

& {15 May 1975}*

*From: MedicineNet.com:  
**rheumatism:** is an older term, used to describe any of a number of painful conditions of muscles, tendons, joints, and bones. Rheumatism conditions have been classified as either localized, regional, or generalized. Localized rheumatic conditions include Bursitis and tendinitis. Regional rheumatic conditions include chest wall pain, temporomandibular joint pain, and myofascial pain syndromes.  
**arteriosclerosis:**hardening and thickening of the walls of the arteries. Arteriosclerosis can occur because of fatty deposits on the inner lining of arteries (atherosclerosis), calcification*

HIPPOCRATES: My dear children, many of you have requested if it would be possible to be given a diet.

My dear ones, Man, when he is very healthy does not need a diet, but he should eat moderately and his food should not be continuously heavy on his stomach.

I have recommended special diets to some. This depends on the illness that they have, their weakness and their stupidity. Because irrespective of what diet I give, to a moron it will be useless! I will give special diets only to those who are able to follow them systematically and who will not do what one person or another tells them.

When you go to a specialist dietician, please do not forget to ask the Spiritual World, since It works for you, directs you and guides you in the correctness and need for your food.

Generally, there is not a common diet for all. Bear this in mind. I wish all of you to be healthy and not to need a dietician, with moderation as your basis.

HIPPOCRATES: My brethren, Man needs two elements to live on Earth: water and bread.

I do not mention the need to breathe because this is not food for the body. The water, my dear, is the Heavenly Teaching, and the bread is the cure of the illnesses.

Therefore, try to combine water and bread in their metaphorical meaning so that within the measure of everything you find both spiritual as well as physical health. Because, if you are ill, it is difficult for your spirit to be calm and understand the meaning of Heaven as it is, and not as Man explains it.

If your spirit at the command of something that attracts you, goes backwards, then your spirit is subjugated to matter and the body to illnesses; and without thinking, you seek Our help. But because you ignore everything and you do not perceive what is happening, depending on your heart, the Spiritual World intervenes and helps where there is need.

But if your heart is hard, like iron, do not expect Our help. Because light dissolves darkness, and We are not darkness to cover the light. Light cannot be covered; but darkness can be dissolved.

Those who understand the language of the Spiritual World will be able to discuss what We say and find correctness in the logic of Our Work.

I am not only a doctor, because when I consider Man I suffer like him and I try through my radiations to act on his ethical sadness because

it is possible that this ethical sadness weakens him and brings him to the edge of death. As you perceive I do not only operate as a doctor, but as a saviour of those who suffer, the lost and the wronged.

### How the invisible forces act

PHARAH: Brothers, in the Spiritual World there are many and diverse scientists that if they went to the platter of balance that is in favour of Good, it would be natural for them to have a better position according to their inclination and they would be continuously enlightened by Our Authorities.

For such scientists, if they have been doctors (on Earth), while in Heaven they are occupied with the astral body of entities. They study the mysteries of each individual entity from the point of view of its astral hypostasis. After this specialisation and with permission, they descend to Earth as spirits and practice on earthly bodies. This is so they can attract the attention of people to the Faith of the Spiritual World.

Whatever earthly science is unable to achieve, they condemn the entity's human situation as being incurable. Through the Spiritual World, the energy of specialised mediums or according to their instructions, faithful doctors are able to carry out their duty with the help of Spirits from the Heavenly Kingdom.

Many times your doctor does not have the dexterity to use his tools with conviction in order to save his patient. The uncertainty, the ambiguity of decision whether he is going to succeed in his duty, his nervousness or the inability to delve into the morale of his patient (whose soul strength he is unable to see), all this reduces his success by 50-70%.

The Spiritual Doctor does not hesitate because he knows the "second ego" of the patient, that of his astral body that is hidden. With the name "super-ego", men place the second-ego on the earthly body incorrectly. Therefore, you can understand that the Spiritual Doctor has advantages the earthly one is lacking.

Scientists who accept these cures, continue to disbelieve that truly invisible powers act on the human bodies. For this reason, you see many die in the hands of famous professors.

If A or B should not be saved, because the recall is made by the Spiritual World, then the Spirit of Rebellion intervenes in the spirit of A or B and its surroundings and impedes its healing. There are some who will be saved by the hands of spiritualists.

The Divine Authority has foreseen everything and It has organized everything in such a way that men find themselves faced by an unexplained mystery. Research by the wise is childish in comparison with the pure Faith and devotion of those faithful to the Spiritual World.

*second ego = In this teaching it means the astral body whereas we humans identify it with a second self or a second personality or persona within the same person.*

In the **pathology** Sector, many times the Spirits are able to prepare medications appropriate for the physical cure of the sick. These medications are invisible to your eyes. They come to the hands of the attending doctors with a system of numbers and speed, exactly as a **proscomesis**, but remain at the stage of decomposition so they are invisible. The patient receiving the invisible medication feels its substance because inside him the medications are synthesised.

If science searches and manages to achieve something, it is worthy of praise. But unfortunately, the non-believers have never managed to satisfy humanity.

You have as a tangible example the detestable cancer that has many branches and is different in so many ways that it occupies thousands of scientists with the known stagnant so-called progress. Try the intervention of the Spiritual Doctor to see the miracle. But who dares to have an unshakeable Faith in Our Powers. Only those enlightened and faithful to the medical circle will be able to fight this enemy of humanity.

### The elixir of all illnesses

HIPPOCRATES: My brethren, many times science has tried and continues to try to find the elixir for all illnesses. This is possible in theory but impossible in practice.

But from theory how can we enter the field of practice? This is the question! For many The Spiritual World is only theory, and that is because they do not understand the essential energy of the Divine that acts in practice.

We as the Association of Invisible Doctors will prove what strength, as energy on human life the Spiritual World has. Thus, We have the liquefaction of the Divine Logos as the elixir for all illnesses.

But if Man's body as a container is destroyed, then it is not possible for this container to hold our energies because it leaks. In this situation, the Spiritual World intercedes as the repairer of the container. That is, the Association of Invisible Doctors carries out an operation.

But with the said elixir, We cure the other illnesses, dispositions or ailments as centres of disease production. We will talk about this point again because you first need Enlightenment to be able to understand what is the effect on your earthly needs of the invisible but essential strength of intervention by the Spiritual World.

Because Man is incredibly ungrateful and will attribute Our energies to his earthly energies, We will not accept those who seek Our help and who in the meantime follow the advice of earthly doctors. We will accept those who your science is unable to cure. And those who hesitate if science will prove useful to them and who, with their Faith in Us seek Our help, of course - We will accept those with open arms. For this reason We prefer to appear on rare occasions and

**pathology:** The word pathology is from Greek πάθος, pathos, "passion, suffering"; and -λογία, logia "the study of" i.e. the study and diagnosis of disease. Due to the popularity of many television programs, the word 'pathology' brings up ideas of dead bodies and people in lab coats investigating the cause of suspicious deaths for the police.

NB: in Greece a General Practitioner (GP) is called a pathologist.

**proscomesis** : objects materialisation during séances.

perform miracles so that through the miracle We can attract and strengthen the Faith of the faithful.

The Spiritual World is not the toy of every uneducated and ignorant man who has an ego and opposes the Powers of the Divine. Unfortunately, doctors are perjurers and We are not helping them. You will realise this sooner or later. I say “perjurers” because they gave an oath (the Hippocrates Oath) that they do not uphold. Therefore, they are not honest with their words and are merchants in their actions. The Spiritual World will prove their errors to them, despite the pseudo-education that they have obtained in order to dazzle their brethren.

For so many centuries what progress have they made when they are unable to save one of their brothers and only then do they place their hope in Divinity? And if the subject is saved because it was destined not to die, the attending doctor becomes the saviour of the patient. He forgets that it was he who condemned him to death and his only hope was the Divine salvation.

Irrespective of what your doctors will say, We will silence them with Our proofs, which of course will be received as miracles of an unknown energy (as they would say ...) as they did not have Faith in God or hope in the enormity of Divine Power where it intercedes.

We will start to create miracles. These cases you will gather in a special branch of Divine interventions. The Logos will be converted into a fluid energy and will be given to the body where there is a need.

### Points on the body that correspond to illnesses

The human organism is so complicated in its apparent simplicity, that many times experienced doctors fail in their diagnosis and instead of curing an organ of the body that has become the centre of infection for the whole organism, they turn toward the direction of another organ, being misled by the confusion of their **homeopathy**.

For example, frequently your bad teeth create hidden ‘pus’ that you are not aware of. It is possible for this pus to harm your digestive tract, if this is affected by something else. Also it can harm your stomach if it is weak and can create a centre of disturbance in other parts of your body including your eyesight. The doctor is not able to pinpoint the primary cause.

Every organ of your body differs as to its function; nevertheless, one organ has a relationship with another. To understand this better I can be more allegorical and explain what could happen as a result of centres of infection: If in a given locality a number of institutions are concentrated such as museums, theatres, auditoria, shops etc. a fire erupts in one of them and despite the unconnected differences between the institutions, all are in danger of being burnt if the fire-fighters do not act quickly. The same thing happens in the organs of the body. One is able to harm the other. Therefore, the aim of the

---

[20:109-110]  
{15 Sep 1970}

**homeopathy** = suffering the same symptom.

**homeopathy**: from Greek: *hómoios* = ὅμοιος- "like-" and *pathos*, πάθος = "suffering, passion".

*Unfortunately the word homeopathy today is understood to mean an "alternative to scientific medicine". It is understood to be a therapeutic method which applies the "Law of Similars" and which uses medicinal substances in small doses.*

**NB:**  
*Acupuncture is a system of healing that professes to*

doctor is to locate where is the centre of the fire and act before harm is caused to another organ.

Which are these areas of the body? I clarify below:

1) the brain, 2) the stomach, 3) the abdomen, 4) the kidneys, 5) the liver, 6) the heart, 7) the hypogastrum; 8) the lungs, 9) the circulatory system, 10) the arterial system, 11) the vascular system, 12) the digestive system.

The other parts of the human organism are subject to those stated above, despite the opinion of your doctors, which is different. The reflective situation of your organism misleads you and sometimes your doctor is misled in his diagnosis at the expense of the patient and science.

For science to reach its desired aim through research, it is insufficient to know only the material nature of Man. It must also know the Divine which is much more difficult to understand. Only through It are you able to administer medicine as a Divine or sacred science.

Without a Divine Blessing, you will achieve nothing. When a Divine Blessing grants you life and from the grave you are able to resurrect, it is sufficient that you adopt the Divine Logos and work according to Its directions.

### **Polluted atmosphere**

HIPPOCRATES: I will speak about your atmosphere, your polluted atmosphere.

Firstly, all your edible products are adulterated. No matter how pure they are, they are impregnated with chemical substances that are harmful to your organism and cause the production of a special substance that is absorbed by the spinal cord.

Tell me, who from your doctors has thought of this and who has said it is possible for this to happen? ... But, there are special fibres that transport a dose of this polluted liquid to the cells of the spinal cord and distorts them.

For example: Today there are many patients who have cerebral episodes and science tries to free them from them. With one hand it poisons them and with the other, with the help of medication it tries to bring them back to their original condition. This is a very oxymoronic act!

When the cells are altered, you are not able to save them. There is a way however that is known only in the Spiritual World. That is why when We undertake something We will complete it. But when it is not permitted, then you will say, that it was destined that the patient succumb to this cerebral episode of the illness.

Ask and learn in how many hospitals do such cases exist, so you can

*improve the overall well being of a patient. Health problems are treated by the insertion of fine needles into the body at specific points. Originating in China, these points have been mapped out over two thousand years. Traditional acupuncture is based on ancient Chinese theories of the flow of Qi (energy), also referred to as Chi and Xue (blood) through distinct pathways or meridians that cover the body. Acupuncture, that is the inserting of special needles into acupoints, stimulates and enhances the free flow of Qi, therefore regulating the harmonious balance of the body.*

*[21:158-159]  
{28 Oct 1976}*

be convinced that in these cases the Spiritual World does not enlighten you fully but gives you a push to enable you, by yourselves, as scientists, to find the method to save the souls. When I say souls I mean Man, the living organism.

What happens in men occurs also with four legged animals or birds or some others. Everything depends on the environment and the good or bad atmosphere in which you live.

Science of course progresses with speed but it does so in the wrong direction because it stopped having Faith in its Creator. Consequently when the scientist does not have His Enlightenment he makes mistakes and instead of curing, he poisons.

You can learn this truth as an approximation from the various statistical records held by today's society.

### Cancer

HIPPOCRATES: Despite all the research that is being carried out they will not annihilate cancer because there are forty-two (42) causative agents of this disease that are difficult to separate under a microscope. With various medications, some of these causative agents are eliminated however others remain that are resistant to even the most powerful medications.

Of course, the medication for cancer is as simple as **Columbus' egg**. But no one has thought what it is, because you have distanced yourselves from Divinity and it is not possible for It to enlighten appropriately those who are going to discover the means of attaining a total cure for such a disease that metastasises.

The first medication for a patient who is suffering from any disease, is optimism, that is, his Faith if he has this consciously in his soul - that is, in the flame that moves him and stems from Divinity.

When the scientists are successful, they do not pay attention to Divinity but to their spirit. And when their spirit cannot guide them in how to correctly find the point that is causing the bodily harm without being able to improve their situation, they then start to think about Divinity as their saviour from the illness.

HIPPOCRATES: Science labours to find the simple method for the salvation of men who suffer from incurable diseases. They walk in the darkness thinking that they are going forward and give the hope that very soon they will conquer cancer.

It is obvious that they do not know that there are forty-two types of causative agents as I said previously. The weaker ones, if a correct conduction is carried out, not by mechanical means (because then the causative agents are strengthened at the expense of the therapy) then they are cured. And it is so simple!

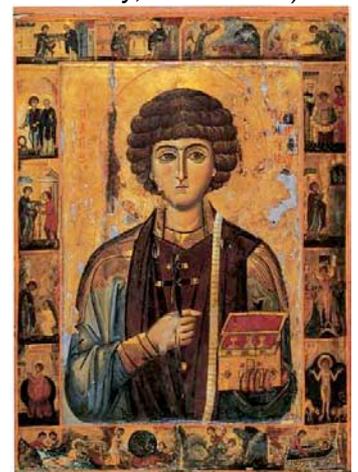

Unfortunately, I do not have permission to give you the therapeutic

[21:166-167] and [21:209-210] and [20:240-241]

*The current prevailing scientific thought is that cancer is neither a bacteria nor a virus. Cancer is the result of genetic mutations within the body's own cells. The mutated cells do not function as they should, but still consume nutrients, water, and oxygen.*

*An egg of Columbus or **Columbus' egg** refers to a brilliant idea or discovery that seems simple or easy after the fact.*

method. But it is possible for Me to cure some patients if They allow Me. Cancer is a kind of punishment. Let us assume that you have conquered cancer then a worse illness will appear. I feel sorry for you, that you have the medication in front of your eyes and you do not realise it!

**PANTALEIMON:** You yourselves through malice, cruelty and bad practices for easy enrichment, create food unfit for your organism. Since it is you who give life and action to this illness what are you asking from Us? You are the cause of this evil; and those causing evil are punished by their own self.

You will ask me: Of what are the innocent guilty, when the guilty prosper at the expense of the many?

You ignore the reason for their suffering and also you ignore the reason for the guilty prospering. The prosperity of the guilty is the death of their soul. And the pain of the innocent is the resurrection of their soul.

### **Open your inner eye**

HIPPOCRATES: The Lord, apart from all His Teachings also cured many sufferers.

Not being able to give examples of His actions openly, He created My Association so that His radiation will continue to benefit humanity, without being seen.

Believe in Him so you can see the True Light and with this the energies of this God-Man, who today is not considered to be God-Man, but God.

I had to make this small report so that through self-concentration it may be possible for you to open your inner eye and perceive the Heavenly words.

### **English translation of the original ancient Greek oath:** (by editor and translator)

I swear by Apollo the physician and Asclepius, and Hygeia, and Panacea, and to all gods and goddesses calling their witness that I will accomplish to my ability and judgment my oath here written –

To consider who taught me this art as equal to my parents and to share my life, and to relieve his needs if required; and to consider his offspring as equal to my own brothers and to teach them

this art, if they need to learn it, without fee or stipulation, I will impart all knowledge of the art as to my own sons, and to those of my teachers and disciples bound by a stipulation and oath according to the law of medicine, but to no one else.

I will make use of diets for their benefit, doing this according to my strength and judgment without harm and injustice.

I will give no drug that causes death to any one requesting it, nor will I give advice for the same purpose; similarly I will not give a pessary to produce abortion.

To maintain my life and my art pure and sacred.

I will not cut any one who suffers from stones. I will leave this work to be done by specialists.

And in any house I come into, I enter for the benefit of the sufferers, avoiding any intentional injustice and corruption, and all sexual pleasures with women bodies or men, free or slave.

And if during the course of therapy I see or hear, or outside the treatment according to the life of men, which must not spread outside, I will keep to myself because I believe these things must not be spoken.

If I keep my oath and do not violate it, I may it be granted life and the art be honoured by all men for all time to come; If I transgress let the opposite happen.

---

*A modern version of the traditional oath was written in 1964 by Dr. Louis Lasagna, former Principal of the Sackler School of Graduate Biomedical Sciences and Academic Dean of the School of Medicine at Tufts University (USA): "The Hippocratic Oath: Modern version" Doctor's Diaries. WGBH Educational Foundation Doctors' Diaries. This is an oath, with variations, used by some universities both in the USA and Australia.*

I swear to fulfill, to the best of my ability and judgment, this covenant:

I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow.

I will apply, for the benefit of the sick, all measures [that] are required, avoiding those twin traps of overtreatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug.

I will not be ashamed to say "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. If it is given me to save a life, all thanks. But it may also be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being,

whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure.

I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.

---

*This is an example of a modern Hippocratic Oath as used today, with small variations, for example by Duke University (2010) and the University of North Carolina schools of Medicine and others. Some universities have abolished the Oath.*

I do solemnly swear by all I hold most sacred:

- that I will be loyal to the profession of medicine and just to its members
- that I will lead my life and practice my art with virtue and honor
- that into whatsoever home I shall enter it shall be for the good of the sick and the well by the utmost of my power and that I will hold myself aloof from wrong and from corruption and from the tempting of others to vice
- that I will exercise my art solely for the benefit of my patients, the relief of suffering, the prevention of disease and promotion of health, and I will give no drug and perform no act for an immoral purpose
- that in the treatment of the sick, I will consider their well-being to be of a greater importance than their ability to compensate my services
- that what I may see or hear in the course of treatment or even outside the treatment in regard to the lives of persons which is not fitting to be spoken, I will keep inviolably secret
- that I will commit myself to a lifetime of continued learning of the art and science of medicine

These things I do promise and in proportion as I am faithful to this oath, may happiness and good repute be ever mine, but should I trespass and violate this oath, may the reverse be my lot.
